

THE COLLEGE ANSWERS

(Continued from Page 2)

Laws and goody-goodies are not invited to this party. Reasonable people are. It is simply time to get back to decent fundamentals, not to "must not" and old fashioned prudery. This is a new fashioned world where reason must replace command, where companionship must replace paid supervision and where real direction will come only by force of example. The colleges are finding a wonderful response from the present generation. The colleges are more fundamentally religious than they have ever been. I have been back in educational work for four years. I have seen men under the influence of liquor; I have seen real he-fighting but I have not yet seen a mean act. The colleges accept their individual jobs. Will you accept yours?

President Arthur E. Morgan of Antioch College recently stated to the Harvard Crimson that he believed that a finer result could be obtained at Harvard if the College and the University were amalgamated, and a six to eight year course of study representing both cultural and professional elements were followed.

STONE & WEBSTER

CHEMICAL SOCIETY

Today is the last day to sign-up for the trip to the Graton-Knight and American Steel and Wire Companies at Worcester. Details of trip and sign-up list are posted on Prof. Keyes' bulletin board.

WESLEYAN PROFESSES HAVING DRYEST CAMPUS

Of all the colleges represented at the recent college prohibition conference, Wesleyan claimed to have the least difficulty with undergraduate drinking. Dartmouth and Princeton had to give up their Junior Proms because the problem became so serious. Holyoke and Wheaton have discontinued their annual men's college glee club concerts and dances because the men came so well supplied with liquor. Harvard has had men arrested for bootlegging. It was asserted by the Wesleyan delegates that their was the driest campus of all.

THE BEST PLAN
for a Class Fund

If you want to ensure the success of a class alumni fund, adopt the plan of THE TRAVELERS, New England's greatest insurance company.

FEATURES

Endowment insurance is the means.
The fund is completed in 20 or 25 years.
Money on any insured man paid immediately if he dies, or accumulates at compound interest for balance of Period if desired.
Premiums decrease materially if deaths occur.
Premiums are paid from a common fund.
Failure of an unfortunate member to come across does not diminish the endowment.

It delivers the goods to Alma Mater.

It makes the Class glad they did it.

It is simple—and cannot fail!

The committee or trustees are relieved of details.

Seniors Have You Ever Appreciated
Your Advantages?

Twenty years ago Rogers was the "Building 10" of Technology. Scattered up and down noisy Boylston Street were other buildings of the Institute. In this busy section of Boston worked the students of yesterday—crowded and cramped for room—lacking proper equipment—and dreamed of the new Technology.

Through the generosity of these Alumni you are realizing their dream of beautiful buildings—famous laboratories. Will you give to the students of tomorrow the added advantages of adequate dormitories—another gymnasium—a swimming pool—a beautiful campus?

The Endowment Insurance Plan provides a way in which every Senior may do his part individually. It has the support of your college leaders. With a payment of less than \$10 yearly you and the men of the succeeding classes will make possible an Endowment Fund of approximately \$3,000,000.

This Company stands ready to assist you in any way in making possible this gift to Technology.

Harry Upson Camp, M. I. T. '18
