**Women's volleyball record at 16-4**

Sports Update

**Volleyball continues to shine**

The women's volleyball team is currently 16-4 after easy 3-0 wins over Wellesley and Babson. This fact has propelled the team to a number three ranking in New England Division III play. Captain Cecilia Warzynski '90 was recently named to the All-Tournament team for her play in the Salem State and Eastern State University Invitational. Teammate Jenny Harris '90 joined her on the All-Tournament team in the latter invitational.

Crew ready for Head of the Charles regatta

The lightweight crew team recently placed fifth in the Head of the Ohio regatta in Pittsburgh, won by the US Olympic Team. The team finished the race in 17:55. The top runners of the event were the men's and women's crews who will participate in this regatta.

**Football continues to be ranked**

The football team continues to be ranked 15th in the latest New England Division III poll, despite last week's loss. Quarterback Tim Day '89 became MIT's all-time passing yardage leader last week, and added to the career touchdown mark which he already possessed. Day, Shane LaHouse '90, and Garret Moore '91 - MIT's "Rocket Backfield" - have all been named to the Eastern College Athletic Conference New England Division III honor roll at various times this season, with Day and LaHouse being Eastern Collegiate Football Conference Offensive Players of the Week. Defensive tackle Mike Ahrens '90 has also been previously named ECFC Defensive Player of the Week.

**Absence of top runner hurts cross country at MAIAW meet**

By Theresa Fuentes

The women's cross country team was unable to defend their Massachusetts Association of Intercollegiate Athletics for Women title this past weekend at Gordon College. Simmons College finished first with 41 points, followed by WPI with 44, and then the Engineers with 55 points. The women also lost their Wellesley Invitational title to Simmons last week.

MIT suffered heavily from the absence of one of their top runners, Kristen Nummerdor '93. Nummerdor had been running third on the team, but had been bothered by a bad back the past week and did not run on Saturday. If Nummerdor had run, coach Chris Lane believed that the women could have won the title.

The Beavers have consistently run tighter races than Simmons or WPI, placing their top five finishers before the fifth finisher of the other teams. But with Nummerdor missing, this was not the case on Saturday. This is not a new problem, as it has been difficult keeping the top runners healthy all season.

In order to compete with top rivals WPI and Simmons, the team needs to be running at its best. The Beavers had been defeated by WPI at the Engineers' Cup Invitational, the first meet of the season by a small margin. Dena Novak of Simmons won the meet in a fast 17:55. The top runners for the Beavers were Chris Goh '92 in fifth place, Theresa Fuentes '91 in sixth, Gabrielle Rocap '92 in tenth, Amy Rowestead '92 in 12th, and Stacy Holender '92 in 23rd place. This meet also marked the return of Shundra Day '91, who had been out all season with a back injury. Goh, Fuentes, and Rocap were all named to the All-MAIAW Team based on these performances.

**GO TO MEDICAL SCHOOL**

Find out how you can have your medical school tuition, required books and fees paid in full—plus earn more than $700 a month while you attend school. Clip and mail the coupon below, and we'll send you full details on the Armed Forces Health Professions Scholarship Program. We'll tell you how you could qualify for a Physician's Scholarship from the Army, Navy or Air Force.

If selected, you'll not only beat the high cost of medical school, you'll also gain valuable medical experience serving on active duty 45 days each school year as a commissioned officer in the Reserve. After graduation, you'll serve three years or more—depending on the Service you select and the level of scholarship assistance you receive—as a respected Armed Forces physician. You'll also get good pay, regular hours, great benefits and the chance to work with a variety of patients and the latest medical technology.

If you meet the age requirements noted below for the Service of your choice—and want to cut the expense of medical school—send for more information today.
