**NIH to Develop Plan to Take It Into the Next Century**

By The National Institutes of Health will for the first time in its history to develop a long-range plan that its directors say will take the nation’s premier biomedical research facility into the next century. "The NIH has never set out in a conscious way to determine "how it sees its future," NIH Director Bernadine Healy told a group of reporters yesterday. The agency will hold public hearings around the country to gather input from outside investigators funded by NIH as well as scientists from the 13 institutes the NIH runs.
