Picture Book Cover Called Offensive, Will Be Replaced

By Hyun Soo Kim

At the last minute, President Charles M. Vest and two MIT faculty members were named to a new private-sector committee to advise President Bill Clinton on major science and technology issues.

"It's ideally interacting at the heart of the country and potentially has the possibility of doing really good," Sharp said.

"It worked," James Habyarimana said.

"I definitely like it.""It forced you to speak out and make decisions," said Chris Martin '98.

"It was a lot of fun and a great way to meet new people," said Elise Co '98. MOYA ended just before the end of the year. The participants seemed to share the same as last year, beginning the positive attitude. The exercises were accepted well, Larrier said.
