When You’re Considering a Career in Information Technology, Consider One More Thing.

Consider the investment banking firm with opportunities in information technology. Where individuals with this interest work in a department central to the growth and success of nearly every facet of the firm’s global business. Where the skills to develop and maintain state-of-the-art global computer and telecommunications systems are provided through a series of technical and industry-oriented training sessions. Where the talent of each individual is an integral part of the team effort. And consider the firm where those individuals who choose to accept the challenges set before them are given the opportunity to excel both professionally and personally.

In short, consider the Information Technology Department at Goldman Sachs.

INFORMATION SESSION ON WEDNESDAY, OCTOBER 5, 1994
AT 7:00 P.M.
BOSTON MARriott CAMBRIDGE, SALON FOUR

Reception to follow. Please dress casually.

Students majoring in telecommunications, computer science, MIS, math or engineering, or who have taken computer-related courses and have a strong knowledge of "C" language, PC Workstations and LAN are welcome.
