Finally, a place where kids are encouraged to listen to music and stare at the ceiling.

It's Laserium 89, a spectacular new Laserium light show in the Hayden Planetarium at the Museum of Science. You'll hear all your favorite stars of the 89s like Talking Heads, U2, REM and more. And you'll see an intensely colorful laser show soar across the sky. Don't miss Laserman 89, it's a rock and laser show of astronomical proportions.

Daily shows April 1-May 15, 1989, 10:45 am and 1:45 pm. Museum of Science, 700 Boylston Street. Call 222-4422 for advance tickets. $4.50.
