The largest selling quality pencil in the world

planned to bring several nationally-known men here for addresses.

The purpose of the club is to promote good-fellowship among the members and provide for their social and religious welfare. Efforts are now being made to secure the membership of every Catholic student in the Institute. An especial invitation is made to foreign students as the club

is in no way restrictive of nationality. During registration, a table has been provided near the main lobby where all students are urged by those in charge to fill out membership applications. Rooming accommodations and general information will be cheerfully given for the convenience of all incoming students regardless of creed.

Modern Motive Might

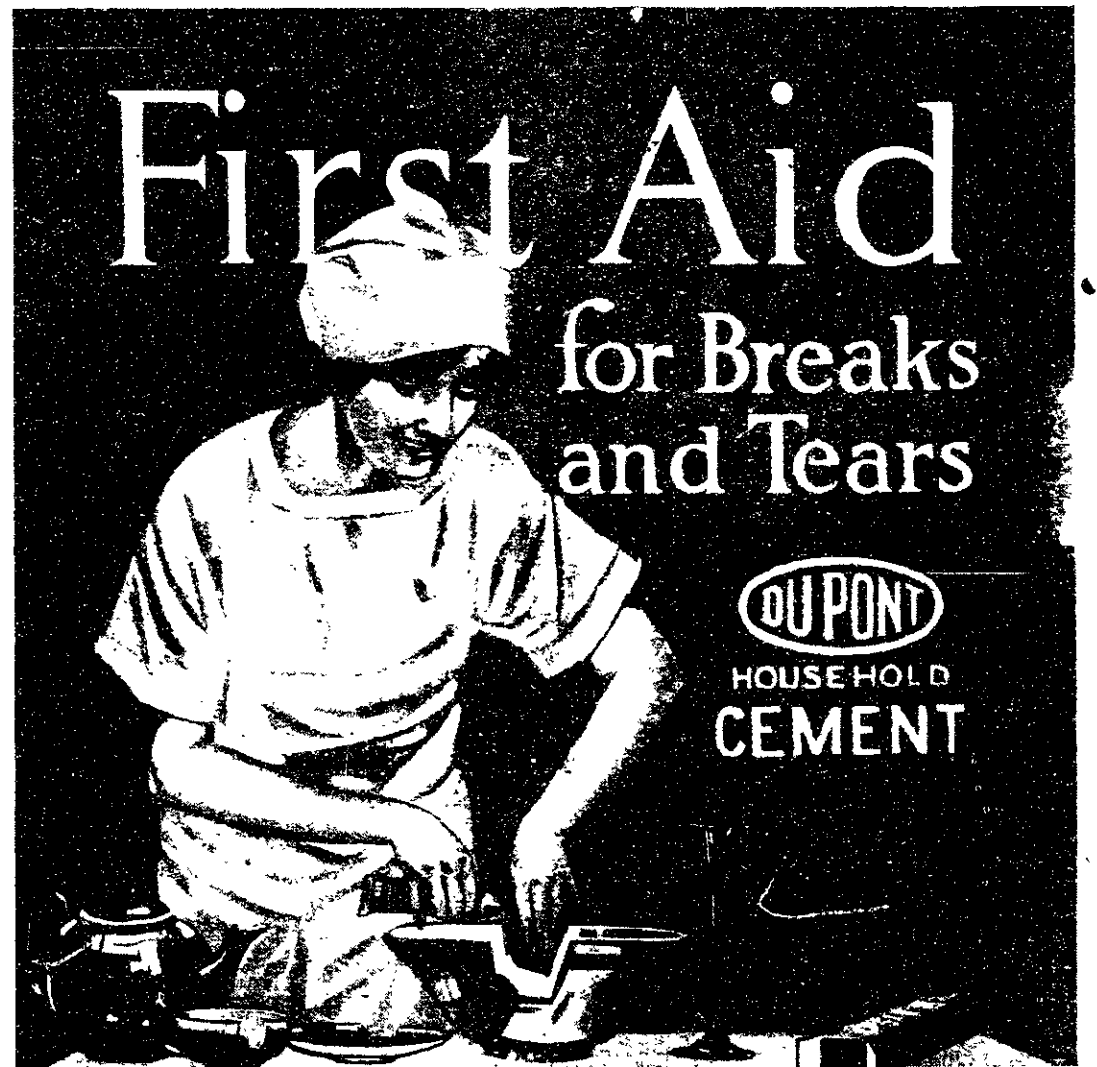

MOUNTAINS, miles and minutes give way before electricity, the magic motive power. Properly applied, it drives giant locomotives across the continental divide, tows ocean liners through the Panama Canal, or propels huge ships.

Through good light, safe signals, and illuminated highways, it is making travel better and safer and also is increasing the usefulness of transportation methods on land, sea or in the air.

In short, electricity is revolutionizing transportation, making it quicker, safer, more economical and reliable in all sorts of weather.

And back of this development in electric transportation, in generating and transmitting apparatus as well as motive mechanisms, are the co-ordinated scientific, engineering and manufacturing resources of the General Electric Company, working to the end that electricity may better serve mankind.

DU PONT
HOUSEHOLD
CEMENT

SAVE THE PIECES

Be they of marble, ivory, pearl, metal, china, wood, leather, pyralin or glass, Du Pont Household Cement will make them whole again.

Du Pont Household Cement is a pyroxylin cement made of pure cotton (no animal refuse). Water-proof, transparent, does not become rancid or harden in the tube.
