MindHandHeart expected to improve access to resources

Mental Health and Counseling to offer additional walk-in hours, offer additional counseling in 8-316

By **Kath Xu**
STAFF REPORTER

In a letter sent to the MIT community Tuesday, Chancellor Cynthia Barnhart PhD '88 and MIT Medical Director William Kettyle released a set of planned changes aimed at bolstering the Institute's mental health resources. These changes come as a response to the results of the Healthy Minds Study, a mental health survey that was sent to all MIT undergraduate and graduate students last spring.

Foremost among these changes is the launch of the MindHandHeart Initiative. Barnhart called the initiative "MIT's next step in our continuing process to address mental health issues" in an interview with *The Tech*.

According to the Chancellor, this initiative will fund innovative wellness ideas from the community and help coordinate current mental health services. Barnhart pointed to the Tell Me About Your Day brace-

lets handed out in the spring as an example of an idea or project that would have received funding. Students can apply online at <http://mindhandheart.mit.edu/>, the official website of the MindHandHeart Initiative. The next application cycle closes on Sept. 30.

Chancellor Barnhart said that a committee of students, faculty, and staff will be responsible for selecting which ideas proposed by students will be funded by the initiative. Resources from across campus will be pulled together to provide the funding for these projects.

"The idea here is that we really do need to leverage what is probably our most valuable asset here, and that is our people and their great ideas," Barnhart said.

Other announced changes include an increase in staffing for the MIT Mental Health and Counseling Service (MH&C) and Student Support Services (S3), as well as an additional MH&C location in 8-316. At the new location, students will

have the opportunity to participate in 20 minute "Let's Chat" drop-in consultations. These informal conversations will be kept confidential. A clinician will be available starting Sept. 22, and students may drop by anytime from 1-3 p.m. Tuesdays through Fridays.

MH&C plans to launch an online portal this year for students to chat with trained peers about any of their concerns. To make it easier for students to schedule an appointment, MH&C will add an online appointment request form to the MIT Medical website on Sept. 10. This summer, 32 students were also trained as "Peer Ears" to increase MIT's peer-to-peer support within residence halls.

In the wake of four suicides within the MIT community in the last year, MIT signed on to become a member of the Jed-Clinton Health Matters Campus Program. According to its website, this program helps

Preparations for the East Campus roller coaster continued through Monday evening.

DormCon organizes student-led training for Allied Barton workers

Students were invited to apply to lead trainings for dorm security workers, the first of which is set to take place this afternoon. The trainings, which will focus on "MIT culture and undergraduate needs" are expected to "alleviate past tension with Allied Barton and ... build a better relationship between our student body and the security staff," Kyle S. Saleeby '17, Dormcon Housing Co-Chair, wrote in an email sent to dorm leaders.

A total of four one-hour training sessions are expected to take place (two today and two next Wednesday); Allied Barton has scheduled shifts so that all workers can attend one of the sessions, according to the email.

Saleeby wrote that the presentation will be designed to give desk workers an idea of how ideas like diversity, inclusion, culture, academics, and dorm life fit into student life at MIT.

—William Navarre

IN SHORT

Online registration for fall semester classes is now open! Registration for freshmen must be completed by 5 p.m. on Thursday, Sept. 3. For all other students, complete registration by 5 p.m. on Friday, Sept. 11.

The annual Student Loan Art Program Exhibition and Lottery is open. View the collection at the List Visual Arts Center, and enter the lottery by Sept. 13 to borrow a work from the collection.

LaVerde's has resumed normal hours, and is now open 24 hours a day, every day of the week.

Regular dining hours will resume

Saturday, Sept. 5 across all dorm dining halls. Simmons Late Night will resume service after Labor Day.

Intramural Fall Registration opens Monday, Sept. 7 and closes Wednesday, Sept. 16 at 11:59 p.m. This year, hockey and basketball will be included in this registration block. Visit intramurals.mit.edu to check out which sports are offered and to register!

Student Support Services will hold additional walk-in hours starting Sept. 8. Stop by from 10-11 a.m. and 2-3 p.m. Monday through Friday.

New sorority opens on campus

Sorority will recruit members after formal recruitment

By **Katherine Nazemi**
NEWS EDITOR

This semester, Delta Phi Epsilon will open a new chapter at MIT and become the seventh sorority on campus. Its recruitment will begin after MIT's existing six sororities hold their bid nights.

Lyndsey Karp, Coordinator of New Chapter Development at Delta Phi Epsilon's international headquarters, encouraged potential new members to go through formal recruitment for MIT's existing sororities first.

"If they don't find their right fit through formal recruitment, Delta Phi Epsilon will be recruiting after," she said. "You'll see us tabling on campus and holding information sessions as soon as September 10, and we will be continuing

our recruitment until the end of September."

Recruitment will be run by staff members from Delta Phi Epsilon's headquarters, local alumni and alumni volunteers, and volunteers from chapters in the nearby area. They hope to recruit a chapter "of comparable size to other sororities on campus" — roughly 100 members.

These members will ideally consist not only of freshmen, but upperclassmen as well.

"We'll be offering membership to women of all ages," Karp said. "A lot of times juniors and seniors don't think they can join a sorority, but colonizing a new sorority is the perfect time for older students to get involved."

Delta Phi Epsilon hopes to acquire housing for its future mem-

bers soon. Five of MIT's six (now seven) sororities have houses.

"We are currently exploring options for housing in the area, and we want to have housing for our founding women as soon as possible," Karp said.

Given that MIT is considering options for an on-campus FSILG village, the sorority's current plans to find housing could be disrupted.

"Until that discussion is really serious, we'll be exploring housing similar to the other sororities on campus," Karp said.

If MIT moves forward with the plan, however, Delta Phi Epsilon would "enter the conversation" to determine how to fit the sorority into an on-campus village.

New Sorority, Page 8

Nu Delta fraternity receives IFC sanctions

MIT fraternity Nu Delta faces two sanctions by the Interfraternity Council (IFC) after hosting an unregistered event last Friday that violated Pre-Orientation rules.

Nu Delta has been prohibited from holding "jaunts," or off-campus events, this Sunday, and must also pay a fine of \$1,000 to the IFC by Sept. 30.

Nu Delta is being held re-

sponsible for violating four Pre-Orientation rules and one Risk Management policy. Nu Delta was punished for allowing freshmen into the fraternity house, being near alcohol being served to freshmen, and holding an event during the Pre-Orientation period.

To avoid a potentially costly Judicial Committee hearing, Nu Delta admitted to violating IFC

rules during an administrative resolution meeting with the IFC Risk Manager and IFC Judicial Committee Chairman.

By avoiding a formal hearing, the fraternity may have avoided more severe sanctions: administrative resolutions can often lead to less stringent punishments, Obasi Onuoha '16, vice-president of the IFC, told *The Tech*.

Sorority seeks house despite Institute's Greek village plans

If necessary, will 'enter the conversation' on village

New Sorority, from Page 1

The search for a new sorority began in September 2014, when the MIT Panhellenic Council voted unanimously to open the campus to extension. Delta Phi Epsilon applied to be considered as an addition, presented against two other sororities, and were ultimately selected in mid-March 2015.

According to an email sent out at the time, Delta Phi Epsilon was chosen "because of the close alignment between their values and the values of MIT as well as their strong emphasis on their members and their

development."

"We're a nonsectarian sorority that believes in diversity," Karp said, including "diversity of thought, diversity of background, diversity of what [members] are interested in."

"A lot of our values and our mission would be relevant to any woman at MIT who wanted to develop into the best version of herself, and who wants a supportive group of women who will help her reach her goals."

Delta Phi Epsilon was founded at New York University Law School in 1917. The organization currently has 106 active chapters, includ-

ing one at Concordia University in Canada, making it an international sorority. Notable alumnae include U.S. Senator Barbara Boxer and Judith Rodin, who became the first female president of an Ivy League school during her tenure at the University of Pennsylvania.

The sorority's main philanthropic contributions are to the Delta Phi Epsilon Educational Foundation, the Cystic Fibrosis Foundation, and the National Association of Anorexia Nervosa and Associated Disorders. Its motto is "to be rather than to seem to be," and its mascot is the unicorn.

Mental health program to award grants for projects

Survey found that MIT's 'academic environment' has 'negative impact' on well-being

MindHandHeart, from Page 1

“colleges and universities promote emotional wellbeing and mental health programming, reduce substance abuse, and prevent suicide among their students.”

“This specific initiative was driven by a myriad of things,” Barnhart said. “It is a continuation of our efforts on campus. That’s not to say that last semester wasn’t a really difficult one. One of the things we learned last semester is how

many members of our community really want to help. In that way, it shaped the design of the initiative.”

As part of MIT’s four-year commitment to the program, the Institute administered the Healthy Minds Study. The survey yielded a total response rate of 28 percent. While 17 other universities participated in the study this year, Barnhart said that their names are kept confidential. However, she stated that MIT’s peer schools were included.

The Healthy Minds Study report-

ed that the majority of MIT respondents (77 percent undergraduate, 65 percent graduate) agreed with the statement: “At my school, I feel that the academic environment has a negative impact on students’ mental and emotional well-being.” In contrast, only 36 percent of undergraduate students and 38 percent of graduate students nationally agreed with the statement. An MIT undergraduate student was also considerably more likely to list “I question how serious my needs are” as a bar-

rier to seeking help (49 percent MIT, 34 percent national).

Among other findings, the survey reported that over half of MIT students (54 percent) regularly sleep for eight or more hours each night, while another 27 percent sleep for at least seven. It also found that only 38 percent of MIT students (graduate and undergraduate) exercise for three or more hours each week, whereas more than half of national respondents receive the same amount of exercise.

“What we’re trying to do with the MindHandHeart Initiative is to help students manage stress, manage time, manage MIT,” said Barnhart. “We are working to ensure that our support system is as strong as possible and that students have as positive of an experience at MIT as possible. I think our commitment to this and the general interest of faculty, students, staff — the full community — in working on this problem speaks to the nature of who we are.”

GRANTS FOR ART PROJECTS

All current MIT students, staff and faculty are invited to apply for funding to support art related projects.

Q&A with MIT football coach

Coach talks about excelling at football the MIT way

By Souparno Ghosh
SPORTS EDITOR

SPORTS EDITOR

It was not that long ago that the MIT football team followed a 1-8 season (2010) with a 2-7 season (2011). Since then, the Engineers enjoyed their first winning season (5-4 in 2012) and followed it with a program-record 6-win season in 2013. The rest as we know is history. MIT finished 9-0 in the regular season en route to clinching the New England Football Conference (NEFC) and defeated Husson College to win its maiden NCAA playoff game. As the defending champions seek to extend their dominance, *The Tech* caught up with the mastermind who oversaw the emergence of the MIT football team as a NEFC powerhouse, head coach, Chad Martinovich. Coach Martinovich talked about challenges of recruitment, “life-scheduling,” and an incredible story of how perseverance prevailed in one of the most crucial moments of the season.

The Tech: Hello Coach, thanks for talking to us. You took a team with one and two victories per season to a winning team, then to a team-record 6 wins, and finally to a 9-0 record, winning the NEFC and a playoff game. What would you attribute the success of

the team to?

Coach Martinovich: As the saying goes, it takes a village to raise a child; it takes a village to build a quality football program. A lot of people have worked really hard overall a long period of time for us to get to where we want to be.

That starts with the administration and the support staff around here. I have been very fortunate to have the same core of assistant coaches for 4-5 years now.

We have worked very hard in recruiting and that has gone a long way. We've been fortunate enough to recruit some players in the last 5 to 6 recruiting classes who have been committed to excellence in football just like they are committed to excellence in academic and research. The mentality is very similar to the general MIT mentality, which is whatever you take on whether it is academics or outside academics, you work hard to excel in it. That's what we are trying to do as a football program and we have been fortunate enough to have some success in the last few years and hopefully we can continue to be successful and continue to get better.

TT: How difficult is recruiting keeping in mind the

Radical Rat Studios' 2.5 year production endeavor

This summer, the MIT Student Cable Club (Radical Rat Studios) put out an 11-part web series called Inmost Thoughts.

The plot includes several good examples of using mind reading with good intentions, and producing only mixed or negative results. For example, Vivian employs her device to help push along the romantic interests of her friends — while some parties appreciate the information gleaned from the mind reader, others are not so thrilled. The show also points out that a mind reading device isn't the only way people

looking back,
she had
n o

was getting herself into. She had no filmmaking experience starting out, but has since learned how to prep gear, edit film, sync sound, direct actors, and much more. Initially, the group had the lofty goal of a 50-part series, but reconsidered after

Soon after deciding that the show would be centered around mind reading, the club's writers got to work crafting a plot and casted the show by the end of IAP 2014. The entire series was shot over a densely packed sequence of six day-long shoots, and the scenes were sometimes shot out of order (episode 9 was the first episode they filmed). Coe said that shooting for the first time "felt like when you're telling a story with your friends, remembering a shared experience, and people take turns jumping in and adding details," since the team had already been meticulously pouring over the script.

While Coe will be taking a break from filmmaking next year, MIT Student Cable (Radical Rat Studios) will moving on to new projects including a few short films.

CAMPUS ARTS

A glimpse behind the curtains

Inside the Musical Theatre Guild's fall production of *The 25th Annual Putnam County Spelling Bee*

MTG cast performs a scene from *The 25th Annual Putnam County Spelling Bee* during rehearsal.

By Karleigh Moore
ARTS EDITOR

At the beginning of every fall semester, the MIT Musical Theater Guild (MTG) takes the stage in Kresge Little Theater to deliver a charming musical performance. This summer, MTG has been working on a production of The 25th Annual Putnam County Spelling Bee, a musical comedy telling the story of six middle schoolers as they compete to become a spelling champion.

ductions over my years at MIT, and I've always wondered about what goes on behind the scenes. Students run every aspect of the performance: the direction, acting, set building, lighting, publicity, choreography, and many other components of a theatrical production that I never even thought about before.

The thing that surprised me — and first time director Hubert Hwang '07— most was that a ton of work goes into the show before auditions even begin. The directorial staff meets well before audi-

tions are held to construct strict character guidelines to keep in mind as they cast actors for roles. This is to ensure the characters match the director's vision for the show as closely as possible, and to reduce possible bias during casting.

I found that MTG is a pretty welcoming place — the group was kind enough to invite me to one of their rehearsals to get a backstage glimpse into the work that goes into their productions, and they even invited me to take part in their rehearsal by briefly tak-

ing the stage to “compete” in the spelling bee. It was hilarious and nerve wracking (I was asked to spell a word that I couldn’t even pronounce after hearing it twice). One advantage of producing The 25th Annual Putnam County Spelling Bee over other musicals is that the group has more of an opportunity to make the show their own — expect a touch of audience participation, and keep an ear open for many MIT related jokes. The group has a good deal of flexibility with this show, and it will certainly add comic effect

that I'm sure the MIT community will appreciate.

In addition to Hwang, I met with Lindsey Wang '16 (who plays Olive and is the Assistant Producer) and Carrie Fowle '18 (who is the Assistant Director, Publicity Designer, and Choreographer). Because the group is entirely student run, members often wear a variety of hats for each performance (as you can see above). Since the shows demand a huge amount of work, and a variety of skills, students are encouraged to try new things. Fowle told me that just a few weeks ago, she picked up construction skills when on a whim, she decided to drop in on a set building session and ended up learning how to use power tools to build a structurally sound set of stairs.

Hwang revealed that he decided to try his hand at directing this particular musical because he thought many MIT students would relate to the characters and the situations they find themselves in. "The show is about failure and learning how to deal with failure, and that is something every MIT student needs to learn. I'm sure the average student here will see themselves in at least one of these characters — these were the kids in middle school who didn't really fit in. As much as you want to root for all of them, only one can win, which is the tragedy of the show, but that's life," he said.

I witnessed only a brief portion of the show during the rehearsal, and I am really excited to see the full performance. In particular, I can't wait to see how the audience members react to being called up to the stage to compete in the spelling bee alongside the actors. The show opens on Saturday, September 4 and runs September 4-5, 10-12, 17-19 at 8pm, and September 6 at 2pm. Prefresh get tickets at a 50% discount, so if you're new to campus, don't miss out!

MOVIE REVIEW

Steve Jobs: A study in contrasts

The man with the focus of a monk, but none of the empathy

By Karleigh Moore
ARTS EDITOR

If you're a fan of Steve Jobs, you probably won't like this incredibly unflattering documentary about the iconic tech innovator. For full disclosure, I'm typing this review on a Macbook Pro and I have an iPhone in my pocket, but after watching *Steve Jobs: The Man in the Machine*, I have to say, I sort of resent myself for purchasing them. To be fair, this documentary is incredibly opinionated, but after watching it you will certainly get a feeling that Steve Jobs was not a very nice person, to say the very least.

I was a little uneasy when I saw the two-hour runtime, but the documentary was incredibly informative and captivating, and I considered the experience a worth-

Steve Jobs documentary depicts his harsh nature

The love expressed for Jobs upon his death was actually for the loss of his genius and future inventions, says director Gibney

Steve Jobs, from Page 15

while use of time. There was a nice balance of interviews, narration, clips from dispositions, and readings from news articles, which certainly helped to keep the viewer's attention. Admittedly, I didn't know a whole lot about Jobs before watching this film; I knew that he started Apple, I knew that he was difficult to work with, and I knew he was known for stabbing co-workers in the back. Right now, I feel like I need to read a more moderate biography because my impression of the man is more negative than I would have ever expected.

The documentary doesn't seem to want for material, throwing jab after jab at Jobs. They include interviews with friends, past collaborators, and former employees (and even a monk who was his spiritual mentor) who illustrate just how difficult and cruel Jobs was as a boss (underpaying collaborators, manipulating workers, and ungracefully accepting resignations), as well as how much of a jerk he was as a person (his reluctance to pay a pittance of child support even though he was a millionaire and his insistence on parking in handicap spots). The documentary studies the contrast between the charismatic and iconic image Jobs emanated to the world, and the cold and manipulative demeanor known among those who actually met him (some claimed to have regretted taking a job with him within the first few days).

I was surprised to learn that Jobs aspired to become a monk. However, his mentor, Kobun Chino Otogawa, claimed that Jobs was "brilliant, but he [was] too smart," and declined to train him as a monk. It's ironic that Jobs held such spiritual aspirations

because, as Gibney puts it, Jobs had the focus of a monk, but none of the empathy. Jobs found it hard to connect to others, but created technology that many claim connects us all (though others yet claim that smartphones and iPads only help to isolate us). Chrisann Brennan (Jobs' high school girlfriend and mother of his daughter, Lisa) confirms the disconnect between his personality and his efforts to bring people together through technology when she states, "[Jobs] is a study in contrasts." It isn't hard to agree with her statement after watching the documentary.

If the documentary's goal is to make you hate Steve Jobs, it is pretty darn successful. It was an incredibly emotional film to watch. The film opens with scenes depicting a worldwide wake for Jobs, depicting people laying flowers and lighting candles in front of Apple stores and YouTube clips of mourners' reactions to his death. Though we might believe that these images show expressions of love for Jobs, Gibney suggests that it is really his products that we love and are mourning the loss of future creations — an indication of our international addiction to Apple.

During one of the most heart-breaking and memorable scenes, Bob Belleville, who was the Director of Engineering at Macintosh from 1982-85, revealed that with the stressful work conditions and long hours, he lost his family while working for Jobs. To make things worse, Belleville still praised Jobs for his accomplishments. With tears in his eyes and his voice breaking, Belleville read something he wrote about Jobs, "[His] was a life well and fully lived, even if it was a bit expensive for those of us who were close."

THE DAILY CONFUSION

Fraternity, Sorority, and Independent Living Group Rush 2015

Welcome to the Daily Confusion for FSILG Rush 2015!

Greek and ILG life are huge on MIT’s campus, and while they may not be right for everyone, many people cite their affiliations as a key piece of what makes their MIT experience so fun and valuable.

Contained within these pages are events and short living group descriptions for Rush and Recruitment, submitted by FSILGs by our publication deadline. Sorority Recruitment and Fraternities start on this page, and Independent Living Groups start on page 19. A map of MIT and all of the FSILG living groups is included on page 19 as well.

Guides provided on Saturday’s Kresge Kickoff, the official kickoff of Rush, will provide more detail on the events, including for groups who did not submit events to The Tech. We hope you can use this to start planning out your schedule over the next few action-packed days. Be sure to explore as many places as possible, enjoy some delicious free food, and have lots of fun!

Sorority Recruitment

According to the MIT Panhellenic Association, 30 percent of MIT women belong in a sorority. Formal recruitment begins on Saturday, September 5, 2015. Registration instructions can be found at <http://panhel.mit.edu/recruitment-registration/>. The official schedule can be found at <http://panhel.mit.edu/recruitment-schedule/>.

Fraternities

MESSAGES FROM FRATERNITIES

Alpha Delta Phi

Are you ready to clench your teeth while jet skiing, fear for your life while indoor sky-diving, or live like royalty while eating a steak and lobster meal? Then come to 351 Massachusetts Ave in Cambridge, a home and family where we exonerate tradition, uphold values, and most of all form a diverse and unique family with each other. Twittta: @ADPHI_MIT

— John Peurifoy

Chi Phi

The brothers of Chi Phi strive for excellence in everything we do, whether it be in the classroom, on the field, or in the boardroom. A group diverse in our nationalities, interests, and activities, the main goal of any Chi Phi brother is always success. However, the bonds shared between members transcend the common goal of success, as our brothers come together while living, working, and partying at our beautiful home located in Boston’s Back Bay area. As members make the most of our time at MIT, we

develop bonds that last not just for years, but also for life.

—Chi Phi Rush Chairs

Phi Delta Theta

The brothers of Phi Delta Theta pride themselves in excelling in all aspects of life. Our fraternity boasts varsity athletes, budding entrepreneurs, DJs, and scholars from a variety of courses. We are a diverse group of individuals that strive to be the best people that we can be. We have exceptional alumni who are proof that Phi Delta Theta is an experience that will change your life for the positive.

—Vardaan Gurung, Tanner Trickle

Phi Kappa Theta

Phi Kappa Theta brothers are some of the most interesting guys at MIT. You can find varsity athletes, entrepreneurs, breakdancers, devoted coders, poker sharks, and more within the walls of our historic brownstone house. PKTs spend their summers in a variety of ways, from working at Google and Jane Street, to traveling across Europe, to building motorized skateboards. Though our backgrounds and interests are diverse, we are united by our shared brotherhood activities

be it exploring Boston, playing video games and sports, or watching Game of Thrones and by our values, as exemplified by our motto, give, expecting nothing thereof.

—Alex Huang

Sigma Chi

The Alpha Theta chapter of Sigma Chi is an engaging group of guys with a widespread presence on campus. In the sports realm, we have brothers involved in soccer, volleyball, sailing, ice hockey, golf, rugby, lacrosse, swimming, Jazz Ensemble, MIT Energy Club, and student government to name a few. With social events like our Wednesday TEAs along with a variety of parties every weekend, Sigma Chi is a great outlet from the rigors of MIT. It you are looking for a tight knit community comprised of hard working and ambitious guys, come check us out at 532 Beacon St.

—Isaac LaJoie

Sigma Nu

Since 1995, Sigma Nu has been home to a highly motivated group of undergrads from all corners of the earth. Located at 28 Fenway, our 19th century five story mansion is at the center of Boston’s social scene.

You’ll find a variety of personalities at Sigma Nu including movie aficionados, athletes, weightlifters, poker players, and aspiring bartenders.

Whether you’re grabbing a bite at the famous Boston Burger Company or catching a Red Sox game at nearby Fenway Park, there’s always something to do near Sigma Nu. Stop by and meet the brotherhood!

—Daniel Lerner

Tau Epsilon Phi

Tired of campus? Want something different? Have we mentioned that we’re a co-ed fraternity? The rules we follow are the rules we choose ourselves. It’s a lot of responsibility to govern yourself, but hell, you’re an adult, and we’re sure you can handle it.

tEp is many things to many people, but for all who live here it’s first and foremost a home, which doubles as our culinary research lab, covert operations center, artistic studio, and philosophical playground. It’s not right for everyone - nothing is. Some, though, find a family where they can thrive as never before.

—tEp Brothers

Independent Living Groups

MESSAGES FROM INDEPENDENT LIVING GROUPS

Epsilon Theta

ET is a dry, co-ed MIT living group made up of about twenty humans (known as “Thetans”). We’re known for our friendliness, quirky sense of humor, and fondness for baby ducks. On a typical afternoon at ET, you can find us: playing board games, swinging in the playground across the street, shooting each other with Nerf guns, playing video games, watching bad sci-fi, and enjoying a meal prepared by our cook. Look for the yellow duck in Lobby 7 at the times listed. Check us out at et.mit.edu!

—Big Duck

Fenway House

Fenway House is a co-ed living group located in the Fenway-Kenmore area of Bos-

ton. Our eighteen humans and one cat share a five-story brownstone featuring beautiful murals of planets and vegetables, unique bedrooms with custom lofts and strange back stories, a library decorated with dangerous wallpaper, a cozy music room with comfortable couches and a projector, a mysterious dungeon filled with hidden treasure, and shockingly affordable rent. We welcome members from all over the world with a variety of passions. Our close-knit community is based on anarchic principles and mutual respect. We’d love to give you a house tour!

—Kahlua the Cat

pika

We are a continuing experiment in cooperative living. We cook together, clean together, and make all house decisions by consensus. There’s art on every wall, instruments everywhere, and spontaneous dance parties in the kitchen. Our pantry yells if you leave it open, there’s a three-story fire-

pole right above our chicken coop, and our rooms have bizarre names. We’re immensely difficult to summarize - if you want a place that is weird and wonderful, that loves roasting vegetables, that’s sex positive and queer friendly, independent and thrifty, artsy and nifty, we might be the place for you. Give us a visit.

—JadMad*

Student House

Welcome to MIT Student House! We are a non-Greek co-ed Independent Living Group (ILG) at Kenmore Square, Boston, across the Charles River from MIT. Consisting of 22 undergraduate students, we are a supportive, friendly, close-knit community. We are perhaps the most diverse group at MIT, with members from more than 15 countries majoring in various Courses. As a community, we enjoy delicious home-cooked dinners together every Sunday to Thursday. We have weekly social nights and movie nights,

in addition to organizing our Thanksgiving Formal and Spring Formal.

—Student House

Women’s Independent Living Group (WILG)

The Women’s Independent Living Group (WILG) is one of the few all-female housing options at MIT. We’re an independent living group just a 7-minute walk up Mass Ave that houses about 40 residents. WILG was founded with the belief that a group of hard-working women can manage their own house, and we’ve been doing just that for over 30 years. Upperclassmen who join WILG can move in immediately, and Freshmen can become non-residential members before moving into the house Sophomore year! Check out our rush event schedule at wilg.mit.edu/rush.

—Wilma Wilg and Honey Wilfred, our stuffed bear

List of Events (Fraternities and ILGs)

Saturday, September 5, 2015

12:00 PM

12:00 PM - 2:30 PM **Phi Kappa Theta** Roofdeck BBQ. Here at PKT, we like to start things off right. Come enjoy burgers, hot dogs, and cold drinks on our roofdeck overlooking the Boston skyline

12:15 PM - 5:00 PM **Chi Phi** Chi Phi Open House and Barbecue. Come meet the brothers of 32 Herford St. and tour our house. Enjoy freshly smoked ribs, pulled pork, coleslaw and homemade cornbread.

12:15 PM - 3:30 PM **Sigma Chi** Exotic Meats BBQ at Sigma Chi. Come over to 532 Beacon St. and try some exotic meats like alligator or ostrich. You will also be able to meet some of the brothers along with taking a tour of the house.

1:00 PM

1:00 PM - 5:00 PM **Theta Delta Chi** TDCarnival. Join us in our courtyard and for even more carnival festivities! We'll have all your favorite old-style carnival games and carnival foods. We promise it'll be a fun way to start the week.

2:00 PM

2:00 PM - 4:00 PM **WILG** Minute-To-Win-It. Compete with your friends in ridiculous and fun 60-second challenges! Do you have what it takes? Maybe you'll win some awesome prizes ;)

2:00 PM - 4:00 PM **Alpha Delta Phi** Sushi!. Sushi!!!!!!!!!!!!!! ALL YOU CAN EAT AND FREEEEEEEE!

2:30 PM - 6:00 PM **Phi Kappa Theta** Smoothies, Wings, and Games. Who doesn't love fresh smoothies and delicious wings? Take a tour of our awesome house, meet our brothers, and enjoy in-house entertainment!

3:00 PM

3:00 PM - 6:00 PM **Theta Delta Chi** TDCar Smash. Keep the energy going after orientation and get hyped

for classes next week by smashing an old car to pieces with a sledgehammer. If you can tear the piece off the car, it's yours to keep.

3:30 PM - 6:00 PM **Sigma Chi** Sigma Chi House Tours. Grab some food off the grill and take a tour of the newly renovated Sigma Chi house at 532 Beacon St. Come meet some of our brothers and learn about our history.

4:00 PM

4:15 PM - 5:15 PM **Tau Epsilon Phi** Bleached T-Shirt Design. Make your own stenciled and bleach-washed shirt. Caution: Oxidizers (but I...)

6:00 PM

6:00 PM - 8:00 PM **Phi Delta Theta** Juicy Steak and Fresh Lobster: Dinner at PhiDeltas. Fill up on the finest meats and seafood Boston has to offer and visit our five-story mansion in Kenmore Square, minutes from Fenway Park.

6:00 PM - 7:00 PM **Alpha Delta Phi** The Original Steak and Lobster. Traditional ADPhi style. Yo.

6:30 PM - 8:30 PM **Phi Kappa Theta** Lobster and Clam Chowder. Our chef serves up authentic Boston "chowda" and juicy lobsters cooked to perfection. Enjoy a classic dinner with Boston's finest seafood!

7:00 PM

7:15 PM - 8:15 PM **Tau Epsilon Phi** Spice Cream. Spice Cream: Final Showdown. Which spice is best in ice cream?

8:00 PM

8:00 PM - 10:00 PM **Sigma Nu** Bacon and Chocolate. Tired of eating steak and lobster all day? Come cleanse your palate with some good, ol' fashioned bacon and chocolate!

9:00 PM

9:15 PM - 11:15 PM **Tau Epsilon Phi** OOBLECK. 1000 pounds of non-Newtonian fun! Towels and spare clothes provided.

10:00 PM

10:00 PM - 2:00 AM **Chi Phi** White Out Party. MIT's biggest rush event for the past 15 years. Come listen to the DJ Scuba drop the beats all night.

10:00 PM - 2:00 AM **Sigma Chi** Sigma Chi-Lighter Party. Come to 532 Beacon for as DJ's Dom and Matt bring down the house for our first party of the semester.

10:00 PM - 11:45 PM **Phi Kappa Theta** PKT Midnight Beach Party. You won't want to miss our kickoff party. Sick beats, tropical drinks, and one of the hottest DJ's in Boston.

10:00 PM - 1:00 AM **Alpha Delta Phi** Building 7: Underground CTF. MIT has endless miles of tunnels underneath campus. Zoom around underground and demolish the opposition in the largest event of Rush.

Sunday, September 6, 2015

1:00 AM

1:00 AM - 3:00 AM **Phi Delta Theta** FIFA and Wings. Come try and beat us at FIFA. Even if you can't, kick back and enjoy endless wings, catered from the finest local cuisine.

10:00 AM

10:00 AM - 2:00 PM **Chi Phi** F1 Racing with Chi Phi. America is all about speed. Hot, nasty, bad ass speed. -Eleanor Roosevelt, 1936

10:00 AM - 4:00 PM **Sigma Chi** Salisbury Beach: Sigma Chi Beach Trip. Join the brothers of Sigma Chi for our annual beach trip. See if you can beat Spikeball world champions Ryan and Nate. Breakfast will be provided before we embark on the beach.

12:00 PM

12:00 PM - 5:00 PM **Theta Delta Chi** TDCombat: Cardboard and Catapults. Help us build a trebuchet during the day and then test it at dusk. Doned in cardboard armor we will

begin battle and test our new machine. Many water balloons will be thrown and much fun will be had.

1:00 PM

1:00 PM - 6:30 PM **Phi Delta Theta** Skyventure NH: Indoor Skydiving. Experience the sensation of dropping thousands of feet through the air in a state-of-the-art wind tunnel. No parachute required.

1:00 PM - 6:00 PM **Phi Kappa Theta** Boston Paintball Chelsea: Paintball with PKT. Come join us for an intense all out war on the battle-grounds of PKT. Just don't get shot.

2:00 PM

2:00 PM - 3:00 PM **Sigma Nu** Water Balloon Capture the Flag. Tired of playing your boring, everyday sports? Come play Capture the Flag with a unique twist!

3:00 PM

3:00 PM - 7:00 PM **WILG** Henna, Nails, and Crafts. Get INKED! (just for ~two weeks ^_^), get crafty, or get an amateur manicure from a WILGlette at this classic and laidback WILG event.

3:00 PM - 5:00 PM **Alpha Delta Phi** Charles River: Pirate Battle on the Charles. Take to the seas and engage in water warfare and have boatloads of fun on the famous Charles River!

3:15 PM - 4:15 PM **Tau Epsilon Phi** McDermott Dot (in front of Green Building): Build Slingshots. For the Slingshot Water Balloon Battle! Measure once, cut twice.

3:00 PM - 5:00 PM **Alpha Delta Phi** Charles River: Pirate Battle on the Charles. Take to the seas and engage in water warfare and have boatloads of fun on the famous Charles River!

3:15 PM - 4:15 PM **Tau Epsilon Phi** McDermott Dot (in front of Green Building): Build Slingshots. For the Slingshot Water Balloon Battle! Measure once, cut twice.

4:00 PM

4:15 PM - 5:15 PM **Tau Epsilon Phi** McDermott Dot (in front of Green Building): Slingshot Water Balloon Battle. Need we say more?

5:00 PM

5:00 PM - 8:30 PM **Chi Phi** 3D Dodgeball with Chi Phi. Come see if you have mastered the five D's at SkyZone's indoor trampoline park in one of the most competitive events of rush.

6:00 PM

6:00 PM - 7:30 PM **Sigma Nu** Donut Burgers. Sigma Nu's World-Famous Donut Burgers: Don't let society tell you how you should make your burgers.

6:00 PM - 7:30 PM **Phi Kappa Theta** Steak Dinner. Steak. Dinner. 'nuff said.

7:00 PM

7:00 PM - 10:00 PM **Alpha Delta Phi** Indoor Skydiving. Get ready to sky-dive without any of the dangerous part!

7:30 PM - 10:00 PM **Sigma Nu** Harvard Square: Comedy Club. Join us at the Comedy Club, where some of America's greats like Louis C.K. got started. This club is guaranteed to knock your Sperry's off!

7:30 PM - 10:30 PM **Phi Kappa Theta** PKT Poker Tournament. Every year PKT has the hottest poker tournament, run by the founders of MIT PokerBots. Be the last standing and take home an Apple Watch!

8:00 PM

8:00 PM - 9:00 PM **WILG** Cheesecake & A Cappella. Enjoy a live performance from the BU Allegrettos as you indulge in one of the delectable flavors of WILG's signature homemade cheesecakes.

8:00 PM - 10:00 PM **Theta Delta Chi** Dance Lessons. Give us two hours of your time and you'll be able to do things you never thought you could. We'll be teaching a hip hop choreo for the first hour and then we'll transition to the spicier Latin Salsa.

8:30 PM - 11:00 PM **Chi Phi** Poker and Ping Pong at Chi Phi. See if you can handle high-stakes poker at Chi Phi's main event. Compete for hundreds of dollars of prizes!

10:00 PM

10:00 PM - 1:00 AM **Theta Delta Chi** TDC Presents: No More Tears. Missing home already? Wipe away those

List of Events (from p. 19)

tears and come to our Foam Party. Combine that mountains of foam with laser lights and our DJ Roflow, and you’ve got yourself the craziest party on campus.

10:00 PM - 1:00 AM **Phi Delta Theta** PhiDelts present: The Jungle Party sponsored by Rockstar. Boston’s premiere party experience of the night. Don’t miss the annual Jungle Party, complete with indoor water-fall and DJ AForce.

10:00 PM - 11:00 PM **Alpha Delta Phi** Homemade Boba. We get it, you’re in school, have no money, and are starving. Come taste our home-made Boba and get rid of all your problems, minus the school part.

Monday, September 7, 2015

1:00 AM

1:30 AM - 3:00 AM **Sigma Chi** Sigma Chi: Chicken n Waffles. Hungry after your Sunday night festivities? Sigma Chi will have chicken n waffles to help motivate you to make it back to campus.

9:00 AM

9:00 AM - 10:00 AM **Chi Phi** Chi Phi Crêperie. Enjoy a breakfast before heading to the beach. Fuel up with Chef Cheryl’s Crêpes and Waffles

9:00 AM - 5:00 PM **Theta Delta Chi** Beach Trip. Let’s go to the beach, each, let’s go catch a wave. We’re bringing speakers, sports equipment, and most importantly...food.

9:00 AM - 5:00 PM **Alpha Delta Phi** Cape Cod: Jet Skiing and Parasailing. Jet Skiing. Parasailing. Nuff said. Not for the abecedarian.

10:00 AM

10:00 AM - 5:00 PM **Chi Phi** Jet Skiing on the Cape. Enjoy a day on the Cape with the brothers of Chi Phi and ride some Jet Skis. Just make sure to bring your bathing suit!

10:00 AM - 2:00 PM **WILG** Take to the Hills. Join WILGlettes on a morning skyline hike in the Blue Hills. Take a deep breath, admire the view, and enjoy the company.

11:00 AM

11:00 AM - 1:00 PM **Sigma Nu** Wellesley: Glow in the Dark Mini-Golf. No short game? No problem. Come join the brothers of Sigma Nu for our hilarious glow-in-the-dark minigolf event!

12:00 PM

12:00 PM - 5:00 PM **Phi Delta Theta** Nahant Beach: Beach Trip. The quintessential beach trip. We’ll supply the grill, boombox, and frisbee. Come to Boston’s finest beach and relax in the sand and surf.

2:00 PM

2:00 PM - 4:00 PM **Sigma Nu** Jack Barry Field: Bubble Soccer. Soccer meets bumper cars. Join us for a game you won’t forget!

4:00 PM

4:00 PM - 6:00 PM **WILG** Miracle Berries. Experience a miracle in your mouth. You won’t be disappointed.

5:00 PM

5:15 PM - 6:15 PM **Tau Epsilon Phi** Hebocon. The Robot Contest for Dummies! Come make a derpy robot out of anything to fight in a sumo match against another almost-functional robot.

6:00 PM

6:00 PM - 9:00 PM **Phi Delta Theta** Route 1 Minigolf: Mini Golfing and Batting Cages. Practice your short game and swing with Phi Delta Theta when we go play a round or two of Mini-Golf and try our luck at the batting cages.

6:30 PM - 8:30 PM **Sigma Chi** King’s : Bowling with Sigma Chi. Come bowling with the brothers of Sigma Chi at King’s in Back Bay. Pizza will be provided, lane bumpers will not.

7:00 PM

7:30 PM - 10:00 PM **Chi Phi** Hit the Links with Chi Phi. Think you can out drive Chi Phi’s best? Take you best shot as we head out for a relaxed evening at the local driving range.

8:00 PM

8:00 PM - 10:00 PM **Theta Delta Chi** Flavor Tripping Miracle Berries. Take your taste buds on a wild ride as we physically change how the receptors in your mouth respond to different tastes, all through the power of miracle berries. Also a light show and music.

8:00 PM - 11:00 PM **Phi Kappa Theta** Laser Quest - West Roxbury: Laser Tag and Frosties. Head to the local arcade area and have fun shooting some lasers. Then top off the evening with Wendy’s classic Frosties.

9:00 PM

9:15 PM - 10:15 PM **Tau Epsilon Phi** LN2 Froyo. More tart than ice cream! Come add snozzberries, cheese, and thyme to some froyo! Normal flavors also provided.

10:00 PM

10:00 PM - 12:00 AM **WILG** Midnight Crepes. Get a head start on those late nights by joining us for crepes! Our French WILGlettes recommend topping yours with lemon juice and sugar.

Tuesday, September 8, 2015

10:00 AM

10:00 AM - 12:00 PM **WILG** Reg Day Brunch. Start your day off right with a full breakfast, made by yours truly.

10:00 AM - 2:00 PM **Sigma Chi** F1 Boston: F1 Racing with Sigma Chi. Think you’re a good driver? Prove it while racing with Sigma Chi. Food and rides will be provided.

11:00 AM

11:00 AM - 3:00 PM **Phi Delta Theta** F1 Boston: Go-Kart Racing. One of the best thrills that Rush can offer. Zip around the track at F1 Boston with the brothers of Phi Delta Theta.

12:00 PM

12:00 PM - 5:00 PM **Theta Delta Chi** iPad Mini Super Smash Tournament. Come and play against some of the best at MIT for your chance to win an iPad mini. Register for the tournament here (<http://goo.gl/forms/qTv2H07uXW>) or just come by and we’ll add you.

12:00 PM - 1:00 PM **Alpha Delta Phi** Food Fight. Mash brains and let out anger in a chickenized, I mean civilized, manner!

1:00 PM

1:00 PM - 3:00 PM **Alpha Delta Phi** Friendly Fire: Paintball. Paintball!!!!

4:00 PM

4:15 PM - 5:15 PM **Tau Epsilon Phi** 1-115: One Hour Videogame. Video game development is hard. And it takes a long time. Too long! Let’s make our own game in one hour no matter how bad it is.

6:00 PM

6:00 PM - 9:00 PM **Sigma Chi** Chillin and Grillin at Sigma Chi. Chef Marty gets a little crazy on the

grill on Tuesdays. Come grab some delicious burgers and hangout with the brothers.

6:00 PM - 7:30 PM **Phi Kappa Theta** Shish Kebabs, Butterbeers, and Game of Thrones. Sit back and enjoy a house favorite as you feast on Westerosi shish kabobs and sip on non-alcoholic homemade butterbeers.

7:00 PM

7:30 PM - 8:30 PM **Chi Phi** Chi Phi Liberty Clipper Boat Cruise. One of the most exciting events of Rush! Enjoy a scenic tour of Boston Harbor aboard Boston’s largest historic sailboat.

7:30 PM - 10:00 PM **Sigma Nu** Prudential Center: Skywalk. So you’re in Boston, now what? Get to see the whole city from one of the tallest skyscrapers in town.

7:30 PM - 11:00 PM **Phi Delta Theta** MetroRock: Rock Climbing and Bouldering. Scale the walls and boulders at Metrorock with the brothers and get the best back and bicep workout of your life. Make sure to chalk up.

8:00 PM

8:00 PM - 9:30 PM **WILG** Asian Dessert Night. H Mart’s got nothing on WILG’s homemade deserts. Come see for yourself!

8:15 PM - 9:15 PM **Tau Epsilon Phi** Mathematician’s Descent. At some point in your life you have felt the urge to do math while descending. Come to tEp and get it out of your system.

11:00 PM

11:45 PM - 2:00 AM **Theta Delta Chi** IHOP: Midnight IHOP Run. Does more need to be said? We’ll meet at the house and head over together. Our treat :)

Wednesday, September 9, 2015

3:00 PM

3:00 PM - 7:00 PM **WILG** (2*Cookie + Ice Cream) + Puzzles = ??? . Come to WILG to find the answer... and a whole bunch of fun!

5:00 PM

5:30 PM - 8:00 PM **Phi Delta Theta** Fire and Ice Boston: Mongolian BBQ (Invite-only). All-you-can-eat Mongolian barbeque in downtown Boston: a dining experience you don’t want to miss.

6:00 PM

6:00 PM - 9:00 PM **Theta Delta Chi** Bubble Tea & Real Talk. Have questions about life at MIT after the first day of classes? That’s what we’re here for. Let’s talk about what it’s REALLY like here at MIT. And also enjoy some delicious bubble tea.

6:00 PM - 7:30 PM **Alpha Delta Phi** Royal East: Alumni Dinner. Astronauts, millionaires, founders, presidents, nobel prize winning scientist are just some of the alumni of ADP. Come meet MIT ADP alumni!

7:00 PM

7:30 PM - 9:30 PM **Chi Phi** Main Hall Volleyball. Come see Chi Phi’s Main Hall transformed into a volleyball court! Hang out with brothers and enjoy a fun filled night.

7:30 PM - 9:00 PM **Sigma Chi** Dinner at Sigma Chi. Come have dinner with the brothers of Sigma Chi and try to recover from the first day of classes.

8:00 PM

8:00 PM - 9:30 PM **WILG** Truffle Riot. WILG has some MAD baking skills. Come on over and we’ll show you how to make your own (personalized) truffles!

9:00 PM

9:00 PM - 11:30 PM **Phi Delta Theta** Boston Bowl: Bowling with PhiDelts. Think you can bowl? Come challenge the brothers at the local Boston bowling lanes, and relax with good people and good times.

9:00 PM - 11:45 PM **Phi Kappa Theta** Bowling and IHOP. This is where the all-American sport of bowling meets the International House of Pancakes. Clearly the best combination of sport and food.

10:00 PM

10:00 PM - 2:00 AM **Sigma Chi** Wednesday TEA at Sigma Chi. Join Sigma Chi for their first Wednesday TEA of the semester. The signs are up and the brothers and friends are ready to get going. Bring on the Wednesday.

Thursday, September 10, 2015

8:00 PM

8:45 PM - 10:15 PM **Tau Epsilon Phi** Dry Ice Air Hockey. Air hockey √† la chemistry lab! Bring friends. Bring enemies. Find out who is the true air hockey champion.

Football, from Page 11

CM: It is difficult and time-consuming. We have to cast a very large net to gather as many names across the country as we can. The good thing is because of our national academic reputation, the qualifying students are definitely interested especially if they have a passion for mathematics and science. So, we have to identify the students among them who can really excel on the football field. Those kids are out there and we have been having some success in finding them and that has helped us to be competitive as a program.

CM: If you talk to any of them, most of them will tell you that they do better academically during the season than they do in the off season because they have to be much more regimented and structured with their schedule. They have to really be good at their time management skills. They have such a limited amount of time allotted

TT: Being an elite academic institution, how difficult is it for the student athletes to balance academics with the grind of a football season? You have a mentoring system that includes something called “life scheduling”—could you please elaborate?

CM: We help the freshman especially to make the transition from high school to MIT, which is tough. They were one of the smartest students in the class if not the smartest in high school. Once they get to MIT, they realize, they are one of many and they are going to be challenged at everything.

One of the things we try to get across to them is that it is okay to ask for help. You need to be able to collaborate with other people while studying and doing p-sets and so on because that is the MIT way. We are helping develop the future leaders of the world and

I have freshmen plan out all 7 days a week. For the 5 weeks till the red flags go out, they hand me a life schedule at the begin of the week, where they have planned when they are going to class, study, solve p-sets, go to practice, watch film, sleep, eat, and call home. That way you have less stress and yet are able to accomplish everything.

TT: Going back to last season in that crucial playoff game, you were down 3 points down with 48 seconds to go and no time-outs left. Was that the most thrilling point of the season? Can you take us through the play calling and that experience?

CM: That scenario was something we work on a regular basis. We work on two minute drills both offensively and defensively. So we knew what type of calls we like to help us get the ball down the field. With no time-outs remaining, it is important to be able to run our field goal unit to kick the field goal. That is something we work on every Friday, just for that scenario. I have been coaching for 22 years now. That's the first time that scenario played out in a game. We have practiced that scenario every Friday each of the six years I have been here. It came to fruition. It worked.

CM: You are either getting better or getting worse. You never stay the same. My staff and I are trying to improve ourselves as coaches through different professional development programs or by going to clinics put on by other coaches. Several of us travel to the American football coaches' convention every year. All premier coaches from all different levels are there speaking on an assortment of topics. If somebody is having success doing something a certain way then we try to see if it is a fit for what we do. The off-season for the staff is split between professional growth and recruiting. 75 percent of the time goes into recruiting. Recruitment is a year-long process at the college level now.

TT: Have you noticed a change in perception since the historic last season? Do you feel an increased level of excitement on campus or heightened expectations? Is there more pressure to live up to last year?

CM: I think so, it will be interesting to see once classes start again. I think more people on campus at least know we have a football program whereas when I first got here 7 years ago, I am willing to say there were a lot of students on campus who did not

We have turned the page from last year. We keep it simple. We have a process and it has been successful the last few years. The standard is much higher for our players. They have higher expectations from themselves and hold each other accountable. We shall see how it goes. A big part of it is staying healthy which is not something we can control too much.

TT: Wish you all the best for a new-season ahead. Hope you win the division and embark on a play-off run! Do you have any message for folks on campus, particularly the freshmen?

CM: To the non-varsity athletes, I encourage you to come out and support the varsity athletes. They are just like you and they work very hard at what they do just like you . Work very hard at what you do no matter what. We encourage our athletes to go and encourage endeavors outside the football field. It will be great if this campus became more of a family and supported each other in everything we do outside of academics.

It would be great to come together for positive things and support each other whether it be a game on Roberts Field or a play in Kresge Auditorium or some event on East Campus. I would love to see that kind of support across the board from the student body.

PHOTOGRAPHY BY ROBERT RUSCH — THE TECH

On Sept. 1, East and West Campus took to Killian Court in the Great Water War of 2015. The two sides lined up with their water guns, balloons, and cannons, as well as with their brightly painted shields and bodies. The two sides charged valiantly into battle to engage in fierce close combat, pool noodles flailing wildly. In the end with both sides drenched, all joined in chanting MIT and met in the center to shake hands.
