COMMITTEE ISSUES STATEMENT

The following statement is issued to the student body by the Hog Island Smoker Committee:

"Your committee desires to make it plain that the co-operation of the fellows is necessary for the success of the smoker. We shall have many guests here whose only opinions of the Institute will be based on our conduct during this evening and we know that in view of this explanation, this undertaking will be carried through in a way that will react to the credit of Technology."

*Not One Left Four Hours After Distribution Begins—Enthusiasm Runs High—No Expense Spared to Make Affair Success

TECHNOLOGY READY TO RECEIVE SPEAKER

Every ticket for the mammoth smoker was snatched up inside of four hours after distribution started which indicates that the limited space of the Walker dining room will be packed to capacity. All arrangements for entertaining Mr. Brush while in Boston are completed and the combined professional societies have spared no expense to make the smoker a big success. Mr. Brush's peppy jazz music, and continuous movies will all combine to keep things hummignig. The Corporation, the faculty, Alumni from all over the East, all are coming to the greatest smoker ever attempted by the professional societies.

Mr. Brush will arrive sometime tomorrow afternoon and is to be escorted by a committee of students to a banquet in his honor, given by members of the faculty and the Institute Committee. He will deliver a short address there and then proceed to Walker Memorial, where promptly at 8.00 o'clock he will start his talk on the Hog Island shipyard.

Mammoth Smoker Will Commence Promptly at 8.00 O'clock

The management is making it a matter of pride to start the smoker at 8.00 o'clock sharp and desire that all ticket holders be seated by that time. A snappy jazz orchestra has been engaged for the evening and will help pass the time quickly until Mr. Brush starts his speech.

Technology men from Stone and Webster, Boston Elevated, United Drug, Eastern Steamship, Boston and Maine, United Shoe and many other concerns have accepted invitations to be present. The Corporation and
