Two All-Americans in Track and Field

By Roger Cressey
SPORTS INFORMATION EDITOR

Two MIT athletes returned from last weekend's NCAA track and field championships in Boone, Iowa, with All-America honors. Mike Vavrick of the men's track team and Tanya Moseley of the women's team are the only All-Americans for the MIT track and field program this year.

Mike Vavrick-

The senior distance runner won the 800 and 1500 meters for the fourth consecutive year. Vavrick, who set two American records in those events this season, was 20th in the 5000 meters. His time of 13:48.9 in the 5000 meters is the third fastest ever run by an American for the distance.

Tanya Moseley-

The senior middle-distance runner won the 1500 meters and finished second in the mile, becoming the first MIT athlete to win a national title since 1970. Moseley's 4:16.98 in the 1500 meters is the second-fastest time ever run in the event by an American woman.

The track and field season has ended for the MIT team, and the focus will now turn to the upcoming outdoor track and field season.

Mens' College Hockey

The men's hockey team lost their last two games of the season, falling to Harvard and Yale, respectively. The team finished the season with a record of 10-12-4, and will not make the NCAA tournament.

Women's College Hockey

The women's hockey team advanced to the NCAA tournament, where they were defeated by Michigan in the first round. The team finished the season with a record of 14-11-1.

Alumni Make A Long Trip to Play Hockey

Hockey, Page 16

The second period saw a slowing in pace by both teams, but Foley put the MIIT Alumni ahead at 5:34 of the period, assisted by Keith Silver. Caltech put the game out of reach at 9:37. Maskit closed out the scoring for Caltech, assisted by Jon Holowaty, who had three of the team's five goals. The team's defense was strong, holding the MIIT Alumni to only 12 goals in three games.
