GENERAL DIAZ UNABLE TO TOUR INSTITUTE

An excessive amount of sight seeing and three banquets was the reason given by General Diaz for not coming to the Institute as was planned. He arrived at the doors of the Pratt Memorial in such a fatigued condition that he was unable to leave his machine to attend the convocation which had been arranged for him in Smith Hall, 10-250. There were about 400 present to greet him there, but this unforeseen occurrence deprived them of that pleasure.

On schedule, the party of which the general was the major member drew up at the entrance to building 5 at 5:45. The general remained in his car while the rest of the party, including General Edwards, was conducted on a short tour of the buildings by Assistant Dean A. T. Lobdell '17.

The assembled party in 10-250 were disappointed at the inability of the general to address them.

Dean H. P. Talbot wishes to express his regrets to the student body, and especially to those who were in 10-250 that the opportunity to hear so great a man as the general was denied them.

CORPORATION XV MOVIES SHOW USE OF CONVEYORS

Conveying machinery and its application to industrial production will be the subject of the weekly movies run under the auspices of Corporation XV and shown this afternoon in room 5-330.

The pictures were prepared by the Lamson Company, large manufacturers of conveyor equipment in America, and show the use of light elevators and belt conveyors, operated to gain the greatest efficiency in industrial transportation.

Mr. Agry, assistant sales manager of industrial sales of the Lamson Company, will explain the methods and application of the machinery as the reels are shown.

SOPHS BANQUET (Continued from Page 1.)

them that in the continuance of this spirit they keep human by mingling with the other men around Technology, particularly those in activities.

The next speaker, D. F. Carpenter '22, president of the Senior Class, told of what he had found out about Technology at the Intercollegiate Conference held here last year. The Junior Class was particularly responsible for the management of activities, but these men the Sophomores were the principle assistants to the managers, and the coming managers, and that as such they should realize the responsible position they held.

The conference, he said, proved that the Institute was the most completely student governed college in the country, citing as examples the point system and the student dormitory committee. He mentioned the fact of the increased student tax, but left the matter for T. M. Taylor, '22, chairman of the Student Tax Revision Committee, to discuss in more detail. He said, however, that of all schools having a tax, Technology's tax was one-third that of the next lowest school.

Following Don Carpenter, Dean H. P. Talbot was introduced. He, too, said that he had come in with the Class of 1924. He congratulated the class on its dinners, its Field Day victory, and its general attitude towards Field Day. The dean urged that the men not hesitate to keep in a close touch with his office.

Major Putney Adds Humor

Major Putney lightened the strain by announcing at the beginning of his talk that there would be no examination in Military Science this term. No one was disappointed or appeared so. He then continued with some funny stories which were loudly acclaimed by those present.

T. M. Taylor '22, presented the Field Day teams with their class numerals and as each name was called, the man rose and received an applause. Taylor also outlined the existing student tax system and told why it was necessary to increase this amount.

Following Taylor's talk two reels of movies completed the program.

SECOND TERM SPORT SIGNUPS MUST BE IN BY NEXT TUESDAY

Men who wish to substitute the sport option for gym class work during the coming term must sign up at the office of the physical instructor, room 335, Walker, before Tuesday, December 13. Men who are now substituting sports, and who wish to continue, must sign up again. The office will be open from 8:30 to 2 o'clock every day this week.

The electives for the second term are: wrestling, boxing, fencing, hockey, gym, basketball, swimming, and track.

INSTITUTE QUINTET GOES INTO ACTION (Continued from Page 1)

the season. The basket-shooters kept are Captain Hubbard, Bates, Blood, Boyer, Bretting, Coleman, Cook, Davidson, Jenkes, Kennedy, Landis, Levi, Sawyer, Skinner, Storb, Spaulding, Tonon, Murdoch, and Ferguson. Of these Captain Hubbard, Blood, Tonon, and Bretting are last year's regulars and are to form the backbone of the team. Kennedy, Levi, Cook, and Murdoch were the best men on the 1921 aggregation and promise to make the other lads hustle for positions.

No Dance After Game

Although the practice of holding dances in the gym after the basketball games is to be continued this year, the management has decided not to hold one after the Northeastern game because the Dorm dance is scheduled for the same night. The game will be over in time for those present to go to this affair.

FINAL DANCE ORDERS FOR JUNIOR FORMAL DISTRIBUTED

All plans for the Junior Formal have been completed. Dance orders were distributed yesterday, and will be given out again today. Upon presentation of supper tickets men can obtain two dance orders, from 12 until 2 o'clock in the main lobby. This is merely to give the men a chance to get their orders filled out before tonight. Those who have not received their orders before the dance will find them at the door tonight.

The music is under the direction of W. Edward Boyle, who will be present with his seven-piece Copley Plaza orchestra. Mr. Boyle states that although one-steps and waltzes appear on the order, he will play fox-trot encores to all of them.

The matrons will be headed by Mrs. Richard C. MacLaurin, assisted by Mrs. Edward W. Cunningham, Mrs. Francis R. Hart, Mrs. Edward F. Miller, and Mrs. Edward S. Webster. Dancing will begin at 8:30, although no dances on the order will be played before 9 o'clock. The dance order proper will begin promptly at that time.

The decorations of the hall are in charge of Penn, who will use laurel, palms, and hemlock. A sumptuous repast will be served in the balconies and north hall at 11:30 o'clock. One hundred and forty couples are expected.

GYM ISSUES URGENT CALL FOR ACROBATS

Candidates Coach Tischoff Could Use a Large Number of New

SQUAD SHOULD BE DOUBLED

Up to the present time there has been an unaccountable state of lethargy on the part of many gym team performers of last year to report for this year's work. The management is unable to explain this existing condition. Nesmith Thompson '23, this year's captain, makes an urgent appeal to the student body for new men, from all classes of the Institute who have any ability whatsoever along gymnastic lines or who are at all interested in work of this nature.

To date there are about 40 men on the Institute's gym squad, which is far below the average of past years.

Gym Reputation is in Danger

Manger L. J. Porter '23, states that the reputation of the gym team is placed in a far more hazardous position this year than any year in the past, due to the fact that the Intercollegiate Gym Meet is to be held here at the Institute and that the inability of the team to place a winning team in the field will reflect the sporting spirit harbored by men of the Institute. As the case now stands there are positions on the team which are being filled by one man who has no competition to spur him on to increase his ability.

Competition Is Necessary

Thompson says the only possible way to turn out a winning team is to have competition which is conspicuous by its absence in this year's training. Porter states that any information or advice from the students for the furthering of gym as a sport here in the Institute would be gratefully received.

Coach Tischoff, while doing fine work with men at his disposal feels the lack of material and states that he could keep a squad fully twice as large, at work.

C. F. ROLLINS SPEAKS ON DEEP WATER FOUNDATIONS

Mr. C. F. Rollins '78, president of the Holbrook, Cabot and Rollins Corporation, contractors in deep-water foundations, addressed the Civil Engineering Society at its smoker last night. The subject of his talk was "Foundations." In his connection with this company, and previous ones, he has been connected with many of the construction operations of laying foundations below water.

His talk was illustrated with slides of the various foundation works he described. Among these views were pictures of the construction of the foundations of the Boston Drydock and Charles River Dam and Locks. His slides illustrated the construction and placing of pneumatic caissons for the interstate bridge between New Hampshire and Maine, now being constructed at Portsmouth, N. H. Here caissons have been sunk to a depth of 80 feet in water with a tide of from six to seven miles an hour, an extremely difficult operation.

STEEL TREATING SOCIETY TO CONDUCT ALLOY EXPERIMENTS

There will be a meeting of the Boston chapter of the American Society for Steel Treatment tonight at 8 o'clock. The members will meet in room 3-270, and will later adjourn to the Testing Materials Laboratory. An informal talk on testing will be given by Professor H. W. Hayward, professor of the materials of engineering. This will be followed by tests for strength, hardness, and shock resistance of alloy steels submitted by various steel companies. All members of the Mechanical Engineering Society of the Institute are cordially invited to attend the meeting.

FALL TERM REVIEWS---PROVISIONAL LIST

Reviews will be given at this school by competent and experienced tutors in the courses and at the times indicated below.

Reviews in other subjects will be offered if a sufficient number express a wish to this effect.

TENTATIVE SCHEDULE FOR "TECH" FALL TERM EXAMINATIONS.

SUBJECT	EXAMINATION	REVIEW DATE
Chemistry 501	Dec. 20	Dec. 17 at 7 P. M., and Dec. 18 at 7 P. M.
" 550	Dec. 16	Dec. 16 at 7 P. M., and Dec. 17 at 2 P. M.
" 551	Dec. 19	Dec. 16 at 7 P. M., and Dec. 17 at 2 P. M.
" 510	Dec. 20	Dec. 18 at 2 P. M., and Dec. 19 at 2 P. M.
" 565	Dec. 16	Dec. 13 at 7 P. M., and Dec. 14 at 7 P. M.
" 565a	Dec. 16	Dec. 13 at 7 P. M., and Dec. 14 at 7 P. M.
" 566	Dec. 17	Dec. 13 at 7 P. M., and Dec. 14 at 7 P. M.
" 567	Dec. 17	Dec. 15 at 7 P. M., and Dec. 16 at 7 P. M.
Descriptive Geometry D-191	Dec. 17	Dec. 15 at 6:30 P. M., and Dec. 15 at 9:30 P. M.
" " D-171	Dec. 21	Dec. 20 at 2:30 P. M., and Dec. 20 at 6:30 P. M.
		Dec. 16 at 2:30 P. M., and Dec. 16 at 5:30 P. M.
Electrical Engineering 601	Dec. 20	Dec. 18 at 1 P. M., and Dec. 18 at 7 P. M.
English and History 11, 12, 13, 21, 22, 23		
Heat Engineering 240	Dec. 20	Dec. 17 at 1 P. M., and Dec. 17 at 7 P. M.
Hydraulic Engineering 168	Dec. 16	Dec. 14 at 7 P. M., and Dec. 15 at 7-10 P. M.
Hydraulics 162	Dec. 19	Dec. 17 at 7 P. M., and Dec. 18 at 2 P. M.
" 165	Dec. 16	Dec. 13 at 4 P. M., and Dec. 14 at 4 P. M.
Railway Fieldwork 120	Dec. 20	Dec. 19 at 7 P. M.
Structures 149, 150, 151	Dec. 16	Dec. 13 at 6:30 P. M., and Dec. 13 at 9:30 P. M.

Private tutoring will also be furnished if desired.

Tutors are not expected to proceed with a review unless at least four men present themselves.
