MAY ADD BROWN TO LONG LIST OF WINS

Cub Hubbard's Men Anxious to Bring Bruin Down to Earth

A real game of basketball with plenty of thrills and fight is on the cards when Beaver clashes with Bruin in the Walker gym at 8 o'clock Saturday night. Once this season Brown met and conquered the Institute but Cub Hubbard's five is planning to have the second battle tell a different tale. Last week's steady work-outs kept the varsity at top speed and after last night's contest they should be ready to give the invaders all the competition they are looking for.

Brown Sends Veteran Team
Brown is reported as being highly confident of repeating her earlier victory and is sending up a veteran quintet which has made a very creditable record on the floor this season. The Bruin captain, like Cub the Engineer leader, plays a defense position and directs his team from under his own basket. Captain Miller has at times played a shifting game and headed a formidable attack himself so that the Institute defense are on their guard against him. All the men are veterans of last year except the center.

Boxers Out to Beat Yale in Meet Saturday

The Institute boxers journey down to Yale today to take on the Eli white hopes. Very little is known of the calibre of the New Haven mittmen other than the fact that the team is composed of the same type of boxers that took the Engineers' number last year. With Technology this season, however, the prospects are by no means dim, and the Yale-Technology boxing meet will by no means be a one-sided affair.

For the Institute, Al Lindsey will cover the 115 pound class. Al has been doing a good deal of his practice in secret and his Yale opponent will have a hard time convincing Al of the Eli's supremacy in that class. Bob Smith, who recently took on Fritz Paul in two three-round bouts, and had a stiff go in winning both will fight in the 125-pound class. Lew

Phillips, who is long on sparring and foot-work, is down on the cards as the Engineers' 135-pound representative. Ed Moll, captain of the Beaver squad, will be in the 145 pound class. If the home team has a man capable of the "give and take" game, there is no doubt but that this bout will give those present all the action they want.

The Secret of Leadership

STATISTICS show that as a college-trained man your chances of business success are three to another man's one. The only question is *how long* will it take to reach the point of success. In addition to your undergraduate work, which should serve as solid foundation, it will be well to consider the advisability of special training which will cut off years of apprenticeship in the business world.

The Babson Institute offers an intensive training course of one or two years — which teaches the fundamental principles of business and *how to apply them* in the conduct of commercial affairs. By laboratory methods the student is shown and taught the principles of Executive Management which have built many of America's leading concerns. Babson Institute is conducted for the purpose of aiding young men, who are to occupy positions of responsibility and trust to fill such positions ably and with credit to themselves.
