KOENEMAN CAPITAL MANAGEMENT  
(Based in Singapore)

KOENEMAN Capital Management is an innovative research-driven international investment manager that manages funds for institutional clients globally and in the Asian region. The company is a licensed investment advisor located in Singapore.

Programmer/System Analyst Position

The successful candidate reports to the Director, Investment Technology, who directs the firm's investment technology research programmes.

The person hired will be part of a team developing leading-edge software systems for the investment management business through the application of state-of-the-art artificial intelligence, statistics and advanced graphics.

The candidate must have outstanding programming skills. Programming experience in C and Pascal, both on PC-based and Unix workstations, and a sound background in statistics and mathematics would be an advantage.

Economist Position

The economist will report to the Director, International Economics, who is responsible for providing the Company’s investment management strategy.

The position involves macro economic research using conventional economic analysis as well as advanced statistical and computer modelling tools.

The candidate must have good communication skills, both written and verbal, and the ability to bring economic knowledge to bear on investment decisions. A strong working knowledge of the Asian economies and, ideally, of the international economy would be a major advantage.

New graduates with good academic qualifications are encouraged to apply.

A competitive salary and participation in the Company's profit sharing plan will be offered. Nationals of Singapore, Malaysia, Indonesia, and the South-East Asian region are preferred.

Interviews will be conducted in the Boston area in the third week of June, or in Singapore from the fourth week of June. Interested candidates can phone collect:
