

BUSINESS OPPORTUNITY

I have what I think, a very good opportunity to offer to an ambitious young man, with capital and good education to enter business as an active partner. The business which I refer to is the production of Lead, Power and Feed Screws which are in great demand by the mechanical world. We can manufacture these screws in any number, interchangeable and all alike from 0 to 12 inches in diameter, any length, cut with any style of thread, with a very satisfactory profit over and above any other process known. This is something which has never been accomplished before, hence a good opportunity for a bright young man. I have a demonstrating plant fitted with these Screw Machines covered by patents, which I would be pleased to show to such a person as before referred to, and would be only too glad to exchange references with anyone answering the above requirements.
