Single Copies 3 Cents.

In charge of this issue: G. S. WITMER, 1908.

Wednesday, November 22, 1905.

WILLIAM A. NICHOLS, PRINTER, 208 SUMMER ST., REAR

We regret to announce the resignation of Mr. Willis Ranney, 1906, from the Editorial Staff of THE TECH. Mr. John M. Frank, 1907, has been elected Managing Editor to fill the vacancy created. Mr. G. S. Witmer, 1908, has been elected to the Editorial Staff, and Mr. E. W. James, 1907, to the News Staff of THE TECH.

Every man at Technology should be at the Back Bay station today at 4 o'clock to give the Cross Country Team a send off.

Too much importance cannot be attributed to the organization of Technology Clubs, wherever a sufficient number of Tech men find themselves together after graduation.

University clubs have been formed with such gratifying success in most of our large cities that Tech men should feel encouraged to test the benefits of this kind of organization. The fact that a Technological Club of wide technical interests recently formed in a western city has among eleven officers only one Tech man, indicates that undergraduates at the Institute fail to have the advantages of a social and business nature that flow from these associations of technically trained men impressed on them while here. There are only three M. I. T. Clubs west of Pittsburg.

The Technology Young Men's Christian Association deserves great credit for the establishment of a Tech branch of the Boston Y. M. C. A. employment bureau. In another column the details are published, telling the requirements. In a city like Boston it is difficult for a student who is not known, to get employment which will allow him sufficient time to study. But by this method a needy student may utilize all his spare time to his material advantage. The conditions are not hard; a person having only to fill out an application at the office in Pierce Building and the secretary will notify him when a situation can be had. The charges are merely those sufficient to cover any expense of the Association in obtaining the work, and in case of their failure nothing is charged. The Tech branch is solely for students at the Institute. There is no better way for a man to get assistance, and those needing help, who do not apply, are doing themselves and the Association an injustice. We hope this new undertaking of the Technology Y. M. C. A. will meet with its well deserved success.

The students of the Nebraska Central College have decided by a unanimous vote to eliminate football from the list of college sports. In resolutions adopted, the students assign as a reason for their action a desire for self-supporting athletics, for clean sport, and for noble manhood.

A student body of the San Jose High School yielded to the agitation against football and passed resolutions barring the game till more stringent rules are enacted.

FOUND.—On the steps of Rogers Building a gold and pearl pin. Owner will please call at the Registrar's office.
