So You're Good in Math... If you have a strong math aptitude and a business orientation, (math major not required) the actuarial profession offers unlimited career potential.

The Equitable, a financial giant, is the third largest US life insurance company. As a member of Actuarial Development Program, your job skills will be developed through a series of varied job assignments and continued formal education.

A unique work-study summer internship is also available (housing assistance provided for out-of-towners).

To learn more, come to our presentation on October 18 at 4 p.m. in Room 310 of the Harvard Science Center.

and those who have experience building complex computer systems
to attend a presentation and discussion of

SYSTEMS CONSULTING OPPORTUNITIES

Thursday, October 18, 1990
7 pm
Room 4-145

McKinsey & Company is an international consulting firm which specializes in problem
solving for a broad range of prestigious corporations and, in a much lesser extent,
non-military governmental institutions. Founded in 1926, McKinsey & Company now
has 45 offices in 21 countries.

The Cambridge Systems Center was founded in 1984 to provide McKinsey offices
around the world with the most advanced computer and networking technology.
Our work covers a broad spectrum of activities, from hands-on prototyping to creating
computer simulations to help solve problems in software and networking technology. We
are not looking for people interested in general business consulting; rather, we seek
those who wish to apply their rigorous technical skills to real-world situations.

McKinsey & Company, Inc. is an
