

CHORUS, "WILLIAM, WILLIE AND BILL."

**WANTED TECH MEN.**

Two former Tech men, Dr. E. C. Levy and Mr. E. E. Lochridge, who were recently students at the Institute, visited the Department of Biology last week in search of seniors from that department to work under them. Dr. Levy is at present the health officer in Richmond, Va., and Mr. Lochridge is engineer of the water department at Springfield, Mass.

Dr. Levy was the only head of a department in the city of Richmond who received all the appropriations

for which he asked, from the City Council last year. Mr. Lochridge's salary has recently been raised from \$3000 to \$4000.

**WENT TO WORCESTER**

The Mechanical Engineering Society took a very interesting trip to Worcester Friday under the leadership of Mr. R. H. Smith. About twenty men were met at Worcester by a representative of the American Steel and Wire Company and were escorted

through that plant, the trip taking the whole morning.

After dinner the Worcester Polytechnic Institute was visited, and then the party went through the works of the Norton Company, manufacturers of emery wheels. The particular point of interest at the Norton Company was their gas producing plant.
