ACTIVITIES PASS ON PROPOSED STUDENT TAX RAISE AT ONCE

General Ballot Impossible This Term—Plan to Put Measure in Effect in Fall Term—1925 First Class Affected

WILL BENEFIT ATHLETICS

A new student tax of \$5 per man, passed upon by the Institute Committee at its last meeting, which if approved will become effective next fall, will relieve the financial strain placed at present upon the managers of the various teams.

At least so says C. E. Brokaw '22, treasurer of the Institute Committee, chairman of the Budget Committee, and President of the T. A. C. The measure will now go before the activities, as there is not time enough left this term to put it up to a vote by the whole student body. It is expected that the activities will write letters commending the proposed tax, so that it may become effective next fall.

The present rate is wholly inadequate for the expenses of Institute athletics. This can readily be seen when it is considered that Technology had only five or six teams to support when the tax was started, against the present 18.

Also, the cost of supporting teams in the field, particularly railroad fares, which is one of the most important expenses incurred by competing teams, has more than doubled.

Success Depends on Second Teams

Out of the present student tax 73 cents is given each class for its banquet, smoker and the like. This is now all turned over to help support athletics, and still there has never been money enough to pay for second teams or coaches.

Success in athletics in any college is largely dependent on second teams for in these seemingly unimportant squads is developed the material for the varsities.

Even the Institute Committee did not have enough to finance the All-

HARVARD OUTGOLFED 9-0 BY TECHNOLOGY

Crimson Received the Worst De- feat in Years Last Week When Engineers Putted to a Winning Clean-Up

MATCH CLOSE IN PARTS

Harvard suffered the worst defeat in years last Friday when the Institute golfers administered a 9-0 drubbing to the Crimson team. This match with the past performance of Technology's iron-handlers gives indication that the Institute will be in the running for inter-collegiate golf honors.

The match was a supreme walk-away for the Institute. Two of the angles ran to a nineteenth hole and two of the foursomes were settled on the eighteenth green. The Harvard segregation came out of every close place with the small end.

Freeman settled his single with Gerald Henderson, manager of Harvard golf, rather sensationally by holing out a birdie 3 at the 19th and sinking a 10 foot putt in a 4. Clement beat Snelling at the 19th rather unexpectedly, for Hank was within 2 feet of the hole on his second and

RETURN THEMES TO SENIORS

Themes and reports written by members of the class of 1921 in the courses given by the department of English and History will be returned to them on application at room 2-285 between the hours of 9 and 11, or 2 and 5. After June 3 all themes not called for will be destroyed.

JUNIOR OARSMEN ROW DEAD HEAT ON RIVER

Varsity Puts Up Game Race but Loses to Crimson's First Eight—Rough Water Causes Late Start of Races

FRESHMEN LOSE BY FOUR FEET

Harvard's junior varsity struck a snag Saturday afternoon when they ran up against the Institute's juniors. Over the Charlesbank one and seven-eighths mile course, a seemingly beaten eight at the halfway mark, the Technology crew came up from the ruck and crossed the finish line neck and neck with their rivals.

The varsity did not fare so well at the hands of the Crimson's best, losing over the same course by three lengths. Harvard was good, their new stroke, Appleton, apparently being the solution of their problem.

The Institute's oarsmen rowed in good form throughout, but were out-classed. Harvard started fast and led all the way. The time, 9 minutes and 59 seconds, was excellent, considering the conditions.

Although those who were sweltering in the hot sun may not have realized it, there was a varying breeze which kicked up quite a sea in the basin. The first race, between Harvard and Yale class crews, did not start until 5 o'clock, the junior varsities rowed next, so the varsities were not able to get under way until almost 7 o'clock. Harvard Bridge was literally black with spectators, and a long line of machines followed the progress of the race along the bank.

The surprise of the regatta was sprung by the junior oarsmen. Using a slow stroke from the start, Technology was about three-quarters of a length to the lead when Harvard Bridge was reached, but then things began to happen. Without quickening the stroke but putting every bit of strength into each pull, the Institute's shell began to creep up little by little, and finally gained a slight advantage. Harvard responded to the challenge and when the two shells crossed the finish line, the judges

SKETCHES DEAN'S LIFE

Prof. Robinson's Article Comes Out in T. E. N. Tomorrow

The next issue of the T. E. N. is to be out tomorrow. In this issue there will be a sketch of Dean Burton obtained from Professor Robinson of the English Department. The management feels that the sketch will be of great interest to the entire student body and Alumni of Technology.

There will also be an extensive article concerning the thesis work of the Seniors. In addition there will be interesting articles dealing with the development of engineering in China, the manufacturing of dynamite, student life in France, auto springs, the approximate trisection of a triangle as done by a Tech man, mechanical switches for the Bell telephone, and an article about the work of the A. A. E. in an attempt to increase the power of the engineering profession. The article on student life in France points out the fact that there are no fraternities and no class spirit among the students.

TICKETS TO SENIOR WEEK TEA DANCE NOW ON SALE

The tickets for the Senior tea dance which is to be held on June 8 at the Copley-Plaza, will go on sale today in the main lobby from 9 to 5 o'clock. The tickets of which there are only 200, will sell for \$2.50 a couple. No one man will be allowed more than five. This affair will be one of the features of Senior Week and will take place from 3:30 to 6:30 o'clock.

Other tickets for the banquet, picnic, and the Pops can still be obtained from the course publicity men. It has been announced that undergraduates will be allowed to attend the Symphony Pops Concert.

INSTITUTE TRACK TEAM SWEEPS FIELD AND WINS N.E.I.C.A.A. MEET WITH EASE

TAKE TRACK PICTURE

All men who competed in the New Englands are asked to meet at Notman's Harvard Square Studio, at 1 o'clock Thursday. At this meeting next year's track captain will be nominated.

"JAKE" DRISCOLL OF B. C. WINNING THE 440

Technology Gathers in 46 Points by Scoring in All But Three Events—Boston College and Williams Take Second and Third RECORDS BROKEN IN QUARTER AND HALF

Technology, with some points in every event except the low hurdles, the 220 and the running broad jump, easily ran away with the New England Intercollegiate meet Saturday when the Engineers rolled up a total of 46 points, just double the number taken by Boston College, which placed second. The Beavers came through with three firsts in the field and one on the track.

Williams Takes Third

Boston College came second with 23 points to its credit. Driscoll was the high point winner of the meet, giving his Alma Mater a first in the 220 and the same in the 440. Williams just trailed the Boston team with 21 counts.

The Beavers pulled a surprise when they took 9 points in the pole vault. Sheldon easily ran off with first honors when he cleared the bar at 11 feet 6 inches. Phil Stearns and Al Fletcher tied with Chapin of Williams for the second place.

Bawden Breaks Field Record

Mich Bawden succeeded in lowering the Tech Field record in the half mile when he covered the distance in 1 minute 57 seconds, one-fifth of a second better than the former time. His running in this race was one of the thrills of the afternoon. King of Holy Cross won the event last year and started the race Saturday, as though he wanted to win it again. At the end of the first quarter, he was leading the Institute runner by three yards. Bawden waited until he had rounded the last corner and then cut loose with his final sprint, which finally gave him a lead of nine yards when he broke the tape.

Driscoll Stars in 440

Jake Driscoll was the only man to break a N. E. I. A. A. record in the meet. He lowered the old mark of 49 and 3-5 seconds, for the quarter, set by Lester of Williams back in 1911, when he did the distance in 2-5 second less. His new mark equals the Tech Field record. Ollie Barden, of Technology followed him in and took a clean second.

Carter, running for Brown, came off with the premier honors in the century by nosing out Miller of Williams in the finals. Ted Bossert and Spitz

SCENARIOS FOR TECH SHOW '22 DUE FRIDAY

New Plan Will Eliminate Im- partiality in the Selection of the Three Successful Books By the Play Committee

PROF. ROGERS ACTS AS ADVISOR

All scenarios for next year's show are due in the show office not later than 5 o'clock next Friday. In order to obtain full value from the system which is to be used in selecting the book for the 1922 Show, all men submitting scenarios should carefully note the rules pertaining to the acceptance of their respective scenarios.

The names of the authors of the successful books will not be known to the committee selecting them, thus all prejudice will be avoided in the selection and impartiality will be shown in every case. This is to be accomplished by having each author choose a number of four or five figures and submitting his scenario marked only with the number to the committee.

The name of the author is to be placed in a sealed envelope with the number of his scenario on the outside.

Chess Club Still Out For Athletic Insignia

The mental athletes in the Chess Club assert that their activity is as much worth the award of letters and numerals as the other sports. However, finding that their point of view is not sufficiently universal to obtain the awards, they are extending their efforts, probably essaying to acquire the coveted honors in other lines.

Less often than formerly does the East lounge of Walker reverberate with the shouts and whoops of the pawn-pushing strategists as they madly chase one another over the checkered squares. They have been in the basement of Walker off and on through the winter, getting up their muscle on the bowling alleys, so that now that good weather is with us they are seeking laurels on the tennis courts.

CREW TOO EXPENSIVE

Dr. Rowe Says Cost May Pre- clude Crew as Major Sport

"The burdens of expense precludes crew as a major varsity sport at the Institute," was a statement made by Dr. Rowe in his report to the Alumni Council at their last meeting of the year in the faculty dining room of Walker. The meeting was held last evening in the form of a dinner. Dr. Rowe presented the report on Athletics, representing the Advisory Council on Athletics.

The report of the Advisory Council on Tech Show said that about 6,000 had attended the Boston performances of Tech Show 1921. About \$2,800 were cleared.

The Advisory Council on Publications reported on the finances of the various undergraduate publications. THE TECH made about \$1,800, T. E. N. some \$220, Voo Doo about \$500 and Technique 1921, \$1,000.

The next meeting of the year will not be held till after the opening of the fall term.

1911 RE-UNION SIGNUPS DUE

The Class of 1911 Reunion, which will be held this June 15 to 15, is well under way. A small newspaper "The Levever" has been sent out to those interested, with a coupon for signups for rooms at the Mayflower Inn, Plymouth. Wives and children of 1911 men may also accompany the men.

The original meeting takes place Monday morning, June 13, on Roger's steps.

FRESHMEN RECEIVE PRIZES FOR PHYSICAL IMPROVEMENT

Dean Burton has announced that the Cabot Medals for the greatest improvement in strength, measurements, and general gymnastic efficiency, as indicated by the physical examinations and as shown in regular class work, were awarded this week to students in the first year class as follows: R. P. Schreiber, William Giddon, H. J. MacMillan, Samuel Seltzer, J. W. Loubriel.

The following received Honorable Mention: W. D. Rogers, S. E. Cotter, R. I. Raphael, T. P. Bailey, H. E. Whitaker.

The medals are now being engraved and will be presented to the men at the Field Day Dinner next fall by President Nichols.

WHO'S WHO At Technology

The Officers of the Chauncey Hall Club are:
President, E. W. Booth '21, 484 Beacon St., B.B. 51935.
Vice-President, R. W. Haskell '21, 103 Jersey St., Boston, B.B. 53574.

CALENDAR

- Wednesday, May 25
 - 5:00—Golf Club, room 10-250.
 - 6:00—Naval Architectural Banquet, Boston Engineers' Club.
- Thursday, May 26
 - 7:45—Greater Radio Council, faculty and alumni room, Walker.
- Friday, May 27
 - 5:30—Catholic Club Dinner, faculty dining room, Walker.
 - 7:30—Catholic Club Meeting, main hall, Walker.
- Saturday, May 28
 - 1:00—Cosmopolitan Club Luncheon, north hall, Walker.
 - 7:00—Latin-American Club Dinner, faculty dining room, Walker.
 - 8:00—Lowell Institute Dance, main hall, Walker.
- Tuesday, June 7
 - 6:00—Senior Class Banquet, main hall, Walker.
- Wednesday, June 8
 - 3:30—Senior Tea-Dance Copley-Plaza.
 - 6:30—Alumni Association Banquet, Walker.
- Friday, June 10
 - 9:00—Senior Class Dance, main hall, Walker.
