A number of bus companies and a few airlines have opposed the reduced rates for the three years ending by a CAB examiner January 21, upholding their view that the rules have caused catastrophic damage to the bus industry. The CAB has agreed that youth fares are unfairly discriminatory against all passengers, and some routes have agreed. This point was also supported by the examiner in his May decision and was a primary argument of岩户 airlines.

American Airlines, who first intro­ duced youth fares, supplied the Weck with a statement noting that "In the year ending June 30, 1968, more than five million youths saved some $112,000,000 in transportation costs as a result of this form, and Youth fares presently account for almost six percent of all domestic airline travel." Supporters in the industry also argue that revenue from standby ticket sales helps defray costs for all airline pas­ sengers.

Educational advantages for youth have been another point of supporters.
