Richard de Neufville '60, professor in the School of Engineering, will be the marshal of the Faculty Division. Robert L. Mitchell '47, corporate director and retired vice chairman of the Celanese Corporation, will lead the Corporate Division; Dean for Student Affairs Shirley M. McElroy will lead the Graduate Division. Student marshals will be Class of 1989 President Carlisa G. Climaco, Class of 1989 Secretary Alison R. Miyamoto, and Graduate Student Council President Scott Y. Peng.

Paradise will deliver the invocation after the opening of the graduation exercises. Following Tsongas's address, Peng will give a salute to the graduate student body, Climaco will present Gray with the Class of 1989 gift (a scholarship fund), and Gray will deliver the charge to the graduates.

Fever papers allowed

This year the only piece of literature that will be distributed in Kendall Square will be the commencement booklet. The Commencement Committee has prohibited distribution of all other pieces of literature, including The Tech, in the court to avoid a possible litter problem.

Mary L. Morrissey, executive officer for commencement, explained that so many groups were planning to distribute that it would have been unfair to choose among them.

"Made in America provides the surest way of building back the American economy," Diamond said. "It provides the surest way of producing a skilled work force that can help the U.S. regain its position as the world's leading industrial nation."

"Made in America provides a thorough analysis of the industrial problems facing our society and its recommendations could certainly help the U.S. regain its position as the world's leading industrial nation," a MIT alumnus said.
