

BIG CROWD WATCHES VARSITY DEFEAT B. U.

Beaver Team the Winner in Hard Fought Game Full of Personal Fouls

FROSH VICTORS OVER B. U. '25

After Boston University held them to even terms during the first half of the contest in Walker gym Saturday night, the Beaver five came back with a vengeance and delighted the large crowd that packed the bleachers by swamping the B. U. aggregation in the final period and winning 34 to 15. The contest was especially hard fought by both teams and marked by the unusual number of personal fouls that Referee George Holt was forced to call. Two Beavers, Bernie Coleman, and then in the last minute of play, Captain Cub Hubbard, were ruled out for amassing four each.

B. U. Gets the Jump

The first part of the game was marked by good defence work and poor shooting by both teams with the result that after some minutes of play neither had scored. Then the fouling began, and by this means the visitors ran up a few points before the home attack got under way. Captain Hubbard continually broke up the forward attack of the B. U. team but the play was rough on both sides and Cub soon acquired three personals and with the half about twelve minutes old left the floor. Gyp Blood who had been moved into center came back and took Cub's place while Bernie Coleman went in at the pivot position.

Tonon and Storb Stage Rally

Toward the last of the half Tillie Tonon got free and counted twice while Storb, his running mate, also caged two a little later. This put the Beavers in the lead and in spite of some snappy playing by Jenkins and Captain Graves, who had replaced Wiley, the Beaver defence remained impenetrable and the half ended with the score 10 to 8 in favor of the home team. Only once in this half and twice in the following session were the visitors able to cage their shots, their other nine points resulting from free penalty tries.

Beavers Shine in Last Half

Just before the first half ended, Davy Davidson went in for Storb but it was not until the second period that he got in his effective work. During the latter part of the game the visitors began to foul more frequently and Davy began the Beaver scoring by caging two free tries. Then he and Tillie Tonon began to run wild through the B. U. defence which seemed to totally disappear. Davy got six baskets and Tonon two while Stan Cook came down from his guard position and added another. The Engineers were simply not to be stopped and as the contest continued it became merely a matter of how great a score they would run up. Captain Graves and Pettingill made a couple of spirited attempts on the home basket which netted B. U. its only tallies of the period but their efforts could not alter the final result.

Coleman Put Off for Fouls

Both quintets played hard and fouls were called frequently, nearly every man on the floor having two or three personals called against him. In the middle of the second half Coleman was disqualified by four personals and

UNDERGRADUATE EMPLOYMENT BUREAU ASSISTS STUDENTS

The Undergraduate Employment Bureau of the Technology Christian Association has made known the fact that the money value of work given to students during the first term amounted to \$1087. According to E. E. Bigelow '22, director of the department, the figures would show a much larger sum if all the men helped had returned the information cards given them.

The Boys' Work Department, under the direction of M. S. Dimmock '22, is in need of three men to assist in the work at the Cambridge Neighborhood House beginning today from 3:15 to 5 o'clock or from 4 to 5:45 o'clock. Four men are also needed for similar work at the East End Union of Cambridge. One of these is to be used from 4 to 5:30 o'clock today and the three remaining will be occupied during the same hours on Thursday. R. A. Stone '22, urges all men interested in this sort of service to report at the T. C. A. office as early as possible.

VOO DOO STAFF PREPARES NOVEL MEETING FOR TODAY

This afternoon Phosphorous will hold a meeting for the benefit of men who are desirous of entering some activity and have not had time heretofore to find out just how the Institute activities are conducted. By attending this meeting the student does not bind himself in any way to enter the Voo Doo work but will be able to get a clear insight of student activities. At the same time the "glowers" feel that their work is so different that it may attract those who are inclined in either an art or literary way. The business department also offers the student training in office organization and many probably would like this work preliminary to entering business. At any rate, if you have the time, Phosphorous requests your presence at 5 o'clock, today, in accordance with the Calendar notice.

CLUBS REDEEM CONCERT SIGNUPS THURSDAY NOON

Issue Tickets For 3 O'clock
Dance at Copley Plaza

PRESENT NEW PROGRAM

With the Winter Concert only two weeks distant the general sign-up sale for the winter concert of the Combined Musical Clubs at the Copley Plaza on Friday evening, January 27, has been brought to a close and the redemption of sign-ups for tickets will begin in the main lobby Thursday noon. The completion of the plans for the party to run till 3 o'clock are announced by the management. Sign-ups may still be obtained by calling at the office of the musical clubs before Thursday as a few are still available, before the patroness lists begin to flow in.

The system used for the distribution of seats for the concert will be based on a theatre seating plan and the preference of seats will be determined by the "first come first served" principle next Thursday. Several men going to the concert together will be able to obtain blocks of tickets if one of their number stands in the line and presents the sign-ups of the other men. The payment of three dollars accompanies the presentation of the sign-up of any man for the completion of its redemption.

Patroness invitations have been sent out and the list is expected to be fairly complete when the programs go to press this week-end.

Statements from the committees in charge of the recent concert of the clubs at Simmons College indicate that the clubs were successful in their first concert after the winter trip, and with rehearsals running according to the regular schedule laid down last term, the clubs will be prepared to present a new program to the undergraduates at the Winter Concert.

TECHNIQUE STARTS SIGNUP CAMPAIGN

New Year-Book Will Contain
Many Novel Features
—New Cover

DRIVE WILL LAST ONLY WEEK

Sign-ups for Technique 1923 will be on sale all this week in the Main Lobby from 9 to 5. The price is one dollar for the sign-up and \$2.50 when it is redeemed making the total cost of the book \$3.50, which is the same price as in preceding years. The Board has announced that everyone who desires a book must get a sign-up this week. None will be sold later.

This year's book will contain many new features, chief among which are the new cover design and workmanship, an improved type of paper which does away with the excessive glossiness and, throughout the book, an attempt has been made to add to the interesting features and omit all unnecessary statistics and records. There will also be more photographs, both teams and informals. In the portfolio section there is a higher percentage of Seniors than ever before, making the book of special value to the graduating class.

Everyone desiring a copy of the book is especially urged by the management to get a sign-up this week and avoid being disappointed later in the year.

CHEMICALS HOLD SMOKER IN WALKER TOMORROW

Dean Homer Albers of the Boston University Law School will be the speaker at the Chemical Society's smoker tomorrow evening in the main hall, Walker, at 7:30 o'clock. The address will be followed by movies of the sugar industry and the customary refreshments and entertainments of a society smoker. The subject of Dean Albers' talk is announced to be "Legal Ethics" and is to deal with the important law cases now running in the Boston newspapers. He will discuss the technical and scientific aspects of the case and their bearing on the life of the community.

Dean Albers is well known at the Institute, where he has spoken before the various professional societies at different times. He also conducted a course in Business Law as one of the general studies here at Technology two years ago.

The movies will be a six reel picture of the sugar industry in all its phases from the growing of the cane to the refinement of the final product. They were secured through the courtesy of the American Sugar Refining Company. All Chemical Society men are invited to attend and the committee in charge promises them an enjoyable evening.

M.I.T.A.A. OPENS COMPETITION FOR PUBLICITY DEPARTMENT

The Publicity Department of the M. I. T. A. A. reports that there are no freshmen working for it at present though a competition leading to the position of Publicity Manager of the Association is being inaugurated. Freshmen who enter the competition at this time will be eligible for the manager's position in their Junior year although they will have missed all the work of last fall. Any men who are interested should report in the M. I. T. A. A. office at 5 o'clock any afternoon in the week.

The Publicity Department has now more need of candidates than formerly as it has taken over all the advertising of the athletic teams. All matters of either local or general publicity are directed by the Department. The programs of all home meets, the team pictures, and the athletic posters seen about the buildings constitute part of its work.

The Department's most recent work is the printing of a folder of the team schedules of all the athletic teams of the Institute which will be distributed to the students tomorrow. These folders contain information concerning all the teams and the meets in which they will participate.

STUDENTS ADVOCATE ECONOMIC CONFERENCE

Delegates From Twelve Colleges
to Discuss World Situation

WORMSER WILL PRESIDE

A mass meeting of students of all the colleges of greater Boston, called for the purpose of discussing the economic situation confronting the world today and specifically to vote upon a resolution urging an immediate Economic Conference of the Powers, will be held in Faneuil Hall on Wednesday evening, January 18, at 7:45 o'clock. The meeting is being held under the auspices of the National Student Committee for the Limitation of Armaments and the cooperation of the following colleges and schools has been secured:

Harvard University, Boston University, Boston College, Tufts College, Radcliffe College, Wellesley College, Massachusetts Institute of Technology, Simmons College, Northeastern College, New England Conservatory of Music and the Suffolk and Portia Law Schools. Tickets may be obtained from Mr. Pipkin, room 2-179.

Foreign Notables Speak

Robert Wormser of Harvard University will preside and arrangements have been completed as a result of which the following speakers will address the meeting: M. Maurice Casenave, Economic Advisor to the French Delegation at the Washington Arms Conference; Signor Giuseppe Gentile, Economic Advisor to the Italian Delegation at the Washington Arms Conference; Dr. John Mez, Washington Correspondent to the Frankfurter Zeitung.

The active co-operation of student bodies in all of the local colleges has been enlisted and there is very indication

FRIDAY THE THIRTEENTH HOODOO SHUNS TECHNOLOGY

Contrary to the expectations of a number of superstitious engineers, Friday the thirteenth of the month proved to be entirely free from casualties of any kind. No absent minded student en route for recitation slipped on the ice or was struck by an automobile, according to the report made by the Institute Medical Department to THE TECH.

The only misfortune of any sort occurring to the undergraduate body was the appearance of two cases of mumps during the day. The patients were able to leave the office of the Medical Department without assistance.

AMERICAN LEGION ELECTS MAJOR SMITH COMMANDER

Major Albert S. Smith, Superintendent of Buildings and Power, has just recently been installed as Commander of Winthrop Post 146, American Legion. Major Smith has been a resident of Winthrop for the past thirty years and during that time has held many public positions among which were, Chairman of the Board of Health, Chairman of the committee on increased school accommodations, and Fire Engineer. The vote electing him Commander was unanimous.

TECHNOLOGY PLAYS B. C. ON ICE TONIGHT

Boston College and Beavers
Expected to Provide
Close Contest

BOTH GOAL-TENDERS GOOD

The Technology hockey team plays Boston College at 8:15 o'clock this evening in the Boston Arena. B. C. and the Institute are old rivals on the ice and have a reputation for providing fast and hard fought games. Both institutions are reported to have combinations playing a better brand of hockey than usual this year.

It was feared that Boston College would present a rather crippled lineup this evening, three of its best skaters having been on the hospital roll a couple days ago. John Curry is the only regular who won't be on duty tonight, however. John is a veteran who usually fills the left wing post and is out with a bad knee. Captain Leo Hughes, who'll probably be the fastest man on the ice, will menace the Beaver puck-chasers despite reports that he was too sick to play.

No Rest for the Team

Ed Powers will start the six Engineers who faced off with Dalhousie last Friday. Trimming the Nova Scotian champs didn't earn the team a rest. Ed put them through a stiff hour's work late Saturday afternoon in which three men brought the puck down the ice and endeavored to elude Captain Nickle, the masterful goaltender.

One of the weakest places on last winter's B. C. combination was goal. Fitzgerald, the present net-man, is rated as very good on the Heights and the team has lots of confidence in his ability. Fitz played with Cambridge Latin last year and was All-Scholastic goal. Advance reports credited Duke McIsaac, Dalhousie goaltender, with a wonderful reputation which he didn't live up to. Fitzgerald's case is quite different, since he is used to the Arena, though he will have a hard job matching Hugh Nickle's work at the Institute net post.

All Defense Men Veterans

The defense pairs on both sides are veterans and will be a big factor in keeping the score low. Len Morrissey and Ed Garrity represent Boston College while Neville DuVernet and Neil MacNeil are point and cover-point for the Engineers. The four men all took part in the whirlwind series of three games between the outfits last winter, two of which B. C. won.

Coach Fred Rocque says he's never found the Engineers any easy team to trounce and is always looking for a good old fashioned brawl when he faces them. The lads from the Heights

TICKETS FOR DORM DANCE THURSDAY ON SALE TODAY

The tickets for the dorm dance which will come on Thursday, this week, go on sale today. This practice of releasing the tickets the Monday before the dance will be continued in the future, so that everyone may have an equal opportunity to purchase them. The members of the dorm dance committee will have the tickets for sale, there being none available at the Coop or Walker.

Hal Hallett's American House orchestra has been engaged to furnish music for the occasion, as has already been announced. The committee in charge is attempting to satisfy everyone by varying the music for each of the dances. There will be favors for the ladies, and the usual number of features.

CALENDAR

Monday, January 16
5:00—Meeting for Voo Doo candidates, room 309, Walker.
Tuesday, January 17
7:30—Chemical Society smoker, main hall, Walker.
8:00—Tech Show Ballet rehearsal, east lounge, Walker.
Wednesday, January 18
6:00—Faculty Club dinner, Faculty dining room, Walker.
8:00—California Club smoker, Faculty and Alumni room, Walker.
Thursday, January 19
6:00—Mr. Copithorne, reading, Walker Library.
8:00—Dorm Dance, main hall, Walker.
Friday, January 20
8:00—Catholic Club dance, main hall, Walker.
Wednesday, January 25
6:00—Masonic Club dinner, Faculty dining room.

Should the Student Tax Be Raised?

OUR ATHLETIC TEAMS

One of the greatest reasons for the need of increasing the athletic budget is the growth of the number of teams from five to fourteen. When the Student Tax was inaugurated there were only five teams to be provided for: track, crew, wrestling, tennis and swimming. The class teams were to be cared for by the money allotted to the classes.

Now, however, there are fourteen Varsity teams and sixteen freshman teams, counting the Field Day teams. The Varsity teams are: track, cross-country, swimming, crew, tennis, wrestling, hockey, boxing, basketball, gym, soccer, fencing, rifle and golf. There are also two Varsity track relay teams. The freshman teams are: track, cross-country, swimming, crew, tennis, wrestling, hockey, boxing, basketball, gym, soccer, baseball, rifle and Intercollegiate relay.

The increased number of students now in the Institute has raised the total revenue from the Tax about 75% but the Varsity teams have grown to 280% of their original number, exclusive of the freshman teams. In like manner the class teams have increased from the eight original teams (Field Day) to the twenty teams of today; 250% of the original. The greater the number of teams the greater the number of men who will be able to participate in athletics. An increase in the Student Tax will give us more teams and better support than we have and thus will give us athletics for the majority.
