**FREE COCOA WILL BE SERVED
STUDENTS DURING NEXT TERM**

Through the system of physical ex-
aminations in vogue at the Massachu-
setts Institute of Technology it has
been discovered that something like
40 percent of the students are improp-
erly nourished. To remedy this con-
dition a cup of hot cocoa or hot milk
is to be served free to anyone who
wishes each morning at 10 o'clock.

Dr. G. W. Morse, the head of the
medical department, is the man who
made the discovery, and the remedy
is due to the generosity of W. E.
Smith, of the Georgian Cafeteria,
which has the concession for the res-
taurant in the Walker Memorial.

"Many of the students are commu-
ters," said Dr. Morse, and they have
to leave home early with only a hur-
ried bite of breakfast or a cake of
chocolate eaten on the way in. They
stand in the laboratory or sit in lec-
tures all the morning and between 11
and 12 o'clock they get dizzy or faint
because of a condition of hyperacidity
due to the long period of inactivity
of their stomachs and their efficiency
is greatly impaired. I asked Mr. Smith
what we could do to improve the con-
dition and he at once offered to sup-
ply free cocoa without increasing the
cost of the food served at the Walker
Memorial. In the ten-minute period
before the 10 o'clock lecture begins
this will be served, beginning with the
next term, first in the lounge in the
basement of Building 2 and later in
other parts of the Institute if the de-
mand warrants."

"I found that I could furnish hot
cocoa or hot milk," said Mr. Smith,
"without any appreciable cost in the
overhead and I felt that it was due
the boys to give them enough to eat.
So we shall be ready to serve a cup
of hot cocoa or hot milk. I think
there is more pep in a glass of hot
milk than in anything else together
with a cracker which we shall make
especially and which will contain
plenty of vitamins, and we hope that
the condition will improve. I should
like to see Technology the best fed
college in the country."

**OUTLINE WINTER TOUR
DURING XMAS HOLIDAY**
(Continued from Page 1.)

ment of the Clubs to arrange such an
extensive trip. In 1917, the Clubs
went as far west as Chicago, but
never attempted a continuous six-
concert trip.

Clubs Organization Changed

The expansion of the Combined Mu-
sical Clubs during the past two years
has been rapid. From an unstable or-
ganization suffering from the loss of
many of its best men, the Clubs were
built up to a membership of 75-100
men. The management was stepped up
a year, making the general manager
a Senior instead of a Junior and giv-
ing to his position an assignment of
10 points according to the Technology
point system. This placed him on a
par with the general manager of Tech
Show, and THE TECH.

This year besides the treasurer and
the publicity manager, two new off-
icers were added, the stage manager
and the manager of the choral society.
The success of the trip of last year
vouches for the stability of the or-
ganization.

The general manager has announced
the following personnel of the Clubs
