

Funeral Services For Technology Professor Today

Professor Of Chemistry Passes
Away After Twenty-Five
Years Of Service

Professor Emeritus Augustus
H. Gill Famous For Research

Held Important Positions In
Tau Beta Pi And Other
Organizations

Funeral services will be held this afternoon at two o'clock in Mt. Auburn Chapel, Cambridge, for Augustus H. Gill, professor emeritus of the Institute, who died Wednesday morning.

Professor Gill was born in Canton, Mass. on August 1, 1864 and after his graduation from the Institute in 1884, he served on the instructing staff for three years. He studied at the University of Leipzig, where, in 1890, he received the degree of Doctor of Philosophy. Returning to Technology, he again became a member of the faculty, being made a full professor in the Department of Chemistry in 1909. He became professor emeritus in 1934.

Professor Gill's research work has made him a well known figure both at the Institute and in the outside world. He was an expert in many scientific fields and was called to testify in many civil and criminal law cases. His work in the oil and gas analysis fields is well known.

The professor belonged to a great number of scientific organizations and held important positions in most of these. He was a member of Tau Beta Pi, Alpha Chi Sigma, the Deutsche Chemische Gesellschaft, the American Chemical Society, the American Society for Testing Materials, and many other similar groups. He was also a prominent Mason.

Professor Gill leaves his widow, Mabel, a son in Philadelphia and a daughter in Brooklyn.

Catholic Club Holds Dance In The 5:15 Room Saturday Eve

Girls From Five Colleges Will
Provide Dates For
Stag Affair

The Technology Catholic Club is sponsoring a Radio Victrola stag dance in the 5:15 Club Room tomorrow night, Saturday, November 14th, in conjunction with the New England Federation of Catholic Clubs. The purpose of the dance is to raise money to carry on the charitable work of the Federation.

In view of the limited facilities of the club room, the dancers will be limited to 50 of each sex. The chapters at various nearby girls colleges have been allotted their quota of tickets, while it remains entirely up to M. I. T. and Tufts to make up the male contingent. In view of the marked success of the last two Catholic Club stag dances, all signs point to a successful evening. One of the features of the evening will be the raffling of a live turkey to the holder of the lucky number.

Professor DeForest To Speak to A.S.M.E.

Professor Alfred V. deForest of the Department of Mechanical Engineering will be the guest speaker at a meeting of the A. S. M. E. to be held Tuesday, Nov. 17, at 5 o'clock in Room 5-380. Professor deForest will lecture on "Fatigue of Metals", illustrating his talk with lantern slides.

Chem. Classes Cancelled For Funeral Of Professor Gill

Because of the death of Professor Emeritus Augustus H. Gill, retired member of the Chemistry department of the Institute, all Chemistry classes will be cancelled after twelve o'clock noon, today, Friday November the thirteenth. The funeral will be held this afternoon in Mt. Auburn chapel in Cambridge.

Two Hundred And Fifty Soph Dance Pledges Redeemed

Music By Hudson-Delange Will
Commence At Nine And
Cease At Two

Entertainment To Be Provided

More than 250 of the three hundred purchased options to the Sophomore Dance were redeemed by last night, Harold Chestnut, chairman of the ticket committee, announced last night. If the remainder are not turned in before 5 o'clock this afternoon, a few tickets at \$3.25 may be available at the Hotel Continental tonight.

Music by Hudson-Delange and his orchestra commences at nine and ceases at two o'clock, with professional talent providing entertainment during the intermission.

Charms will be distributed to each couple entering the hall.

Because of the dance, it was recently announced, there will be open house in the dormitories from seven until eleven o'clock.

The committee of Sophomores which planned the dance includes Harold Seykota, general chairman, and the following sub-committees: budget—Harold Chestnut, chairman; Millard B. Hodgson, Jr., Sidney S. Gesmer, Andrew P. Rebori, and George Rosenfeld; music—Stuart Paige, chairman, Robert G. Fife and Humbert P. Pacini; hall—Robert B. Wooster, chairman, August B. Hunnicke, Holden W. Withington, Clinton C. Lawry, Albert C. Rugo and Charles E. MacKinnon; reception—David S. Frankel, chairman, Frederick B. Grant, Nicholas E. Carr, Carl D. Lenk, Edward P. Bentley, and Richard F. Christie; publicity—Amos F. Shaler, chairman, Nicholas Ferreira, Ida Rovno, and George O. Schneller.

Navy Sails On Basin In Regatta Saturday

Meet To Start At Nine-thirty;
Tech Favored

That Tech stood a better than even chance of beating Navy when they meet tomorrow in a dinghy race on the Charles is the opinion of James Gillis, Commodore of the Nautical Association and official in charge of the Regatta.

The midshipmen will come directly to the sailing pavilion upon their arrival in Boston so that the races may be started as soon after nine-thirty as possible.

Gillis bases his opinion on the fact that navy is not familiar with the dinghy type boats as they regularly sail boats of the Star Class. Another factor, he said, was the edge in experience that Technology holds. Each school will have four boats representing it. Carl Olsen, '38, and Herman Hanson, '39, will be two of the Technology skippers and the others will be selected before the race.

Gillis will be assisted by James B. Henderson, '38, Robert W. Vose, '38, and Jack Wood.

America's Future Tech Union Topic For Fiery Debate

Professor Tucker, Alfred Lewis
Take Sides In Timely
Political Tilt

Meeting Comes On Wednesday

Alfred Baker Lewis, Socialistic candidate for Governor in the recent election, and Professor Donald S. Tucker of the department of Economics will discuss the subject "Which Way America—Socialism? Capitalism?" at a meeting of Tech Union, on Wednesday, November 18th in Room 2-190.

The meeting which will be open to members only will commence at eight o'clock. Following the talks by Mr. Lewis and Professor Tucker, there will be an informal discussion of the subject from the floor.

The Tech Union which will sponsor this meeting was instituted in 1934 through the efforts of Mr. Theodore Smith of the English Department. Its purpose to promote "Social and Political" awareness is borne out in the conduct of its meetings at which each member is invited to voice his opinions and to compare them with those of the principal speakers.

The topics for discussion at the bi-weekly meetings of the Union are selected by a steering committee, composed, at present of John J. Wallace, '38, Leonard A. Seder, '37, and Ralph D. Morrison, '37. New elections to the steering committee, now (Continued on Page 4)

Debating Team Meets Mt. Holyoke Tonight On Subject Of Unions

They May Participate In Mock
Congress With Tau
Kappa Alpha

The third regular bi-weekly meeting of the M. I. T. Debating Society was held Tuesday, November 10th at 5 o'clock in the West Lounge of Walker Memorial. Plans for future debates were considered.

Announcements were made to members of the debate to be held at Mt. Holyoke tonight on the subject: "Resolved that this house favors industrial rather than craft unions in the industries of the United States". The affirmative will be upheld by Paul A. Vogel, '37 and Samuel Sensiper, '39. A debate in which M. I. T. will take the negative of the same question will be held at Technology one week from tonight. The public is invited.

Howard Schlansker, president of the group, told the members of an invitation received from Tau Kappa Alpha, the honorary debating society. It was proposed by the officials of (Continued on Page 4)

Tech Alumni Speak at Class Of '98 Dinner

Cottle, Gardner Talk On British
Guinea, Aeronautics

George Cottle and Lester D. Gardner were the principal speakers at the Class of '98 banquet held in the Silver Room of Walker Memorial at 6:30 last evening.

Mr. Cottle gave an illustrated talk on British Guinea. Included in the movies shown by him were views of the highest waterfalls in South America.

Mr. Gardner, who is the secretary (Continued on Page 3)

Advisory Council Bans Card Playing In Commuters' Room

Noel Coward Inspects Tech
As Guest Of Willie Jackson

Noel Coward, American playwright, and Gertrude Lawrence inspected the Institute as the guests of William Jackson on Tuesday, Nov. 10th. Coward left for Washington immediately afterwards, where his recent plays "Family Album", "Ways and Means", and "Still Life", starring Gertrude Lawrence are to be presented.

M. I. T. Harriers Run In New York

Cross Country Team To Meet
Best Teams In East
November 16

In their last meet of the year the Technology harriers will travel to New York City to contest with twenty-two other collegiate teams in the annual Intercollegiate Cross Country championship meet which will be run over the five-mile course at Van Courtland Park. The meet will be held Monday, November 16.

Other varsity entries come from Alfred, Colgate, C. C. N. Y., Columbia, Cornell, Dartmouth, Fordham, Harvard, Holy Cross, Maine Manhattan, Michigan State, New York University, Northeastern, Penn State, Pittsburgh, Princeton, Rhode Island State, Rutgers, Syracuse, Union and Yale. These colleges possess some of the best runners in the eastern part of the country, and the Beaver squad will be up against tough competition.

Picked by Coach Hedlund, the following men will represent Technology: Captain Henry H. Guerke, '37, Eugene P. Cooper, '37, Paul R. Des Jardins, '38, Robert Eddy, '38, Nestor A. Sabi, '37, Cirio R. Scalingi, '38, and Ehrler Wagner, '37. All of these men, with the exception of the last two, have run the course before.

The outstanding member of the Engineer's team is Henry Guerke, who holds the Institute record for the mile—4:23 1-5. He also placed ninth in the New England Intercollegiate Cross Country association meet of last week, the first to show for Tech. (Continued on Page 4)

Baton Society Meets Nov. 17th In Walker

Program Includes Ensembles,
Solos From All Clubs

Baton, honorary society of the Combined Musical Clubs, will hold its annual meeting next Tuesday evening, November 17th, at 7:30 o'clock in the 5:15 clubroom in Walker Memorial.

The meeting, which is informal, is open to all members of the Musical Clubs, and its purpose is to give all students interested in music a chance to become acquainted. The program for the evening includes solos and ensembles from the different clubs as well as general singing by the whole group.

Speakers at the meeting will be the coaches and student leaders of the Musical Clubs, who will discuss the plans of their organizations for the coming year. After the speeches refreshments will be served.

Card Games Taboo In Class Hours, Is New Ruling

"Not for Best Interests" Says
Professor Hamilton in Letter

5:15ers May Still Play During
Noon Hours, When Room
Is Under Control

Card playing in the 5:15 Room has been forbidden by the Advisory Board except during the noon hour. Professor Leicester F. Hamilton, in a letter to Leonard B. Chandler said, "This action is taken because it is not considered for the best interests . . . to participate in card playing . . . when the Institute is in session."

Professor Hamilton in his letter said, . . . "their actions are not in keeping with your general policy." He further stated that card playing " . . . must be restricted to the hours . . . when the room is under control, or at organized evening parties at the discretion of your own committee."

The objectionable card playing was blamed on a "small group of the members", who had been "reported" playing during the afternoon and evening. Both Mr. Pung and Mr. Hart- (Continued on Page 4)

A.S.U. Peace Meeting Sees Motion Pictures Showing War Horror

Clifford Graves Speaks About
Present Danger Of War
In Europe

An Armistice Day peace meeting, sponsored by the members of the Technology branch of the American Student Union, was held last Tuesday.

A film of life on the German front during the Great War called "The Shame of a Nation" was shown. By showing the life of soldiers and many horrible scenes of the dead and wounded, the movie attempted to show the horror and stupidity of war.

Through some misunderstanding, Rev. Lester Hankins who was to speak did not appear. Clifford Graves, '38, chairman of the meeting, spoke in his place. Graves spoke on the danger of war in Europe at the present, the ideals of Armistice, and the devastation of war. Esther Garber, '38, was in charge of the arrangements. (Continued on Page 4)

Radio Society Plans Trip To Telephone Co.

Tomorrow afternoon, the Radio Society is conducting a trip to the laboratories of the New England Telephone and Telegraph Co., in Boston. They will inspect telephone equipment used to connect up the national radio networks, and the new automatic remote control telephone transmitter. The society conducted a similar trip last year, when members inspected apparatus in Boston radio stations.

Tomorrow's group will go by car, leaving the M. I. T. Radio Shack at 4 o'clock. All interested are invited to attend.

MIND AND BODY

PSYCHIATRY DEPARTMENT

WHETHER takes the trouble to read carefully the Report of the President of the Institute, a public document with which relatively few are familiar, will find, among other authentic information in regard to the inner workings of Technology, an expression of a hope that the Medical Department may eventually be enlarged to include another department. In his report Dr. George W. Morse, Medical Director, says, "As soon as conditions warrant, it is my hope that the Department may enlarge its scope by adding a Psychiatric Department and a Dental Department. . . . This has been provisionally planned and is awaiting action. . . . I believe that the physical well being of the men is well cared for, but the mental and psychiatric phase of work has not been developed as it should be."

The need for psychoanalysis of the student is one which is widely realized and accepted. Unfortunately the customary body of experts, both student and Faculty, have zealously applied themselves to this intricate and relatively new subject. The result is that while psychiatric advice may be had gratis from one's circle of acquaintances, competent and professional guidance is totally lacking.

The years of adolescence and transition into post adolescence are generally held to be critical in the formation of good mental balance for the future. If a Technology Psychiatric Department were to be established and conducted by men with professional standing and knowledge the benefits would be widespread; taking advice from well meaning friends is a doubtful expediency.

N R A

AS A PERMANENT FEATURE

NOW that the re-election of President Roosevelt is a fact, rumors of revival of the NRA are being more widely and substantially spread. Whether or not it will be along the same lines as formerly will undoubtedly be somewhat dependent on the alterations needed to admit it within the scope of the constitution. Of course a constitutional amendment is not out of the question.

Probably this latter course is the most dependable one. It is impossible to say if popular opinion disfavored the NRA at the time of its invalidation by the Supreme Court; there was an obvious and organized opposition to the Act, but the magnitude of such a movement can only be guessed. Submittal to a general referendum would once and for all settle the question; it was definitely not an issue in the last campaign. Many people who voted for Roosevelt did not favor the NRA.

Basically the problem is whether to accept the economic views generally held prior to the

depression or those promulgated by the "Tugwell" economists since. It was formerly held that planned economy was contrary to the principles of free private enterprise: to put it simply, decreased demand would force prices down which in turn would increase demand and raise prices to normal. The only catch in this scheme of the working out of "natural" forces is that although wages were quick to follow falling prices they lagged behind rising prices.

To remedy this lag, the NRA was enacted to establish minimum wages which would ensure a living wage; further provisions for price agreement were to eliminate ruthless price cutting wars. Hours of work were also limited in order to spread employment.

Objections were advanced that establishing a minimum price violated the "natural" law and prevented prices from reaching the "natural" low level which must precede the upward swing. Employers in some industries complained that minimum wages did not allow them any profit and in some cases meant the abandonment of their businesses entirely.

If the National Recovery Act is to become a permanent feature of our government, these objections must not be overlooked. There are valid reasons why no measures should be taken at all, but if legislation is enacted then complete discussion and planning should take a part.

FRESHMAN FOLLY

VANISHING TIES

NOW that Field Day is gone and all but forgotten, some of the bolder freshmen appear to be discarding their prescribed red and gray ties. In the corridors and at the dinner table may be heard such discussions among the freshman as, "I haven't worn my tie for three days now and no one has said anything about it yet," or "Don't bother to buy a new one, half the guys have stopped wearing them already."

It is apparent that a large proportion of the freshman class has little or no notion of the real function of the wearing of the ties.

The custom of wearing freshman ties has been a beneficial practice for everyone concerned, especially, strange as it may seem, for the freshmen themselves. When students enter Technology for the first time, they are practically total strangers. The regulation tie which they wear announces to other freshmen the presence of kindred souls.

To the upperclassmen the wearing of the official cravat, as well as introducing the new men of the Institute, serves as an assurance that the younger men possess the proper school spirit, a quality which is lacking on the Technology campus, but which is, nevertheless a desirable factor in setting up social contacts and life-long friendships among the students. None of the freshman rules, the wearing of the ties included, are intended to humiliate the freshmen.

Freshmen and upperclassmen alike should encourage the continued wearing of the freshman ties up to the end of the first term, as has long been the custom and rule.

OPEN FORUM

November 12, 1936

Editor, The Tech

Dear Sir:

Recently the M. I. T. Debating Club argued the question: "Resolved that China is no longer capable of continuing her existence as an independent nation." Many of us whose homes are in China feel that the selection of such a question was unfortunate, for not since the Revolution has China showed such promise of being capable of existing as an independent nation as she does at the present time.

To us this topic seems one-sided; that is, there should be no argument, pro or con, considering the facts being revealed in the current newspapers and magazines.

While we do realize that there is much left to be done, nevertheless, present conditions indicate that China is more than ever before capable of standing independent.

Very sincerely yours,

Y. C. Shen,

President, Chinese Students' Club.

Reviews and Previews

METROPOLITAN: — People who write greeting card verses are the long haired poets of today according to the number of plots which have featured a mousy purveyor of holiday sentiment as the meek and not too enthusiastic hero. There was a Clarence Buddington Kelland story only a year or so ago, with the wretched rhymester motif and now it is "Three Men on a Horse." Frank McHugh is the wife-nagged Erwin who has the uncanny gift of knowing what the horses are going to do before they do. Joan Blondell, Carol Hughes, Allen Jenkins, and Guy Kibbee assist.

FINE ARTS:—"Carnival in Flanders" (La Kermesse Heroique) is held over for its second week. We very much regret having seen this film last week, because we would like to go over this week and it is against our principals to see the same picture twice.

ORPHEUM: — "Theodora Goes Wild" sounds to us like a loosely attached hat on a windy day, but it is really a clever comedy with Irene Dunne and Melvyn Douglas. Concerns a male shy female—yes there are such—who writes a sensational novel and then tries to live up to it. Co-feature is "Craig's Wife" from the Pulitzer novel of George Kelly,

starring Rosalind Russell—the edges of whose eyes we have long admired—and John Boles.

PARAMOUNT AND FENWAY:—We read "Wedding Present" in the Saturday Evening Post a while back and were mildly bored. The picture by the same name does, we believe, much better, even if it as libelous to newspaper atmosphere in general. Joan Bennett—why must the stareses always double the last letter,—would simplify our job just to type Russel, or Bennet. Co-feature is "The Accusing Finger" in which a typical prosecuting attorney swaps places—not by his own choice—with a convicted criminal.

MODERN AND SCOLLAY: — Sinclair Lewis' "Dodsworth" returns as does "Ramona" much as have been previously described in this column.

UPTOWN:—"My Man Godfrey" with Carole Lombard and William Powell and "36 Hours to Kill" Brian Donlevy and Gloria Stuart starring fill the bill across the river. Among other things we fell much too excessively sorry for Godfrey—especially after the last few frames. The "March of Time" is also on the program.

RKO BOSTON:—"N. T. G.", another of these "build up the beautiful wren guys" exhibits some of his collection. On the screen is Victor McLaglen in a big husky He Man picture, which if tense drama affects you that way, you may label a He Man picture.

Interclass Meet Last One Of Year

Meet Is Opportunity For All;
First Five Places Get
Numerals

The annual fall interclass track meet will be held this Saturday at 2:00 P. M. on the Tech field. The purpose of this meet is to offer to those interested in this sport a last opportunity for good competition in the various track and field events until the reopening of the season next spring. Entries do not have to be eligible for intercollegiate competition, and with numerals being given to some, and first placers eligible for A. T. A., this meet should be looked forward to greatly by those entered, especially transfer students.

The fifteen events which are scheduled are as follows: the 100, 220, 440, and 880 yard dash; the one and two

Varsity Frosh Soccer Teams Play At Coop Field Saturday

The Varsity and Freshman Soccer teams meet this Saturday on the Coop Field to test their relative skill at this game. The obvious choice for the leading scorer is the more experienced varsity, however, with the over-flowing amount of material the freshmen have had they ought to at least give a good showing. In their last few games the varsity have lacked the use of several men who were in the infirmary but who will be present Saturday. The game is scheduled for 2:00 P. M.

mile run; the 120 high hurdles and the 220 low hurdles; the high jump, the broad jump, the pole vault, the shot put, the hammer throw, the javelin throw, and the discus throw.

"New material for the team is frequently found during these annual meets," commented Coach Oscar Hedlund, and gave a very notable illustration in Mort Jenkins, who ran his first competitive race at Tech in the annual interclass meet of 1933 and later became captain of the track team. He was also champion miler of the New England runners during that year.

Class '98

(Continued on Page 3)

of the Institute of Aeronautical Sciences, spoke about his experiences

SPORTS COMMENT

Tech is playing host to Navy tomorrow when the midshipmen come down to take part in a Regatta. It is heartening to note that the Institute is given a good chance to win. It is logical to expect that the sailors should win in such a sport but the advantage that our team holds by being familiar with this type of boat may prove too much for the boys from Annapolis.

The lacrosse team went to Harvard last week as per schedule and did very well in the informal scrimmage according to Coach Tucker. More than a full team reported, and in the light of last year's small attendances it looks well for the team this year.

The cross country team has a chance to make up for its poor record thus far when it goes to New York, Monday. The Beaver hill and dalters have a decided handicap in that they have no hilly course nearby, over which to practice. They pulled one surprise when they placed seventh in the New England run and maybe they will do something more in New York.

It has always been a cause of speculation with us as to what the coxswains do during off season. Whether he exercises his lungs and spends his time inventing choice expletives to egg his crew on during the spring races. Certainly he cannot get away with resting and keeping his weight down while the oarsmen work and sweat on the machines every day.

It has come to our attention that several of the fraternities are working up a powerful sweat because other fraternities have broken into print recently. Our only reply to them is that if they have articles of sufficient news value we will be only too happy to consider them.

while aboard the zeppelin Von Hindenburg on one of its trans-atlantic flights.

Professor Arthur A. Blanchard, secretary of the Class of '98, said that the banquet was not a yearly affair but one of a group of frequent gatherings of the class.

Frosh Tennis Match Won By Olaf Rustad

Olaf Rustad on the Freshman Tennis Tournament last Wednesday afternoon by a score of 6-0, 7-5. The runner-up was Richard H. Braunlich. As Braunlich led 5-2 in the seventh game of the second set, it looked as though the match would go to three sets. At this critical point Rustad, a Norwegian, recovered his speed and swept through the next five games. Braunlich played his opponents backhand to weaken it, but was not strong enough to make use of any advantage so gained.

FOR DIGESTION'S SAKE... SMOKE CAMELS

Camels increase digestive activity—
encourage a sense of well-being!

WITH healthy nerves and good digestion, you feel on top of the world. When you smoke Camels with your meals and after, Camels help in two special ways: Tension is lessened and Camels promote digestive well-being.

So enjoy your Camels between courses and after eating. Strain eases.

The flow of digestive fluids, so vital to proper nutrition, is speeded up. Alkalinity is increased. You get more good from what you eat.

For an invigorating "lift"—for matchless taste—and "for digestion's sake"—the answer is the same: Camels. Camels set you right! And they don't get on your nerves.

CONCENTRATION
calls for mental stamina—taxes digestion too. That's where Camels help! "For digestion's sake... smoke Camels" during meals and afterward. And when you are tired—you get a refreshing "lift" with Camels. Camels set you right.

Copyright, 1935, E. J. Reynolds Tobacco Company, Winston-Salem, N. C.

ALL-AROUND ATHLETE FROM TEXAS. Miss Mary Carter says: "Since I've learned how pleasant Camels make my mealtime, I wouldn't be without them. Camels are mild—never get on my nerves."

CHAMPION BOWLER. Johnny Murphy says: "Smoking Camels at meals and after works out swell in my case. Camels help my digestion. After a meal and Camels, I settle back and really enjoy life."

AFTER THE GREATEST FINISH UNDER FIRE IN GOLFING HISTORY: Tony Manero gets set for eating by smoking Camels. The gallery went wild when Tony Manero scored a spectacular 282—4 strokes under the record—to win the 1936 National Open Golf Tournament. In spite of the long grind, Tony's digestion stands the strain. Tony himself says: "For digestion's sake—smoke Camels! hits the ball on the nose. I enjoy my food more—have a feeling of ease—when I enjoy Camels with my meals. Camels set me right."

HOLLYWOOD RADIO TREAT!

Camel Cigarettes bring you a FULL HOUR'S ENTERTAINMENT! Benny Goodman's "Swing" Band...George Stoll's Concert Orchestra...Hollywood Guest Stars...and Rupert Hughes presides! Tuesday—9:30 p.m. E.S.T., 8:30 p.m. C.S.T., 7:30 p.m. M.S.T., 6:30 p.m. P.S.T., over WABC-Columbia Network.

COSTLIER TOBACCOS!

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

well have been asked to assist in enforcing the restriction.

The letter did not mention playing chess or checkers. Both these games are at present being played in the afternoon when the room is not under control.

The complete text of the letter follows:

Mr. L. B. Chandler

5:15 Room

Walker Memorial

Dear Mr. Chandler:

It has been reported that a small group of the members of your organization has been playing cards in the 5:15 Room during the afternoon and in the evening. This group is not representative of your organization as a whole and their actions are not in keeping with your general policy. It is necessary for the Advisory Board to specify that card playing in the 5:15 Room must be restricted to the hours 12:00 to 2:00, when the room is under control, or may be indulged in at organized evening parties at the discretion of your own committee. I suggest that a sign be placed in this room calling attention to this regulation.

I am sending a copy of this letter to Mr. Pung and also to Mr. Hartwell asking that they assist in enforcing this regulation during the hours when the room is not under the control of your committee, although the responsibility from 12:00 to 2:00 is in your hands, and due notice should be served members as to this action.

This action is taken because it is not considered for the best interests of the group, or for the individuals concerned, to participate in card playing during the morning or afternoon hours when the Institute is in session.

Very truly yours,
(signed) L. F. Hamilton.

Tech Union

pending, will be announced in a few weeks.

Following the meeting next Wednesday will be a meeting with Wellesley on a subject to be announced later. The committee is also planning to institute a series of afternoon meetings at which student speakers will voice their opinions on various subjects within their scope of interest.

Membership in the Union may be obtained at the door Wednesday or in the Main Lobby on Monday, Tuesday, or Wednesday.

A. S. U.

(Continued from Page 1)

Miss Garber wishes to announce that there will be a meeting of the A. S. U. at 5:00 P. M., Tuesday, November 17, in the east lounge. Robert Claiborne, '40, will lead a discussion on Spain. Miss Garber also has plans of forming a chapter of the Peace Institute, a national organization for peace at Technology. Definite plans for a Technology chapter are not formulated as yet.

Ford Hall Forum To Hold Open Meeting

The Ford Hall youth forum will open its second season on Wednesday evening, November 18th, at 8:15 P. M., with a discussion on "Youth Asks of the New Administration—Peace, Security, Freedom, Progress." The meeting, which is open to all, will be held at the Ford Hall, corner of Ashburton Place and Bowdoin St., just in the rear of the State House.

Among the speakers who will participate in the discussion are Lewis J. Gorin, Jr., who last year organized the Veterans of Future Wars, Kenneth Taylor, an officer of the Massachusetts Federation of Labor, Jeffrey Campbell, Executive Committee member of the American Student Union, and William Sterling Youngman, Jr., son of the late Lt. Governor of Massachusetts.

Although the discussion is scheduled to begin at 8:15, doors will open at 7:30 P. M. No tickets are required.

Debating

(Continued from Page 1)

this organization to hold a mock session of Congress at the annual convention to be held in Rhode Island, instead of the usual debate tournament. Members of the Technology group did not appear to favor this proposal, although it did approve of participation in a debate contest. The annual convention will be held in April instead of May this year so that it will not interfere with final exams.

It was decided to have two freshman teams prepare a debate for the next meeting on the subject: "Resolved, that Congress should fix the maximum hours and minimum wages for workers in industry".

Professor Bigelow Addresses Meeting

Talks To Sedgwick Biological Society In Emma Rogers Room Thursday

Professor Robert P. Bigelow spoke at a meeting of the Sedgwick Biological Society, Thursday at 8 P. M. in the Emma Rogers Room, on the subject of "The Biological Aspects of Woods Hole." Professor Bigelow described the advantageous locality of Woods Hole in regard to biological research. The professor went on to say that there are three institutions at Woods Hole; "The Woods Hole Laboratories of the United States Bureau of Fisheries," which is solely for research, "The Marion Biological Laboratory, which is for both research work and teaching, and "The Woods Hole Oceana Graphic Institution," which is for research work only. Professor Bigelow then went into the details of the work done in each of the institutions.

A social followed Professor Bigelow's talk.

Henry J. Rugo, '37, president of the Biological Society, stated that Mr. Frank Stratton, who has been working on the Asquith case, will be the guest speaker at the next meeting of the society to be held on December 10th. Rugo also stated that the society is planning to get the Tech Cabin for an outing in the near future. He stated further, "Although membership into the society is limited to students in course VII, we should like everyone to feel welcome to attend our meetings."

Acrobatics Subject Of A. E. S. Lecturer

Professor Charles S. Draper of the Aeronautical Engineering Society was the chief speaker at the Aeronautical Engineering Society banquet Thursday in the North Hall of Walker Memorial. He spoke on "Aeroplane Acrobatics" before an audience of nearly 70, illustrating his talk with movies on the subject.

Guests at the banquet were Professor Richard H. Smith, Professor Shatswell Ober, and Professor John R. Markham. Professor Smith spoke on his experiences with lighter-than-air craft.

Gliding activities for the rest of the fall were discussed, and the meeting adjourned.

Outing Club Starts Membership Drive

The M. I. T. Outing Club is holding a membership drive today in the Main Lobby, and all members of the Institute are invited to join. In addition to holding entertaining meetings, the club is trying to give skiing opportunities to as many people as possible, planning in future years to maintain a cabin in suitable skiing country in New Hampshire. After the mid-year exams there will be trips each week-end to some good skiing locality.

Cross Country

(Continued from Page 1)

In the same meet Cooper placed 34th, and Eddy 37th. Coach Hedlund remarked that the reason for the squad's poor showing this year was due mainly to lack of a near-by course which would offer the hilly ground necessary in the proper training of a cross-country runner.

Although the meet will also include Freshman runners, there will be but one representative from Technology.

State Toxicologist Speaks At Meeting

Dr. William H. Boos, State Toxicologist, will be the guest speaker at the second meeting of the Chemistry Society to be held in about two weeks.

"Toxicology" is the subject of the address, and is a field in which Dr. Boos has had much experience. Following the lecture, movies will be shown.

The society is now holding its annual membership drive. There will be seven more meetings, for which speakers will be obtained, and a banquet will be held.
