

THE HORNET'S NEST

(Continued from page 2.)

stones were fired by kids about knee-high, whom you couldn't lick in cold blood. However, when a couple of policemen showed their brass buttons, the local warriors proceeded to fade away like nascent atoms. Did the flag go up on schedule? You bet it did and the guards were maintained until rush time, after the whitewashing. Say, in one or two respects, I'd like to be a freshman again!"

"Check!" corroborated Billiken from the pillow.

An old-fashioned rush was narrowly averted when the supporters of the Lafayette team grew over-demonstrative in the celebration of their victory over Princeton. The game was won by a sensational eighty-five yard run on the last play of the game.

Physicians ascribe the poor showing of the University of Georgia in football to the prevalence of the hookworm in the South. At least thirty percent. of the Georgia undergraduates, including several members of the football team, are declared to be affected.

An Opportunity for a Few Investors

The 8 per cent 10-Year Purchasing-Fund Gold Certificates.

ISSUED BY

THE WHEEL-MOTOR TRACTION COMPANY

This company has the sales monopoly of an improved form of commercial automobile, now in successful use by the U. S. Government and leading business concerns. The \$25,000 accumulated by the sale of these certificates is to be used for one purpose only—buying machines at the factory to fill orders. The machines are then shipped C. O. D. to the purchasers. Thus there is no credit risk, and the investors' money is neither tied up in equipment nor dissipated by expenses, but is either in cash on hand or convertible thereto at short notice.

Investors in this purchasing fund have the option of withdrawal of principal before maturity. A strong National Bank has agreed to act as Trustee of this fund for and on behalf of investors—to see that it is kept intact and used only as a purchasing fund. This bank will pay dividends as they fall due and will return to any certificate holder, upon sixty days' notice, the amount of his investment or any part of it, should he desire to withdraw same at any time before maturity.

The total issue is only \$25,000, each certificate being for \$25. For the present, with each \$25 certificate is given one share of 8 per cent. preferred stock, par value \$10; and with each \$100 purchase five shares of preferred are given. This unusual opportunity really brings the net return up to about 12 per cent., with the prospect of selling the preferred for nearly enough to pay for the whole investment. We make this offer so that it will not be necessary for this announcement to appear extensively, as previous issues have been largely oversubscribed.

If interested in absolute security of principal, large and definite interest return, and opportunity of speedy withdrawal of principal before maturity if desired, this investment should receive your immediate attention. Communications and orders should be addressed, and checks made payable to,
