THURSDAY, MARCH 31, 1994

11 AM TO 1 PM

Mezzanine Lounge
(W20, 3rd Floor)

Pizza Pizza Pizza Pizza Pizza Pizza Pizza Pizza

Prudential Securities
Financial Strategies Group Analyst

The growth of new and derivative financial instruments in today's fixed-income markets has motivated the financial-services industry to look to sophisticated analytics and computer models when making trading decisions. Thus competitive Wall-Street firms now boast fixed-income research and quantitative-analysis departments that work with the various sales, trading and investment-banking areas to structure, analyze, issue, trade and sell complex fixed-income products.

Prudential Securities Incorporated is now offering career opportunities to distinguished candidates in its Financial Strategies Group (FSG). FSG, an integral element of the firm's Capital Markets Group, is seeking Analysts with degrees in one of the quantitative/scientific disciplines such as Computer Science, Engineering, Physics, Applied Math, Statistics or Finance. We are not offering training-program positions, but rather full-time career opportunities.

An Analyst's responsibilities might include such activities as analyzing and structuring primary-market transactions using mortgages or other assets as collaterals; marketing new techniques and products for portfolio management, hedging and arbitrage -- such as with futures, options and swaps; conducting research and analyses of the capital markets, with emphasis on the relative value of mortgage securities and on the behavior of all fixed-income instruments.

Please send a cover letter and resume to Mr. Scott Gelber, Prudential Securities Incorporated, One Seaport Plaza, New York, NY 10292.

Prudential Securities Incorporated is An Equal Opportunity Employer.
