Light Predicts Outcomes for this Weekend's Games

By Rafael Mejor

The MIT Ultimate Frisbee team opened its '94-'95 season last Fri-
sday night with a convincing 15-9 victory over Brandeis Univer-
sity in Newton. This was a surpri-
singly easy victory for the team which lost several key players from
last year to graduation and knee injuries.

The game was a preseason game for the two teams. Games in the Boston Ultimate conference, which includes MIT, Brandeis, Harvard Uni-
versity, Tufts University, Boston University and Boston Col-
lege, start next week. MIT was only an 8-2 lead on Friday, led by former cap-
tain Ed Hwang '95 and James P.

Sarvis worked the second half, handling the frisbee with Hwang and Sarvis, and throw-
ing most of the goals.

MIT's paces slowed down a bit in the second half when former MIT Captain and current Brandeis coach Mike "Trots" Lawler '93 started playing for the Brandeis team. Lawler got nine blocks in the sec-
ond half, including three in the MIT endzone. But he could only manage to pull Brandeis to within 6 points in the end.

Andrew Kimmel's '94 interception of one of Lawler's passes sealed the victory for MIT. Several players dominate in the se-
cond half, going for the entire game without a turnover. "Our defense through this year is that the starters have played togeth-
er for four years," said Trole.

"Ed has to be one of the top five players in the Northeast, and when we play well, other teams are going to have a tough time stopping us," he said. Lawler said, "MIT is looking better than we've ever seen them. This could be the year they make it to the Nationals. I wish I could transfer back."

MIT's team hasn't advanced to

- n.a. 7 billion dollar culturally diverse international enterprise
- noted for recruiting the brightest engineering and scientific minds from all over the world.
- 24,000 self-motivated, enterprising achievers in over 75 countries, totally committed to excellence.
- A place for self-starters in virtually every scientific and engineering discipline to launch exceptional careers.
