It's also hard to believe that you get free software when you buy HP 48 calculators.

There's a lot more than a great calculator waiting for you when you purchase an HP-48SX or an HP-48S between June 1, 1992, and October 31, 1992. You'll get a bonus book that's good for free software, a free PC link cable and hundreds of dollars back on applications—like electrical and mechanical engineering—memory cards, training tools, games, and HP's infrared printer.

There's a really big offer. Worth more than $500. And it's going to make your HP-49 calculator even more valuable to you. The free serial cable lets you exchange information with your PC. And the free software disk lets you enter and plot equations easily. Do 3D plotting and analyze polynomials.

Beyond all the bonuses, you'll have the best calculator for your most challenging classes. HP-49 calculators contain 2100 built-in functions and offer a unique combination of graphing and numeric data manipulation.

Head over to the campus bookstore now. After all, you don't own this kind of deal every day. HP calculators. The best for your success.
