VARSITY SWIMMERS TRAIL ANNAPOLIS

Fast Swimming of Midshipmen too Much for Institute Men—Three Academy Records Shattered

STALBIRD BREAKS PLUNGE RECORD

It was only after a hard fought battle, staged by the Annapolis and Technology swimmers, in which three navy records were broken, that the Middies won by the score of 36-17. The meet was featured by the excellent work of both sides.

A. I. E. E. MEETS IN ROOM 10-250 TOMORROW NIGHT

There will be a meeting of the Boston section of the American Institute of Electrical Engineers Tuesday evening, March 2, at 7.30 o'clock in room 10-250. It will be preceded by an informal dinner in the grill room promptly at 6.00 oclock. At the meeting, E. B. Rosa, chief physicist, Bureau of Standards, Washington, D. C., will speak on "The Work of the Bureau of Standards During the War and After." Students are invited to attend the meeting.

Will Explain Work of Bureau

Dr. Rosa will also try to answer the query often raised as to the necessity of conducting such work as that in which the Bureau of Standards is engaged. Many of the problems of the War which were brought to the Bureau are of interest, not only to the Government but to the industries of the country in times of peace. This fact has increased the activities of the Bureau to a considerable extent.

MACMAHON WINS TWO MILE

Strong Sprint at Finish Features Meet for N. E. A. A. U. Individual Titles—Hile '22 Gets Second Place in Hurdles

MERRILL PLACES IN HIGH JUMP

Bill MacMahon's sterling performance in the two mile run at the N. E. A. A. U. individual championships at Mechanics Hall Saturday evening clearly gave him the title at that distance. His showing was easily one of the features of the meet, which was run in conjunction with the Harvard-Dartmouth-Cornell triangular contest. The green athletes won the latter affair.

MacMahon took the lead in the fourth lap and was never headed. He finished with a strong sprint which brought him to the tape a half lap ahead of Cutbill, the second man home. Cutbill and Henigan, who was third, are regarded by track fans as the best men in New England in longer runs. Elmer Sanborn held second place till the last three laps but sprints by Cutbill and Henigan, together with Sanborn's lack of experience, cost him a place.

Bawden Out of 600

H. H. Hile '22 was second in the 16-yard high hurdles which was won by Meanix of the B. A. A. Hile is a transfer student from Penn State and under Intercollegiate rules is ineligible to represent the Institute this year. At present he wears the colors of the B. A. A.

Captain Mich Bawden was slated to start in the 600-yard dash but was unable to run.

VOO DOO OUT

Students Eager to Purchase the Feminine Number

The feminine number of the Voo Doo appeared in the main lobby yesterday. The cover presented the attractive show window of a modiste showing the latest styles of femininity at bargain rates. Red, khaki, dark green and black made up a harmonious color arrangement in a clever fashion.

The management, when consulted in regard to the large sale of the number, was unwilling to give its opinion as to whether it was the cover or the magic word, "feminine," which was responsible. This issue is on sale at the news stands downtown for the first time. The circulation at Wellesley, Sargent, and Smith is increasing regularly with every issue.

Bohemian and Prom Numbers Coming

The next issue will be the Bohemian number, appearing immediately after vacation. This number will appear early to make way for the Prom number, which will be issued Junior Week. The competition for the Prom number is still open and will

FRESHMAN BANQUET WILL COME FRIDAY

Banquet Given in American House Begins at 7.00 o'clock—Tickets on Sale in Main Lobby Today—Signups End Thursday

SONG COMPETITION ENDED

The freshman banquet which is to be held Friday evening in the American House is expected to surpass all former events of this sort in number of members, variety of entertainment and excellence of food.

The tickets for the banquet may be obtained in the main lobby this morning or tomorrow morning, freshmen having sign-ups should redeem them for tickets by paying $2.00 additional. The banquet committee strongly urges men to get the tick-

M. E.'S TOUR PLANT

Visit Edison Company's Station in South Boston

The second trip of the Mechanical Engineering Society to the Boston Edison Electric Light Company's plant in South Boston was made on last Friday by about fifty of the members. Like the thirty-five men who visited the plant on the preceding Wednesday the men were shown the boilers, and the immense turbo-generators.

The members were greatly impressed by the insight into the construction of the 30,000 kilowatt generator which is being built up in the station. It is being set up next to a generator of the same capacity and type, which is in constant use. In this way it was possible to compare the half built one with the operating machine.

The load on the station during the afternoon was about 73,500 k. w. which is the average load carried during that time. The men were also shown through the old plant which was built in 1898 and whose maximum load is about 10,000 k. w. per generator. This station has vertical reciprocating engines and is used only in an emergency.

COMMITTEE WILL ISSUE FREE TICKETS FOR ADMITTANCE TO HOG ISLAND SMOKER

May be Obtained in Main Lobby on Thursday, Friday and Monday—Crowd Expected to Fill Dining Hall to Capacity

MOVIES WILL SUPPLEMENT ADDRESS

On account of the limited capacity of the Walker Memorial and the unusual demand created by the widespread interest in the Hog Island Shipbuilding plant, the committee in charge of the smoker March 10, has deemed it necessary to require tickets for admission. The tickets are to be distributed, free of charge, Thursday, Friday and Monday in the main lobby from 11.00 to 2.00 o'clock.

Matthew C. Brush '01, president of the shipbuilding corporation will relate the history of the seventy-three cargo carriers turned out by the plant from the time of the forming of the corporation as a wartime emergency, to their record achievements on the high seas. He will supplement his address with 150 large panoramas and ten reels of moving pictures never before shown to the public.

The closing of the month of February found Hog Island vessels in practically every port of importance in the world. From Philadelphia to Liverpool, from Boston to Kobe, Japan, and Hrmburg, Germany; Spain, France, Portugal, Africa, Argentine and other South American countries nd Braitish Columbia, if one could have travelled to all of these countries during the month of February they would have witnessed Hog Island-built vessels receiving and discharging cargoes and receiving the commendation of shipbuilders the world over.

1,115,000 Miles Covered By Ships

One million, one hundred and fifteen thousand miles nautical miles have been steamed by the Hog Is-

SECURE J. P. WILLIAMS FOR SENIOR BANQUET

Editor of Boston Transcript to Speak at Senior Class Dinner—Gathering Will be Last Before Graduation

MUSICAL PROGRAM ARRANGED

The class of 1920 will meet as a body, perhaps for the last time before graduation, on Friday night at 6:00 o'clock. Dinner will be served in the main hall of the Walker Memorial and the committee in charge of the sale of tickets hopes that every member of the class will be able to attend.

J. P. Williams, editor of the Boston Transcript, has been secured as a speaker and "Doc" Bush, a graduate student in architecture, will also say a few words. Entertainment is to be furnished by a Senior Banjo Club in charge of M. B. Knox and vocal octet in charge of H. O. Davidson will also render selections. There are several surprises in store for the men and it is expected to secure Proctor to entertain with some of his specialties. Parodies on popular songs will enliven the evening. The price of the tickets will be $1.35.

ANNOUNCE BOXING MANAGERS

After a keen competition for assistant boxing manager's positions which has continued since the beginning of this term, the management still found its choice rather indefinite, when the contest closed last Saturday. After careful consideration, Manager J. D. Crosby '21 announced the election of C. H. Greenwalt '22 to the position of first assistant manager of the boxing team, and of A. E. Vaughan '23 as second assistant manager.

SHOW ELECTS ASSISTANTS FOR THREE DEPARTMENTS

Sixteen Chosen to Aid Business, Stage and Publicity Managers—These Men Will Take Charge of Next Year's Production

COMPETITION FOR LEGS OF CAMEL BEGINS

The management competition for Tech Show 1920 which has just been brought to a close included the largest number of competitors in the history of the Show and equalled in severity all former contests. Its purpose was to choose Sophomore and freshman assistant managers in the business, stage and publicity departments who will take over the managerial positions on next year's show. The present management consists of Percy Bugbee '20, general manager; R. J. Spitz '21, business manager; Stuart Nixon '21, stage manager; H. W. Smith '21, treasurer and J. G. Lee '21, publicity manager.

In the business department H. C. Ham '22 and Fearing Pratt '22 were chosen by Spitz from twenty-five Sophomores. They will compete for the remainder of the year to decide who shall be business manager and who the treasurer for next year. In addition, Broderick Haskell Jr. '22 is assistant to the general manager and will have charge of transportation when the Show goes to Northampton. The freshman assistants are J. C. Nowell Jr., W. D. Scofield and W. K. Coolidge.

The assistants to the stage manager are W. C. Roberson '22, L. K. Cowie '22, Hall Kirkham '23, and H. I. Beadle '23. One of these Sophomores will be selected after the last performance to be stage manager next year. This department has charge of the Scenario competition, rehearsals, costuming, the appointment of scenery and music directors, and all back-stage work during per-

FROSH TRACK TEAM DEFEATS WORCESTER

1923 Trims Academy Athletes by Score of 37-35—Bolster, West, Plaisted and Greenough Win

MEET DECIDED BY HIGH JUMP

The freshman track team defeated the Worcester Academy runners on Saturday in a closely fought contest which was not decided until Greenough, of the Technology yearlings, captured the high jump. The frosh took all the places and managed to trim the prep school athletes by a score of 37 to 35.

CHEMISTS WILL INSPECT HOOD RUBBER CO.'S PLANT

The Chemical Society will visit the plant of the Hood Rubber Company in Watertown Thursday, March 4. This trip will be limited to 100 men and only one visit is planned.

Signups are being made on the bulletin board in front of room 4-170. The men will leave the lobby of the Institute at 1.00 o'clock Thursday.

NORRIS SPEAKS ON HALOGEN ACTIVITY
