Monty the mouse
sighted in Lobdell

In a dramatic twist to
an already bizarre story,
Monty the mouse
revealed that he is really
an MIT student who
consumed too much
ARA food...

"Apparently, Monty (formerly
Jason Montgomery III, see
below) was forced to eat ARA
food for 10 days when he was
accidentally locked inside
Lobdell during spring break..."

Scientists all over MIT are working
to restore some measure of
humanity to Monty - the hapless
victim of ARA food. We have here
Prof. Molly from Whitehead. She
will share with us some preliminary
results.

Prof. Molly, I believe
you have a picture of
Monty taken just this
morning?

Um... yes. Here...

We had a minor
setback.

Fidelity Management & Research Company
Equity Research Associate Opportunities
for Undergrads

Fidelity's Equity Research Department is very busy these days.
With departmental assets under management totaling more than $136
billion, Fidelity is looking for research associates. The Equity Research Associate will
initially assist an analyst with industry analysis and data in order to gain industry and
corporate knowledge. He or she will then be assigned a group of companies comprising
a subsector of a specific industry and will work closely with the analyst to
analyze stocks, companies, and industries.

Fidelity Investments is committed to creating a diverse and inclusive environment, and proud to be an equal opportunity employer.
