UROP
MIT Laboratory for Computer Science
UROP Summer Studies Program, 1992

This summer program is intended for undergraduate students who are interested in participating in research projects in the Laboratory for Computer Science. Although no prior experience in finance is necessary, pay under this UROP Summer Studies Program is commensurate with experience, and the program is open to all undergraduates not currently or formerly associated with the Laboratory. Students are expected to continue work in the fall semester (either for credit or for pay). We hope to identify creative and energetic undergraduate students interested in computer science and to encourage their development. An information meeting will be held:

Friday, April 28, 1992, NE43-518 4:00 pm.
If you are unable to attend but are still interested in the program, send e-mail to leonard@mit.edu.

There are hundreds of questions on the GMAT, GRE and LSAT.
This checklist will help you answer all of them.

- Kaplan makes test prep convenient.
  With 150 centers and thousands of class schedules, the odds are we'll be ready to teach when and where you need us to be there.

- Kaplan helps you manage your time.
  Diagnostic tests and personalized counseling help you catch stumbling blocks early on, before they hurt your performance.

- Kaplan offers the best value.
  Our courses are competitively priced and offer the complete preparation that has helped more students get into the school of their choice than anyone else.

- Kaplan is the industry leader.
  33 years of experience and 2 million graduates prove we've got the expertise and resources it takes to help students succeed.
