**A Unique Opportunity...**

Bright Future
Little more than three years old, QUALCOMM is already a leader in the design of State-of-the-art Digital Communications Systems. The company has 220 employees and has a broad base of projects. The rapidly growing backlog of business will ensure stable employment opportunities for over 200 people for a career in a new start-up. We are looking for talented, intelligent individuals. Opportunities include:

- Software Design
- Communications
- Digital Signal Processing
- Digital Circuit Design
- Analog/RF Circuit Design
- Analog/Analog VLSI Design

Proven Team
Two of the founders of QUALCOMM, Dr. Irwin M. Jacobs and Dr. Andrew Viterbi are internationally known in the communications community, are MIT graduates and were co-founders of LINKABIT Corporation. QUALCOMM now consists of over 220 people, many of whom have collaborated closely in the past in the data communications field.

Financial Rewards
The possibility for Equity Participation in a start-up company but without the typical financial sacrifice such opportunities usually entail. Additionally, a full range of fringe benefits including medical and dental insurance, liberal sick leave and vacation policy, and a qualified 401(k) plan.

**Qualcomm International, Inc.**

QUALCOMM International, Inc., a new, high-technology company that designs and markets Digital Communications Components and Digital Television Systems, is committed to a dynamic growth strategy in the communications field. QUALCOMM's headquarters are located at One Qualcomm Drive, San Diego, California 92121. For more information, please contact QUALCOMM at (619) 655-1900.

**Location**
San Diego, California, in close proximity to the University of California at San Diego (UCSD) campus, Torrey Pines State Natural Park, the Pacific Ocean, La Jolla, and only minutes away from a host of recreational and cultural opportunities.

See Us at the Placement Office on
Thursday, March 23 or Friday, March 24.
