Safe Ride Program to Double

A Safe Ride, from Page 1

Also, maintenance costs will proba-

bly add another $50,900 to expenses

that has not been budgeted, Immerman

said.

A year and a half ago, "when we

first looked at the kind of project

that might be needed, the expense

was enormous," Immerman said.

With no experience, it was prudent

to see how the project evolved as

program coordinators gained expe-

rience and experience, he added.

As A Safe Ride continues to

grow, it will reach "a point where

it doesn't make sense for MIT to

operate it," Immerman said. When

this happens, MIT may decide to

hire an outside contractor with larg-

er vehicles.

The Office of the Dean for Un-
dergraduate Education and Student

Affairs, Campus Police, and Faculty

and Student representatives, among

others, make up the Institute's

standing Committee on Safety.

The ad hoc committee's recom-

mendations were presented to

Senior Vice President William R.

Dickson '56, who considered them

when reporting to President Charles

M. Vest and Provost Mark S.

Wrightman.

In addition to representatives

from ODUESA and Campus Police,

the ad hoc committee included rep-

resentatives from Telecommunica-

tions Systems, Physical Plant, and

the Department of Housing and

Food Services, who specifically

advise the standing committee on

the issues of emergency telephones

and lighting.

NOTICES

LISTINGS

Student activities, administrative offices,

academic departments, and other groups

—or any one off the MIT campus — can

list meetings, activities, and other

announcements in the Tech's "Notices" section. Send items of interest by electro-

nic mail to notices@techmail.mit.edu. Items may also be sent typed and double-

spaced (10 pt) via Institute mail to

Julie at 225-8338.

October 26

Simmons College will hold its annual

Writing Conference entitled "The Brave

Draft" presented by Dorothy Z Primas,

founding and senior research associate

at the Center for Science and Inter-

national Affairs at the Harvard School of

Government at Harvard, at 4:30 p.m.

in the Tuomey Art Gallery, Simmons

College. The conference is free and open to the public. For more information, please call 796-2124.

MIT's Environmental Engineering Education

and Research will be sponsoring a Center

for Talented Youth Environmental Studies

Day at MIT. The day long program will

focus on showing eighth and ninth grade

students the careers available to them if

they continue in math and sciences. If you

would like to volunteer to lead a workshop

session please notify Prof. David Marie

(617) 628-3540 or Prof. Judith Holow

(617) 628-3533.
