PLAN DANCE

Musical Clubs Will Open Season With Hop in Walker

You don't have to be musical to attend the Musical Club's dance to be held in Walker Memorial, on Friday evening, November 12; the only requisites are a girl and a ticket.

The tickets will be put on sale tomorrow at 12 o'clock in the main lobby, and incur a setback of \$1.50 per couple. The club members are to have the first chance at the tickets and as the tickets are limited to \$1.50, it will be advisable to get the tickets early.

The leader of the Glee Club, H. H. Fisk '21, announces that the second cuts will take place tomorrow in room 10-250. The first tenors will report at 4:30; the second tenors, at 5 o'clock; the first bases, at 5:30; and the time of the trial of the second bases will be announced later. The following men have been chosen for the quartet, H. A. Ball '22, H. H. Fisk '21, C. D. Grover '22, and S. P. McConnell '22.

Music for the dance will be supplied by Frank Gage's orchestra and Frank Gage himself will be there in person to furnish his entertaining novelties.

AERONAUTICAL SOCIETY POSTPONES FREE FLIGHTS

A postponement of the free flights to be given by the Aeronautical Engineering Society was again made necessary, this time not by the Harvard game, but by the high winds which prevailed on Saturday. However, the trip to the Lynnway flying field was made, and followed by a dinner at the Napoli.

Fully 40 men went on the trip. The names of the men to get the free flights were drawn; they are: G. F. Cook, J. P. Peed Jr. '22, J. W. Gundling '23, R. Rubin '22. Two more men will probably get free hops. Their names will be drawn the next time the society goes out to the airdrome.

Professor Warner of the Aeronautical Department was the guest of honor at the dinner which was served at the Napoli. He is considered an authority on airplane design and construction and has offered to speak at the smokers of the society.

Wherein Things Look Up For The Embalmer

To the Managing Board of THE TECH:

Quousque tandem abutere, O Tech-ites, patientia nostra! Most lizard-like with vile and loathsome crust, the time has come if you are men stand forth, we choose an open slaughter: Ye are doomed till the foul crimes done in your days of raving are burnt and purged away.

So be it that on November 16 shall you with all your powers prepare to meet your doom. We shall cause each particular hair to stand on end like quills upon the fretful porcupine. Ye are pigeon-livered and lack gall to take oppression bitter, for ere long ye shall have fattened with your offal all the region kites.

The quality of our mercy will not be strained, for we thirst only for the blood of you who have so unwisely permitted your names to be officially published as being responsible for your misdoings. Those who walk in ignorance so far as to aspire to be among you but as yet are not accepted we refuse to touch. So beware of our wrath and seek not to display your weakness by luring those who have heard nought but the call of the Siren and know not its vices.

In the ancient and honorable game of football lieth the reckoning. It is chosen as the fitting criterion whereby our prowess may be duly proclaimed.

Out, out, damned sheet, since 'tis done when 'twere done, 'twere well, 'twere done quickly, so lay on, Tech-ites, and damned be he who first cries hold enough.

'Twill be a good deed well done.

DONALD F. CARPENTER

To the Editors, Technique 1922:

You cannot imagine our surprise on learning you would come to the well once more. We had thought that the superiority of the embryo Brisbanes was firmly impressed upon the 'Sniquers last year when the Oliver-wreckers were returned victors by the overwhelming score of 0 to 0 after a bloody battle in the Tech Bowl. We had thought that one draught of the bitter cup of inglorious defeat would suffice to free us from further insults in the form of challenges from those who never have been, are not, and never will be, our equals, either in pushing a pen or following a football.

But being always of a generous nature, ever willing to prove our prowess on the gridiron and offer to aspiring challengers an opportunity to wrest from us the crown of victory, we will be pleased to show you once more, on Nov. 16, if you wish, that we are still invincible.

You have chosen the time, the place, the weapons. Permit us now one request. When the battle waxes warm and the irony of fate denies the 'Sniquers even the dx part of victory, do not, we beg of you, unsweeten our quaff of the cup of success with such defamatory allegations as those with which you introduce your challenge. Say it with artichokes.

ARTHUR W. SKILLING.

For the Managing Board.

Snique Honors T.E.N.

To the Tech Engineering News:

The Technique Board was highly amused to notice that it was challenged to a so called deadly combat on the tennis courts. At first we were at a loss to determine the identity of this T. E. N. But after a thorough investigation, it was discovered that one of our humbler knew of its existence. We were surprised to find that for eight months this T. E. N. had made its home under our very noses without our being cognizant of its presence.

In a spirit of benevolence we always strive to help struggling upstarts, and so in this case we deign to recognize this outburst of adolescent enthusiasm. We realize, however, that they strive too high and, in a spirit of sportsmanship, we suggest that they confine their ardor to the verile game of Pachisi.

Howbeit, T. E. N. if tennis it must be, come forth and prove your vaunted prowess. November twelfth shall be the day.

DONALD F. CARPENTER.

Golfers want "just enough Turkish." At Pinchurst, for example, Fatima holds each season's record for the largest sales; and during both the Metropolitan and National Amateur Championships last season, Fatima outsold all other cigarettes.

Why are some men still "cigarette shopping"?

IT must be because they have not found the *right* cigarette.

The right cigarette should not contain *too much* Turkish, for "too much" makes a cigarette over-rich, even "heavy."

Nor should it contain *too little* Turkish for "too little" means lack of taste.

The right cigarette should have *just enough* Turkish. It should please the taste without tiring it.

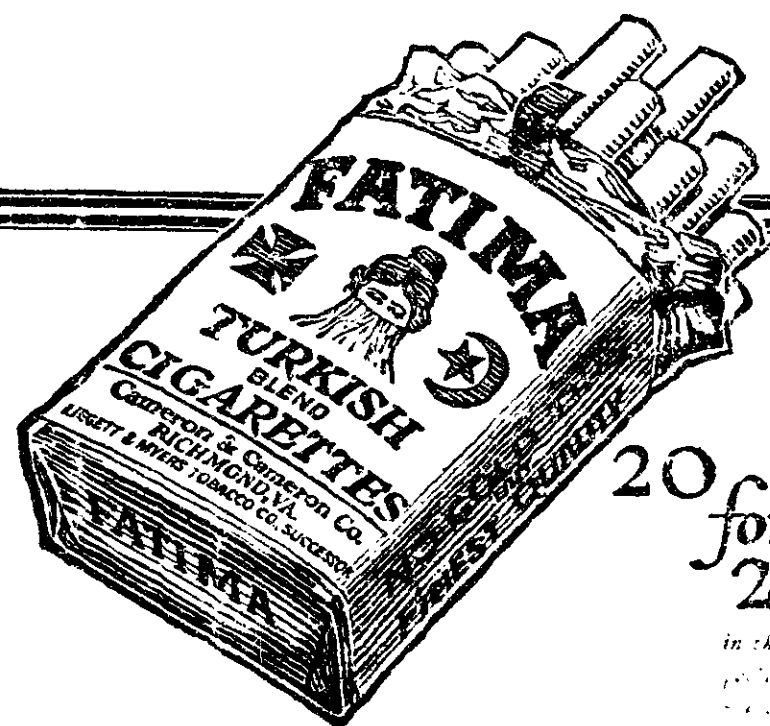

Scores of sales-records, like the above, seem to prove that the only cigarette which *does* have just enough Turkish is Fatima.

Fatima contains more Turkish than any other Turkish Blend cigarette, yet it is noticeably free from the over-richness of straight, all-Turkish cigarettes.

Most smokers quit "shopping" when they find Fatima.

ROCKEFELLER RESIGNS

Action by the Point System Committee was anticipated by H. E. Rockefeller '22, when he tendered his resignation to the Institute Committee at the regular meeting of that body which was held last Thursday. At the same meeting, it was decided to reinstate the Civil and Mining Engineering Societies on the Committee.

Rockefeller, who represented the Class of '22 on the Institute Committee was recently elected business manager of Technique. The fact that these two positions together carry 14

points, made his withdrawal from one of the necessary. The Point System Committee hopes to have the reports from all of the undergraduate activities by the beginning of this week.

Blewer was seated for Fargo, Smith for Satterlee. Roll call showed the following men absent: Bawden, Horn, Billings, Putnam, Gatewood, Kittredge.
