Men Needed for News, Editorial and Business Departments

All interested come around to the general meeting of the entire staff and candidates next Monday at 5 P.M. in the Faculty and Alumni Room, Walker Memorial.

Superintendent's Office Crowded to Overflowing

If all the students belonging to the unclaimed articles now held at the office of the superintendent of buildings and power should call for their property at the same time, it is likely that the office staff would be kept very busy for a time, or many students would be kept waiting for a time.

At present there are enough books to found a well-endowed technical library, a choice selection of slide-rules, and considerable mail. A list of names of about a hundred men to whom this mail is addressed is posted on the bulletin board near the information office. Any of this property may be claimed at the superintendent's office, room 3-005. The books and rules unclaimed at the end of two weeks will be donated to the T.C.A.

LEHIGH NEWSPAPER USES ARTICLE BY PROF. W. FRANKLIN
The article written by Professor W. S. Franklin of the Physics Department entitled "Should A Technical Education Be Ameliorated?" appeared recently in a copy of the "Lehigh Brown and White," the undergraduate newspaper of Lehigh University. This article first appeared in print in The Tech Engineering News last year. Professor Franklin read it to the various sections in freshman Physics during the past years.

RATHSKELLER

Through SCHOOL~ Through COLLEGE~ In BUSINESS

Eversharp and Wahl Pen are America's finest-working and best-liked pencil and pen. When you buy these two you acquire writing companions for life.

Eversharp was the first successful mechanical pencil—and its features can't be copied. Eversharp lead never wobbles—the exclusive rifled tip holds it absolutely firm. The automatic index always tells how much lead is in the barrel. And Eversharp craftsmanship gives a balance to the pencil that suits your hand perfectly.

Wahl Pen in all-metal is the outstanding fountain pen achievement. The all-metal barrel cannot crack or split. You fill it less often because it holds more ink. And it will last a lifetime.

Eversharp and Wahl Pen are essential in school, in college and in business. Buy both, in gold or silver. Eversharp, \$1 to \$10; Wahl Pen, \$4 to \$10. Solid gold at higher prices.

The New Wahl Pen, engine-turned in jet-black rubber, is the best looking and most practical rubber fountain pen you have ever seen. Price \$2.50 up.

Made in U. S. A. by THE WAHL CO., Chicago

EVERSHARP matched by WAHL PEN

IMPORTANT. A pencil is no better than its lead. Don't use a poor quality lead in your Eversharp. Use Eversharp leads, which are recognized as the finest that can be made—a fact proved by over 200,000,000 which are sold every year. They are made to fit the pencil. Get them. Seven grades, from very soft to very hard. Ask for the new small-diameter colored leads, too! In the red top box.
