Michigan Panel Recommends Legalizing Assisted Suicides

By Edward Walsh

EAST LANSING, Mich.

As the criminal trial of Jack Kevorkian resumed in Detroit, a troubled and deeply divided citizen's commission recommended Monday that Michigan become the first state in the world to legalize physician-assisted suicide.

By a vote of nine to seven with four abstentions, the Michigan Commission on Death and Dying asked the state legislature to authorize the practice but also called for an elaborate set of restrictions to safeguard against abuse.

The draft measure the commission recommended would authorize physician-assisted suicide for people 18 or older who suffer from a "terminal condition" likely to result in death within six months or who suffer from an "invariably suffering condition" involving "subjectively

Elective Bombs Plague S. Africa

By Paul Taylor

JOHANNESBURG, SOUTH AFRICA (AP)

Terrorist bombings swept across several cities Monday, the eve of South Africa's historic elections, and the country's leaders closed ranks to reassure a jittery public that it will be a success.

A car bomb exploded Monday morning at a taxi stand in the predominantly black area of Soweto, just east of here, killing 10 and injuring 40, and Monday night a man tossed a bomb into a bar frequented by whites, injuring 29.

The South African Defense Force said the bars were frequented by whites, injuring 29. The blasts left election officials worried and deeply divided citizens living for the elderly, the disabled, the poor, the unemployed, and around polling stations.

The blasts happened on the eve of the country's first democratic elections, South African citizens living for the elderly, the disabled, the poor, the unemployed, and around polling stations.

As usual, most of the winners were recognized for a combination of traits, including aesthetic excellence, design ingenuity and eco-

economic performance. Mer Rouge Villas, a 33-unit public housing pro-

Project in Mer Rouge, L.A., awarded by the Farmers Home Administra-

tion of the Department of Agriculture, was cited both for "poetic and up-

ification" and for cost-effective construction using off-

the-shelf components.

Upjohn Co. Withheld Crucial Data

On Halcion, FDA Report Says
