Two-mile run	3	8	—	—
Totals	55½	43½	35	20

Total points for championship of year: 1906, total, 68 points; 1905, total, 60½ points; 1907, total, 53½ points; 1904, total, 53 points.

Junior Week.

WHILE it might seem to our readers that all that could be said as to Junior Week has already been covered in our last issue, yet this being a Junior Week number it is entirely fitting and proper that we should devote some little space to the traditional festivities which give the name to this souvenir edition of THE TECH.

Junior Week is that time in our college year when all student activities concentrate. There has been a *Technique* ever since 1885; it seems that there has always been an Institute Dance, and shows and plays have been given for years with great success; but only when these were collected into one glorious week of festivities did the Junior Week really commence. In 1893 there was a general awakening of the students to the fact that Tech lacked the social opportunities of other colleges, and so five bold spirits of the Class of 1894 decided to take upon themselves the burden of giving a Junior Prom. Since that time the success of this event has never been in question and the Prom is becoming, with passing years, more and more an honor to its committee and to the Institute. Held formerly in little obscure halls and attended by only a few of the students, it has grown to be that one crowning event of a Junior's life, the one time when every man who interests himself at all in class affairs is proud to be honored with an invitation.

The Tech Show, as such, has existed but six years, yet in that time it has forced itself into the ranks of the best amateur performances in the country. The projected excursions to Northampton, New Haven, Williamstown, and other places for next year
