

SCENARIOS DUE TODAY

Tech Show Urges Authors to Turn in Books

All writers of scenarios for next year's Show should have their respective books in at the Show office at 5 o'clock today. The committee in charge has already received a few and is desirous that the books be in on time in order that they may be judged and returned to their authors within the next week, if possible.

In accordance with the system which is to be used in judging the scenarios, the only identification as to the author of the book is a number, preferably of four or five figures, which is to be placed on the outside of the scenario. Along with this is to be submitted a sealed envelope with the scenario number on the outside and containing the name of the author.

Judging from the plots already received, the specifications outlined by Professor Rogers in his talk to the prospective authors, a short time ago, have been followed very advantageously and next year's show should be replete with Tech humor, in lines and cleverness of the plot.

Aspiring music and lyric composers are urged to devote a little of their time during the summer to the task of writing musical numbers for the jazz repertoire expected by the Tech Show audiences. Definite plans and suggestions for the musical program will be outlined at a smoker next fall, which is to be given for the music writers.

BIBLE CLASS AN INNOVATION

A new and somewhat uncertain venture in student activities, which was attempted this year, has just been brought to a successful close. Early in the second term a small group of students met with Dean Burton, Professor Seaver and Wallace M. Ross and decided to hold regular weekly Bible Study meetings and two groups were soon formed. Each Tuesday at 5 o'clock, Professor Haven has been taking up the lives of the important Bible characters with an interested group of 10 to 18 men. At the same hour on Thursdays, Professor Seaver has been directing discussions on problems of religion, which were taken up on his departure by Mr. Clarence F. Eddy.

More recently, the Episcopal Club formed a discussion class with Reverend Osborne in charge, and a small group has also been holding morning watch meetings, daily, at 8.45 o'clock in the back office of the T. C. A. This work will be greatly extended next year, especially among the freshmen, who will thus become leaders for following classes.

WALKER DINING SERVICE OPEN UNTIL JUNE 11

The Walker Dining service in all probability will not remain open after June 11, it was announced today. The first of the rooms to close will be the Faculty Dining room which will close on Saturday May 28. The Grill Room will remain open until June 11 if a sufficient number of men want it. Due to the class dances, dinners and other functions being held June 7 and June 8, it is likely that the Main Dining Room will not be open later than the former date. If, however, there are enough men, the North Hall will be open to take the place of the Main Dining Room.

TECHNIQUE ANNOUNCES FALL COMPETITION FOR MANAGERS

Candidates for competitive positions on Technique 1923 still have a chance to obtain important positions on the 1923 Board. A competition for two assistant managers will start in the fall one week after the Institute opens. This competition will last only for a month and it affords a fine opportunity for members of the class of 1923 to obtain places on the Board. At the same time a competition for the positions of business manager, treasurer, and two assistant managers for Technique 1924 will begin as well as a competition for editorial positions on the Junior Board of Technique 1923. These positions are open to members of the class of 1924. Men are urged to come out because the winners of these competitions are assured of prominent positions during their junior year.

NOTICES for Undergraduates

Fraternity representatives of the Silver Bay Conference are asked to meet at 5 o'clock today in the back office of the T. C. A.

The entire staff of the T. C. A. Handbook 1921 will meet at the T. C. A. office today at 5 o'clock.

HONORABLE M. J. RYAN TO ADDRESS STUDENTS

Noted Philadelphia Lawyer Will Speak on Irish Question — Was Delegate to the Peace Conference

LARGE ATTENDANCE EXPECTED

Hon. Michael J. Ryan of Philadelphia, has very kindly accepted the invitation to address the students and friends of Massachusetts Institute of Technology at a meeting to be held under the auspices of the Catholic Club on the evening of Friday, May 27, 1921 at eight o'clock in the Main Hall of Walker Memorial at Technology. Mr. Ryan's subject will be "Ireland—An American Question?"

Mr. Ryan was present at Paris during the whole of the Peace Conference, and knew personally many of the delegates, especially those of the principal Allied and Associated Powers. He, with Mr. Frank P. Walsh of Chicago, and Governor Dunne of Illinois, composed the committee appointed by Americans in this country to plead for a hearing of Ireland's cause at the Peace Conference. Mr. Ryan is a distinguished lawyer and

HONORABLE MICHAEL J. RYAN

a nationally-known orator and has always been a close student of international affairs. Consequently he will, no doubt, be able to throw some light on the much discussed question of recognition of Ireland's government.

Mr. Ryan has spoken to Boston audiences many times before, consequently there will be people, not connected with Technology, who are desirous of hearing Mr. Ryan. To these, the committee extends a very cordial invitation to attend the meeting.

Previous to the meeting, a dinner and reception will be tendered to Mr. Ryan by the club, at which state and city officials and members of the faculty of Technology will be present.

CLASS OF 1911 PLANS REUNION FOR JUNE 16

Tenth Gathering of Class Will Be Held at Mayflower Inn

The tenth reunion of the class of '11 is to be held at the Mayflower Inn beginning June 16. The members of the class will meet at the Institute on Thursday morning for an inspection tour of the buildings. They will lunch in Walker at 1:30 o'clock, and the party will arrive in Plymouth late in the afternoon.

For the first time in its history the members of the class are enjoined to bring their wives to the reunion. Accommodations for whole families will be provided at the Inn for those desirous of bringing along the children.

The entertainment committee has been busy and there will be something doing every minute. There will be boating and fishing parties, including even a deep sea fishing trip. The fresh pond of the Inn, which is reported to be well stocked, is also open to the visitors. Baseball games, tennis matches, and golf are on the program as well as dancing.

Transportation by auto is being arranged to take care of as many as possible. For those who intend to go by train there will be trains leaving South Station for Plymouth at 2:35, 3:54, 5:00 and 6:00 in the evening. Also a boat leaves Rowe's Wharf at 10:00 o'clock in the morning.

INTERCOLLEGIATE NOTES

As a result of the interest shown by the Dartmouth delegates at the convention of the Intercollegiate Liberal League which was held at Harvard, April 3, the delegates have organized a local branch at Dartmouth. The purpose of the league is to bring about a fair and open-minded consideration of social, industrial, political, and international problems by groups of college students.

One of the strongest points in favor of the organization is the plan which is now being worked out, by which the local clubs, in the colleges, will present to the student body able speakers who will present the problems on which they are an authority.

This scheme, to put both sides of the questions before the students, is most commended by all educators, and the success that the Harvard Liberal Club has found in actual practice of the scheme tends to indicate that it is not too theoretical.

The Junior Class at Princeton is considering the project of having class moving pictures made to be kept and shown at reunions and similar occasions. The general plan is to include in the picture all strictly class organizations, such as class teams, publication boards, committees and so forth, together with events affecting the Junior Class especially. The principal feature, however, will be a short individual showing of each man. Such a picture would have a genuine value as a living record of each man's undergraduate days.

Interesting statistics recently compiled on the number of Varsity letters and number of minor sports insignia which have been awarded this academic year at Dartmouth, Harvard, Princeton, and Yale shows that Princeton leads in this respect with 129 athletic insignia, exclusive of class numerals, awarded during this college year.

While Princeton leads in the total number of major and minor insignia, both Harvard and Yale have given more Varsity letters. Approximately 12.3 per cent of the students enrolled in the three upper classes at Princeton have received either Varsity letters or minor sports insignia.

AT THE THEATRES

PLYMOUTH: "Three Live Ghosts." A comedy on English life during the Great War; genuinely laughable, amusing situations and interesting throughout.

TREMONT: "The O'Brien Girl," with James Marlowe and Georgia Caine. Unusual amount of dancing, good music and well supported stars.

WILBUR: "Up in the Clouds." A patriotic ideal to help unite the country is worked out amid brilliant scenes, catchy music, real humor and attractive cast.

PARK SQUARE: "Buddies," with the original cast. Lively comedy with a war background; again welcome to our city.

KEITHS: (Next week) Featuring Harry Watson, Jr., in a laughter provoking act, Lillian Shaw, and William Gaxon and company, together with several other gleam chasing members.

GLOBE: Flecks Grand Opera Co. of New York, repertoire of standard operas.

COPLEY: "Ruddigore." Merry comic opera.

FENWAY: (Next week) "Through the Back Door." Mary Pickford in a story where she shows off her best talents in many directions.

ST. JAMES: (Next week) "When Dawn Came" with a Van Alstyne cast.

NOTED MEN DELIVER INAUGURAL SPEECHES

(Continued from Page 1)

tion Committee is in receipt of the following letter from Governor Cox:

My dear Mr. Humphreys:

I am honored by the invitation of the Committee in charge of the inauguration of Doctor Ernest Fox Nichols as President of the Massachusetts Institute of Technology, to attend the exercises, representing the Commonwealth, on Wednesday, June eighth, at ten-thirty o'clock.

It will give me an unusual pleasure to do so as Doctor Nichols was my own professor in Physics at Dartmouth, and then I came to have a strong attachment for him which has continued.

Very truly yours,
Channing H. Cox.

In the evening the Alumni Association will welcome the President at dinner, and in honor of the occasion all the buildings of the Institute will be ablaze with light.

As the result of a census taken by the Registrar, Wednesday, it is expected that 43 per cent of the students will attend the inauguration. The audience as a whole will sing "The Institute," an ode written by Fred P. Fisk, a member of the corporation.

SHOULD USE THE ROD MORE

Parents and School Teachers Held Responsible for Much Juvenile Delinquency

New York, May 26.—Parents and school teachers who spare the rod were blamed today by Judge Talley in General Sessions for the increase in criminality among youths in this city.

In passing sentence on a boy who pleaded guilty to stealing an automobile the Court said:

"The great number of boys of about the age of seventeen who have appeared in these courts as defendants this year is amazing. Children now escape adequate punishment for their misdoings. The inevitable result is that when they start out in life they show not the slightest respect for law and order, and eventually find themselves behind prison bars."

From the above article it may be gathered that the same scheme might work well at Technology. For instance how many more would study their math if Professor Passano would only walk into class with a large sized club instead of his half birdcage. Think how delightful it would be to have Professor Franklin reinforce his attacks on the chair with a few lusty swats from a large sized whip. Perhaps it might also get a few English themes on time and it would be certainly fitting to see Charles Pipkin reinforce his announcements that 3-4 o'clock is the worst hour of the day, with a few heavy blows with a cotton handkerchief. Verily a great idea!
