We Salute All the Brilliant Authors at M.I.T.

It's an inspiration to be surrounded by such gifted authors as those associated with M.I.T. These featured books just hint at the full extent of the work and the dedication to education and research found at M.I.T. These titles span an academic range of newly released titles. But there are many more works by distinguished M.I.T. authors to be found at The Coop.

**Transforming Organizations**
Edited by Thomas Kochan & Michael Useem
This book explores the integration of work from a research team at M.I.T. and industry including Lester Thurow, Edgar Schein, Rebecca Henderson, Lois Leader, Michael Smith, Morton, H. Kent Bowen, Michael Porter, Edward E. Roberts, and many other faculty members associated with the Sloan School. It examines how organizations can compete in a world economy. Reg $29.95

Published by Oxford University Press, 1991

**Meaning in Life**
The Creation of Value
Irving Singer
Prof. Laureate, Richard Wilbur, had this to say in his review of this fine book, "Irving Singer addresses a major human concern in plain English, continually grounding his argument in everyday experience...the flavor of this book is inquiring rather than unctuous, and many of us will find it truly clarifying." Reg $19.95
Coop Price $17.95
Published by Free Press, 1992

**X Window System**
This is the complete reference to Xlib - C language X interface, X protocol, ICCCM (interclient communications conventions manual), and X logical font description, 3rd edition release 5. There are numerous important contributions to the X windows system by faculty and staff of MIT and MIT Project Athena that bring clarity to the new material featured in this volume - device independent color support, internationalization support, new resource manager functions, and scalable fonts. Reg $85
Coop Price $49.50
Published by Digital Press, 1992

**Entrepreneurs in High Technology**
By Edward E. Roberts
This award winning book is about the start up companies "driven by the spirit of entrepreneurship" that were founded by people associated with M.I.T. It is an analysis of performance of these companies by consideration of others wishing to initiate successful high tech business ventures. Reg $29.95
Coop Price $25.16
Published by Oxford University Press, 1991

**Governing the Market**
By Robert Miller
This book focuses on Taiwan, with comparisons to Korea, Japan and Hong Kong, on how the economic policy in East Asia developed. The Economist wrote: "Governing the Market demonstrates East Asia's miracle without making it seem any less remarkable." The author is a visiting professor of Government and International Management at the Sloan School. Reg $38.95
Coop Price $17.05
Published by Princeton University Press, 1992

**MIT: Shaping the Future**
Edited by Thomas Kochan & Michael Useem
A collection of 16 essays by the faculty and staff of MIT that trace a view of the institute and possible directions for its future. Also included are personal reflections on teaching, on women students at the Institute, and on the missions of MIT. The book also includes President Voss's own vision of the future, as outlined in his inaugural address. Reg $39.95
Coop Price $8.96
Published by MIT Press, 1991

**From the Retina to the Neocortex**
Edited by Lucia M. Vaina
In 1973, David Marr came to the AI Lab at MIT to explore a computational approach to vision. This book brings together many early papers on neural networks underlying the function of the cerebral cortex, and his contributions to neuroscience and model building. It also contains many fond remembrances of David and the energy and spirit that he shared with his many colleagues at MIT. Reg $59
Coop Price $44.10
Published by Springer Verlag, 1991
