Coop book prices are competitive for area

(Continued from page 1)

The Coop normally sells used textbooks, when they are available, for 75 percent of the current price, unless the book is damaged. In addition, all new paperback books are discounted by 10 percent throughout the term, Sanders said.

Camps book exchanges may offer lower prices

Alpha Pi Omega will run a book exchange next week, beginning on Registration Day, in room 400 of the Julius A. Stratton '23 Student Center. Students interested in selling textbooks or other books, are encouraged to drop them off, along with the price for which they are willing to sell the book, explained APO brother Kathleen Mahoney '92.

Prices drop on the last two days of the sale, and those books which are unsold at the end of the week are donated to charity, she said.

Books sold at the APO Book Exchange are typically sold for between 25 percent and 75 percent of the cover price, said Richard A. Hartley '93, another APO brother.

According to APO records, less than half of the books for sale at the book exchange will be textbooks. Of the textbooks mentioned above, only one copy is for sale so far—a Simmons Calculus text for $35.00.

The Technology Community Association will also sponsor a book exchange next week, but organizers could not be reached for comment.
