Northwestern College of Chiropractic

is now accepting applications for its next three entering classes. (April 1995, September 1995, January 1996)

General requirements at time of entry include:

* At least 3+ years of undergraduate college in a health science or basic science degree program. (Inquire for a complete list of specific requirements.)
* A minimum GPA of 2.5. (A more competitive GPA is favored.)
* A personal interest in a career as a primary care physician.

Northwestern College of Chiropractic offers a rigorous four year professional education. Our focus on science, diagnosis, chiropractic methods, patient care and research provides our graduates with the tools they need to work as primary care physicians in the health care environment. NCC is fully accredited by North Central Association of Colleges and Schools and the Council on Chiropractic Education.

Women's X-C Places
19th at New England Championships

The women's cross country team placed 19th out of 28 teams from all divisions at the New England Championships at Franklin Park last Saturday.

It was a good day for MIT, better than the result might suggest. The Engineers were eighth among a competitive field of Division III teams, and even beat a few Division I teams, including Northeastern University.

The field was large, with about 200 runners in the race. At the sound of the starting gun, all 200 took off at a fast pace, vying for position as the course quickly narrowed.

The first mile splits were very fast, causing the runners to hang on for the remaining two miles. Most of MIT's athletes did a good job of doing so, keeping a steady pace and running strong on the hills.

John Eisenberg '96 led the team with an excellent performance, finishing 26th with a time of 19 minutes and 10 seconds. Marisa Dello '95 was next for MIT, finishing 86th in 20:16.
