All communications should be addressed to the proper departments.

Subscriptions \$1.50 per year in advance. Single copies 1 cent.

Subscriptions within the Boston Postal District and outside of the United States must be accompanied by postage at the rate of one cent a copy.

Printed by Puritan Linotype, Boston, Mass.

BOSTON, MASS., MARCH 21, 1910.

Saturday, The Tech received a great deal of criticism by outsiders because five cents. Although it is true that this may seem quite a "sell" when compared with the papers issued for that amount each Sunday, but we have neither the support in circulation or the ads. to make such a thing possible. That large cut on the first page was naturally the cause of the trouble. Few realize how a rush order on fifty-nine and a half square inches can make the wolf approach the door.

Please realize that in company with "The Californian" we are the only college daily in the world that has a regular price of one cent a copy.

The Tech is not after more readers; all excepting the few lost souls read the paper, but we must have a larger paid circulation.

If you don't sympathize with our efforts, don't buy or read The Tech, but, if you do want to keep posted, buy your copy and keep it! That is the way you can help those who are earnestly endeavoring to keep the many diverse branches of the Institute in one united whole.

A joint faculty student Friday evening cannot, of its very nature, mature for several weeks, but in the meantime can not some of the faculty test the value of the idea by practical trials?

The desire on the part of the students to reach the personality of their leaders is real, but they do not wish to impose on their time. Where do the members of the faculty live? How can you get there? When are they "at home"?

GENERAL NEWS

TELEGRAPH NEWS OF THE MORNING.

WEATHER REPORT.

Washington, D. C., Mar. 21.—Local forecast for Boston and vicinity—Generally fair and warmer. Moderate to brisk southwest to west winds.

CANNON POWERLESS.

Washington, Mar. 21.—Joseph Gurney Cannon of Danville, Ill., is still speaker of the house of representatives, but he lost on Saturday the ancient prestige and weapon of that office when the allied republican insurgents and democrats took from him not only the chairmanship of, but even membership in, the all-powerful committee on rules, the chief asset in his stock of power.

Amid scenes of wildest disorder, for the like of which one must go back to the exciting days just prior to the civil war—perhaps even those times might not duplicate it—the veteran speaker, almost 74, stood erect and defiant, his head "bloodied but unbowed." And at the end, when a big Texas democrat accepted the speakership, the republicans, regulars and insurgents, with few exceptions, rallied with almost unbroken party front and gave him a vote which almost offset the "repudia-

tion of Cannonism." He is still speaker, but completely powerless.

Philadelphia, March 21.—A probable settlement of the street-car strike is said to be in sight. As a result of conferences which began Saturday afternoon and were still in progress at 2.30 Sunday morning, a proposal was devised which is said to be favorable to both sides. The proposition submitted is substantially as follows: All strikers are to be taken back and as far as possible given their regular runs. Those who are not immediately put back in their old positions are to be placed on the extra list and given \$1.50 a day until they get regular runs. The matter of taking back the 178 men discharged for the "good of the service" is to be arbitrated. The wages to be paid shall be 23 cents an hour, to go into effect at once, and one-half cent an hour increase is to be granted each year until the rate reaches 25 cents an hour.

Cambridge, March 21.—A new sort of drill was given the Harvard varsity crew Saturday noon when it went out for its daily work. The water being rough it was impossible to take a long row, and instead a short stretch at a high stroke was tried for the first time. The big men in the shell found difficulty in keeping up the pace which Cutler set, and the rowing was ragged. When a racing start was tried the men were badly mixed up. Another trial with the stroke around 35 to the minute went somewhat better.

New Haven, March 21.—James J. Hogan, formerly a Yale football captain and ex-deputy commissioner under Commissioner W. H. Edwards of the street cleaning department of New York city died early Sunday morning at a private hospital in this city, to which he was removed from his parents' home in Torrington, yesterday afternoon.

West Point, N. Y., March 21.—Cornell and West Point qualified here Saturday in the preliminaries, for the fencing championships in New York next Friday and Saturday. West Point won 17 bouts, Cornell 15, Harvard 3 and Yale 1.

ALPHABET OF HEALTH.

A western philosopher has found inspiration in his prairie air for the following "Alphabet of Health," which was received in Boston by this morning's mail:

Abstain from intoxicating liquors.
Breathe good air.
Consume no more food than the body requires.
Drink pure water.
Exercise daily.
Find congenial occupation.
Give the body frequent baths.
Have regular habits.
Insure good digestion by proper mastication.
Justify right by living right.
Keep your head cool and your feet warm.
Laugh at trouble.
Make definite hours of sleep.
Never bolt your food.
Overexercise is as bad as underexercise.
Preserve an even temperament.
Question the benefit of too much medicine.
Remember, "An ounce of prevention is worth a pound of cure."
Sacrifice money, not health.
Temperance in all things.
Under no condition allow the teeth to decay.
Vanish superstition.
Worry not at all.
X-tend the teachings of this alphabet to others.
Yield not to discouragement.
Zealously labor in the cause of health and gain everlasting reward.
