L. E. Wemple: "Investigation on the Preparation of Fibrous Acetate of Cellulose."
R. W. G. Wint: "A Microscopic Examination of Broken Steel Rails."

CLASS SECRETARIES TO AID.

(Continued from page 1.)
Fourth. That the class march or ride in a body to Symphony Hall, at the door of which they will be met by an usher who will conduct them en masse to the tables which have been reserved for them.
Fifth. That every man join in the singing of the various songs, the printed words of which will be distributed in pamphlet form with the programmes.

We are making, not following tradition, and few better legacies could be handed down to our successors than the fraternal, warm-hearted spirit engendered by the united voicing of our own songs by our own men.

Sixth. That concerted and ordered cheering between and not during the musical numbers, be substituted for the indiscriminate noise which has tended to mar the gatherings of former years.

Seventh. There is a tendency for a small number of the men under the stimulation of the evening's excitement to forget for a time their sense of proportion. To avoid a repetition of the unfortunate occurrences of former years effort should be made to safeguard this particular cause of disturbance.

The committee has requested that the questions sent, be answered on the sheet of paper accompanying the letter, enclosed in the stamped envelope, and mailed to the printed address. The notices are being sent to all the classes. All communications should be mailed to Allan W. Rowe.

SHIFTS IN GEOLOGY DEPT.

The following changes in the instructing staff have been made for the year 1908-1909: Mr. Waldemar Lindgren of the United States Geological Survey has been appointed lecturer in Economic Geology, to succeed Professor Kemp.

The majority of the members of the department are to spend the coming summer in the vicinity of Boston engaged in office and laboratory work.

Professor C. H. Warren intends to do field work in Ontario, and other parts of northern Canada, and in western Massachusetts.

Mr. C. H. Clapp has been assigned work by the Canadian Geological Survey in the southern part of Vancouver Island.

NOTICE.

A. I. E. E.—Regular meeting of Boston section Wednesday at 8 P. M. in the auditorium of the Edison Building, 33 Boylston street. The general topic for discussion will be lightning protection, with papers by Messrs. J. F. Vaughan and N. J. Neall. All persons interested are cordially invited to attend.

The Technology Review

A QUARTERLY MAGAZINE
DEVOTED TO THE INTERESTS OF
THE MASSACHUSETTS INSTITUTE
OF TECHNOLOGY

AND

PUBLISHED BY THE ASSOCIATION
OF CLASS SECRETARIES

83 NEWBURY STREET, BOSTON

The Review aims to develop closer relations among Institute men and to stimulate their interest in the work of the College. It is in no sense an engineering magazine, but deals broadly with the problems of Technological Education and the responsibilities of the professional man.

THE REVIEW is published during January, April, July, and October. Communications should be addressed to The TECHNOLOGY REVIEW, 83 Newbury St., Boston.

SUBSCRIPTION, ONE DOLLAR A YEAR
SINGLE COPIES, THIRTY-FIVE CENTS

Volumes I., III., IV., V., VI., VII., VIII., and IX., finely bound in half morocco, are ready for delivery at \$2.25 each, or will be exchanged for unbound sets, provided they are in good condition, at \$1.25 each. (If sent by mail, 30 cents extra.)
