In reply to the audience’s hostili-
ty, Shahak said that Jews who per-
petuated a “denial of common hu-
manity” are “Jewish Nazis.”
Another audience member angrily 
responded to Shahak, “You were
lucky you survived [the Holocaust],
but 6 million Jews didn’t.”
Several others said that Shahak’s use
of the phrase “Jewish Nazis” was disrespec-
tful to the memory of the
Holocaust. Shahak maintained
that “Jews can become Nazis.”

In response to a call, Campus
Police asked one heckler to leave
because he “was disrupting the
event,” according to Campus Police
Lieutenant David A. Carlson. The
person ejected from the event was
not affiliated with MIT, Carlson
said.
The forum will be broadcast on
radio station WMFO 91.5 FM on
Thursday, Nov. 11 from 10 a.m. to
noon and again from 6 to 8 p.m.

The conversion to the new sys-
tem must be conducted carefully
since the information is of critical
importance to the Institute, Ander-
sen said.
The GEAC system will fit in
well with the computing environ-
ment at MIT because it is built on
industry standards such as Unix and
TCP/IP, Anderson said.
The library database contains
about 670,000 cataloging records
that should be easy to convert since
they follow a national pattern,
Anderson said. Records such as
library patron data, acquisition data,
and fund accounting data will be
more difficult to convert, Anderson
said.

This project is a component of the
Distributed Library Initiative
sponsored by the Libraries and IS,
Anderson said. “This program in-
volves many projects which are
focused on providing electronic
information to the MIT communi-
ty,” Anderson said.

What?

Technical Managers will provide information on
career opportunities within General Electric’s
new TECHNICAL LEadership program
(TLP).

This two-year program offers unique on-the-job
experience and formal training in:

- Design and Development
- Manufacturing and Sourcing
- Sales and Service

When and Where?

Tuesday, November 14th, 7-9pm
Building 4, Room 370

What else?

Light refreshments and handouts.

The future is working
at General Electric
