

GYM TEAM ELECTS CAPTAIN

At a recent meeting of the gym team, J. Van Horn Whipple '21 was

elected captain of the team for next year. W. S. Humphrey '22, the retiring captain, gave a short talk to the men.

Locker Rentals

Except for students taking Summer courses, expire June 12, 1920. Remove all goods and turn in your key before that date. For students taking Summer courses locker rentals expire on last day of such courses.

The Institute will not be responsible for material left in lockers. In all cases a storage charge of one dollar will be made.

ANNOUNCE CHANGES IN THE ORDER OF JUNIOR WEEK EVENTS

Junior Week next year will be begun by the Spring Concert instead of the Technique Rush as hitherto. The rush will come on the morning after the concert, which will be Thursday, March 16. Tech Show will be given evening and afternoon on Thursday and Friday, and the Prom will come Friday night also. The final event will be the Reception in Walker Memorial. All this takes place during the March vacation but the Faculty is co-operating with the student body by attempting to have the condition examinations over by Wednesday.

COLLEGE NOTES

Lehigh University—Dr. Drinker has resigned as president of the University. As yet no one has been picked to fill his place.

Susquehanna University—An informal dance was given by the Varsity "S" Club at the Keystone Hotel in the interest of "better athletics".

Washington and Lee University—Students and faculty are using pick and shovel on the new athletic field. The workers are divided into two teams, the Blues and the Whites, thus securing a keen element of competition.

Boston University—The freshmen at the College of Business Administration next year will have their troubles prepared for them. "Eleven Commandments for Freshmen" have been prepared, the first of which is that every freshman must wear a green button all of the time.

PHOSPHORUS AFTER VICTIMS

According to the latest reports, all Seniors of the class of 1920 are urged to part with the greater portion of their hard earned kale next year in order that they may suffer enjoyment by subscribing to the VOO DOO for its nine months of life during the Institute year.

The charge is supposed to be small enough to be within every man's reach, only \$1.50, and Phosphorus intends to conduct a vigorous campaign to obtain as victims every member of the departing class.

Entering the World Electrical

THE graduate of today enters a world electrical.

Gathered from the distant waterfalls or generated by the steam turbine, electric power is transmitted to the busiest city or smallest country place.

Through the co-ordination of inventive genius with engineering and manufacturing resources, the General Electric Company has fostered and developed to a high state of perfection these and numerous other applications.

And so electricity, scarcely older than the graduate of today, appears in a practical, well developed service on every hand.

Recognize its power, study its applications to your life's work, and utilize it to the utmost for the benefit of all mankind.
