As Northeastern meet looms, Engineers crush CG and Colby

(Continued from page 16) in the poll vault at 12'-9". and Ted Manning '99, with a first in the SMR, in 9:06.92.

Head coach Gordon Kelly and assistant Halston Taylor have been playing down Friday's meet against Northeastern, but it is apparent that MIT is nothing if not absolute serious in its preparation for the meet, the team's stiffest regular-season test in recent memory.

"It's the most intense dual meet that I'm likely to be in," said Dunzo about the Northeastern-MIT matchup. "That's been the hardest curriculum all season, said the junior, who has become one of Boston's top-quarter-milers, second-only, perhaps, to teammate Makatiani. MIT is a decided underdog against Northeastern, but may have a surprise in store for the Huskies.

"We've worked real hard for two weeks in a row with the intensity," said Taylor, "of taking this week relatively easy, in order to rest.

And so, the Engineers rest and prepare. They are setting wolf traps along the rubber lanes of the Johnson Athletics Center. The chips are on the table Friday evening.

Indoor Track vs. Coast Guard Academy and Colby College at the Johnson Athletics Center, Jan. 13, 1990

High jump - 1. Moses, MIT, 6'2'-4"; 2. Washington, MIT, 6'-2"; 3. Ziolkowski, CGA, 6'-1-1/2; 4. Bender, CGA, 5'-9".

Pole vault - 1. Sisson, MIT, 14'-0"; 2. Moses, MIT, 12'-0"; 3. Loomis, CGA, 12'-10"; 4. Peltier, MIT, 12'-11-1/4".

Triple jump - 1. Feiler, CGA, 44'-6-1/2"; 2. Sisson, MIT, 43'-5-1/2"; 3. Ranen, MIT, 42'-8-1/4"; 4. Townsend, MIT, 42'-7-1/2".

MIT skydiving captures first in one event, while captain places

(Continued from page 16) for a 6-on-3T advantage with few by Wentworth (who pulled their nemesis with 3:30 remaining for a 6-0-3-2 advantage with Bates and Osby in the penalty box) almost proved the undoing of the Engineers. But Wentworth could muster no more than five goals during the period, leaving it at 1-1-9.

The Engineers will have a difficult time wrestling the trophy from WPI in the championship game one of one of Boston's top-quarter-milers, second-only, perhaps, to teammate Makatiani. MIT is a decided underdog against Northeastern, but may have a surprise in store for the Huskies.

"We've worked real hard for two weeks in a row with the intensity," said Taylor, "of taking this week relatively easy, in order to rest.

And so, the Engineers rest and prepare. They are setting wolf traps along the rubber lanes of the Johnson Athletics Center. The chips are on the table Friday evening.

Each week we will sample and rate a new food. Learn some interesting facts & fiction about each food selection.
