ATHLETIC ASSOCIATION.

 (Continued from page 1.)
view of the case that the present situation should exist. The position of cross country captain should stay as it is but the managements should be incorporated in one. Another point not to be overlooked is that this would greatly facilitate the dealings with outside colleges, which in every case have the same manager for both teams.

A chase captain should be chosen to direct the work of the hares and hounds. With regard to this latter and very important feature of the work, it would seem advisable to form a hare and hounds association to take care of matters pertaining to the work and to elect a chase captain. In order to secure some unity in this it would be well to charge some nominal membership fee, say 25 cents. This would go far toward clinching interest and would tend to give to the men concerned a sense of responsibility that is greatly to be desired. This association would be dependent on, and subordinate to the M. I. T. A. A. in all matters but would help a good deal in the routine work. It would also furnish a slight revenue from interested sources, always a desirable situation. Such an association should be formed at once owing to the early beginning of the long distance work.

Since the last meeting of the association both the basket ball and hockey teams have finished up their seasons. The former team has been moderately successful though it has had some bad slumps in its work. The latter has enjoyed a very good season.

A thing that should come under the jurisdiction of the A. A. is the approval of the raising of subscriptions for various special athletic purposes.

One of the best things that could happen for the general cause of athletics at the Institute occurred when the track management secured the N. E. intercollegiate meet for Tech field where it will be held this year, on the 22nd and 23rd day of May. This will not only help the A. A. in a pecuniary way but will do a good deal for the athletic status of Tech if the thing is properly handled.

In conclusion I would say that the outlook for a good season of athletics this spring is splendid and all that is required further will be a whole hearted support of the Institute teams.

CIVIC CLUB RULES.

 (Continued from page 1.)
he couldn't save the town a bill. Prof. Bates, however, carried the house with his proposal to force all automobilists to remove their tires before entering the town.

The second question considered was the advisability of an appropriation for the unemployed. E. Q. Adams 1908 moved an appropriation of \$36.47. This was objected to on the ground that Course IV men would be the only ones to profit. After a long discussion a committee was appointed to discover whether the men in question were coarse foremen or coarse loaders.

The third article, on a resolution and appropriation to compel removal of bill-boards, was strongly backed by B. L. Gimson 1908. He said that he had always been a friend to bill-boards as long as his "caow" had been able to take shelter behind the one down in the old corner lot during wintry storms, and especially as she gained much comfort from a bottle of Horsford's Liniment thereon. But when the bill-board blew down and the "caow" got concussion of the brain from an O'Sullivan's Rubber Heel and had its tail cut off by a Gillette Safety Razor he thought something ought to be done for the abolition of bill-boards. A heated discussion ensued and the motion was lost.

On the question of license or no license J. G. Reid moved a recess of fifteen minutes as he was a strong supporter of license and wanted to set up the drinks. E. Q. Adams asked what would happen if the motion were not passed, and was informed with great gravity by the Moderator that the motion would be lost! The motion was passed with but one negative vote, and the meeting adjourned for refreshments.

Y. M. C. A. HOLDS DINNER.

Thursday evening the Y. M. C. A. will hold a dinner at the Union, from exactly 5.30 to exactly 7.00. All who have attended any of the Thursday meetings or any of the Bible classes are invited to come around. The price will be forty cents a plate, not to be paid until an ample sufficiency has been secured. Neil McMillan, Jr., of the international Y. M. C. A. committee will speak.

The Technology Review

 A QUARTERLY MAGAZINE
DEVOTED TO THE INTERESTS OF
THE MASSACHUSETTS INSTITUTE
OF TECHNOLOGY
AND
PUBLISHED BY THE ASSOCIATION
OF CLASS SECRETARIES

83 NEWBURY STREET, BOSTON

The Review aims to develop closer relations among Institute men and to stimulate their interest in the work of the College. It is in no sense an engineering magazine, but deals broadly with the problems of Technological Education and the responsibilities of the professional man.

THE REVIEW is published during January, April, July, and October. Communications should be addressed to The TECHNOLOGY REVIEW, 83 Newbury St., Boston.

 SUBSCRIPTION, ONE DOLLAR A YEAR
