Institute in Chemistry and Physics. Each Institution will give its own instruction in all subjects, and no limit is placed on instruction, the limit being only as regards the giving of degrees. Technology can, under this agreement, add Latin and Greek to its curriculum, if it desires, but it could not give degrees in these subjects.

The interchange of students provided for is an interchange of a limited number of advanced students and research students.

The Department of Architecture has been omitted from this tentative plan for the simple reason that Harvard has buildings which can be used only for instruction in Architecture. If agreement in all other points can be reached, it was thought that some satisfactory solution of the architectural problem could be found later.

Male students in the Institute shall have the same privileges as students in Harvard University in the use of

the playgrounds, museums and libraries of the University.

In the provision for the termination of the agreement at any time by the wish of either party, on condition that Technology pay for any buildings or fixtures upon the proposed site, paid for with funds furnished by the University, it is assumed in the first place that all buildings upon the new site shall be paid for by Technology, and belong to it.

The agreement shall take effect when finally adopted and approved by the Corporation and the Overseers of the University and the Corporation of the Institute, and when and if a decree of the Supreme Judicial Court, as provided for in the preamble of the proposed agreement, shall have been obtained.
